- 5 for 50c
- 1/4 oz. 40c, 1 oz. 75c
- 1/2 lb. $2.00, 1 lb. $7.50

To the Professional and Beginner:

HOW TO MAKE MARKET GARDENING PAY

THE PROFESSIONAL MARKET GARDENER and the one about to begin Market Gardening are alike anxious to make market gardening pay. To make market gardening pay, and how to do it, is just as important to the professional as to the beginner. When we say, the prime essential is to procure the best seeds that money can buy. Buy the best varieties. Select the earliest, the most productive, the best carriers and the best sellers. Don't hesitate a moment to plant the best—the price is of little consequence providing you get just what you are seeking for, and secure the highest price; the market will invariably pay well for the best produce that is brought to it. Poor seeds will never produce good crops, nor vegetables of best quality. In vegetables as in fruits it is true in price that counts; high quality always insures highest market prices. Best quality and highest market prices spells success to every market gardener who grows for the home or distant market.

Many thousands of market gardeners throughout the United States have found by actual experience that the best seeds obtainable are only to be had from The Moore Seed Company. 125 Market Street, Philadelphia, Pa., that they have made it a life long study and work to produce the best varieties and strains of seeds calculated to insure the most profitable and abundant crops and that will command the highest prices on any market, no matter where sold.

WE ARE CAREFUL to only recommend the best varieties.

WE ARE CAREFUL to use the utmost care and caution in selecting our seeds as well as in growing our seed crops.

WE ARE CAREFUL to use the greatest care in preventing improving and handling the seeds while harvesting.

WE ARE CAREFUL to send out no variety we have not tested in the most exhaustive manner in many localities, as to its suitability for earliness, size, color and general adaptation for the market intended.

WE ARE CAREFUL not to send out any seeds we have not given a good and thorough test for germination. Our tests in this respect are very thorough and are conducted both in greenhouses and in the open ground as occasion requires.

SOMETHING NEW. We have something new and good in seeds all the time. Our seeds are in greater demand than ever before; in 1918 our sales were 33% greater than any previous year in our history, and we assure you it will be big money in your pocket to buy your seeds from us. Write us if you wish to know anything about our seeds.

IN CONCLUSION. We wish to acknowledge our many thanks to our customers for their loyalty and patience. It affords us great pleasure to receive your orders and receive your kind expressions of satisfaction, for it indicates that our efforts to please and assist you have been successful. We have tried harder this year than ever before to offer you in this catalogue newer and better varieties than last year, as well as a larger assortment and at prices that will induce every market gardener who seeks the greatest profits to send us an order.

The weight limit in the local and second zone is 70 lbs., all other zones is 50 lbs.

**IMPORTANT**—In remitting postage always add it to the foot of the order as a separate item—this will help to avoid mistakes. The local postmaster will inform you what zone you are in from Philadelphia, Pa., if you are in doubt, and you can add for postage accordingly.

**IMPORTANT**—When sending money to cover cost of postage allow for weight of box or packing material. For example, allow for two pounds’ postage on one pound of Beans or other seed as the package when ready for mailing will weigh over one pound. One quart of Peas or Beans weighs about two pounds; remit postage for three pounds.

**OUR BUSINESS RULES**

**ABOUT WARRANTIES, ETC.**—The Moore Seed Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any Seeds, Bulbs or Plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

**REMIT MONEY WITH ORDER.**—Money can be sent safely by Post Office Order, Express Money order, Registered Letter, Bank Draft or Check.

**OUR PRICES** include bags, boxes and free cartage to depot. Bags are free excepting on Clover, Timothy and Millet.

**ERRORS.**—We exercise the utmost care in filling orders, but in the rush of our busy season errors will sometimes occur, in which case we shall appreciate being advised of the fact at once and proper correction will be made. Please keep copies of your orders for reference.

**WRITE YOUR NAME, POST OFFICE, COUNTY AND STATE** as distinctly as possible, especially the name. Many orders reach us lacking either or both; customers when writing about unsigned orders will aid us in identification by mentioning the articles ordered and quantity.

**GIVE FULL SHIPPING INSTRUCTIONS** on each and every order you send. To avoid chance of error, never write letters on the same sheet as your order.

**IF GOODS ARE WANTED C. O. D., 25 per cent. of the amount must accompany the order. NO payment for less than $5.00 will be sent C. O. D. by Parcel Post or Express.**

**WE SELL** ½ pounds at pound rates, ½ pecks at peck rates, ½ bushels at bushel rates except where noted.

---

**A WORD TO OUR CUSTOMERS**

It will be Money in Your Pocket to Buy the Best Seeds

**MANY THOUSANDS of the most successful MARKET GARDENERS and FLORISTS throughout the United States use no other**

**WHY WE ARE MOST RELIABLE:**—Because we are the only seedsmen in the United States who grow seeds especially for Market Gardeners and Florists. Our seeds are also the best quality of seeds possible for the market, garden and florist trade. We send out only such strains as are adapted to the wants of the most critical, and offer nothing that should disappoint those engaged in this important business.

**Asparagus Culture**

Our little 174 page book tells the market gardener all about how easy it is to grow it.

**Every Market Gardener Who Wishes to Make Money Should Have It**

The book is finely illustrated and discusses various methods of culture, gathering the crop, how to pack for market, also many other equally important subjects.

**Bound in cloth 75c., postpaid, or will be sent free to all who send us an order for Asparagus seeds or plants amounting to $5.00 or upwards. It must be asked for with the order.**

**Starkey’s Mammoth Early Prolific Asparagus**

--

---

**Starkey’s Mammoth Early Prolific Asparagus**

The best and most profitable sort to grow.

This highly valuable new variety has been grown early for a number of years by one of Philadelphia's most successful market gardeners, who invariably cut the largest and hand-selected roots ever sent to this market, from ten days to two weeks earlier than his neighbors and two years, increases his sales, and brings high prices. This asparagus has attracted much attention from dealers and commission merchants, generally using one year's seed. We are anxious to get it. The color is notably different from either early or late, making it possible to harvest Mammoth or Palmetto, while the stalks are more tender and succulent. Its market size can be realized from the fact that in whole crops three stalks will average a pound in weight, and it requires much less labor in cutting and bunching, thus lessening the expense of marketing. Every one who ever saw this highly valuable variety pronounces it much the superior to any other known sort. It is beyond question the best, largest, earliest and most profitable for the market gardener to grow. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long are perfectly tender. The quality is exceedingly fine, growth rapid and remains in good condition for several days after being ready to cut. It is very productive, throwing up a perfect mass of very large sized stalks of the finest green color and very handsome appearance, and invariably commands a much higher price than any other variety. Our customers advise us that it never stores badly through the winter, and we advise our customers to place their orders now, as the supply will be limited.

Prices on seeds: Pkt. 10c., oz. 25c., lb. 75c., lb. 2.50, 5 lbs. and upwards $4.10. For three-year-old roots, per 100 $1.25, 1,000 $10.00; two-year-old, per 100 $1.50, 1,000 $15.00; five-year-old, per 100 $2.00, 1,000 $25.00; 500 $75.00; 1,000 $150.00. We will furnish 5,000 two-year-old roots for $60.00; 10,000 for $115.00; larger quantities are a matter of correspondence. This variety is also known as "The Hub."

---

**Three-Year Old Starkey’s Mammoth Roots**

Many wish extra size roots in order to have earlier and larger returns from their ground, and we provide many thousands each season for our enterprising customers. Per 100 $2.00, 500 for $9.00.

---

**Barr’s Philadelphia Mammoth**

Oz. 15c., 1 lb. 30c., lb. $1.00, 5 lbs. $4.50; two-year-old roots, per 100 $1.25, 1,000 $10.00.

---

**Palmetto**

True sk. Oz. 15c., 1 lb. 30c., lb. $1.00, 5 lbs. $4.50; very strong two-year-old roots, per 100 $1.25, 1,000 $10.00.

---

**Sutton’s Selected Large Green Globe**

Pkt. 10c., oz. $1.50, 1 lb. $5.00.

---

**Sutton’s Colossal Artichoke Roots**

The best and cheapest hog food known. Its yield is so enormous, bordering on the fabulous. Farmers who have given them a thorough trial the past year report yields from three to seven tons per acre.

---

**Eureka Hot Bed and Garden Seed Drill**

Our Eureka Hand Drill is an ideal seed drill for the hotbed, hothouse and open ground. It is a time and labor-saver adapted to all kinds of small garden seeds up to peas and beans. One man with a Eureka Hot Bed Drill and Seeder can do as much seeding as five or six men would do in the same time by hand. The seed is sowed at just the right depth at the proper equal distance apart, and with the correct amount of seed in each spot.

This handy tool is as much ahead of hand sowing as a corn planter is ahead of planting corn by hand. Built to last a lifetime.

NO MARKET GARDNER, TRUCKER OR SHIPPER SHOULD PLANT ANY BUT OUR GERMAN, FRENCH, ENGLISH OR KING OF THE EARLY STRINGLESS VARIETIES. THEY ALWAYS SELL AT FANCY PRICES. MANY GREEN-PODDED SortS NEVER DO.

MOORE'S GERMAN STRINGLESS

This superior variety is a prolific and continuous bearer and absolutely stringless. Very tender and of a distinct and delicious flavor. Very hardy and extremely early.

This most excellent variety was introduced by us into cultivation in 1906, and is a distinct improvement in green beans, and at once becomes popular wherever known. The yield is enormous, and it is very early, and the handsome rich green pods remain tender a long time. It is likewise an excellent sort for fall planting. It is exceedingly popular wherever grown. It is of very thrifty growth and practically mildew and blight proof, and is in great demand among truckers. Large pkt. 10c., 3 for 25c., qt. 50c., $1.75, pk. $2.50, bu. $11.75.

Moore's German Stringless by me. It bears tremendous crops.

Moore's German Stringless snap, brittle quality until late maturity. It has a delightfully delicious flavor exclusively its own. It is a fine shipper and the most profitable green bean I ever grew.

JOHN SINGLETARY, R. D. 1, Buffalo, N. Y.

EARLY FRENCH STRINGLESS

Extra Early, Exceedingly Prolific, Long, Straight, Dark-Green Pods

Retain its delicate-tenderness even when a little old. This new variety recently introduced by us has become famous in all the bean-growing sections of our country. At Paris, where we first saw it growing, it has superseded nearly all other sorts on account of its deliciousness. It cannot be recommended too highly for the home gardener or shipper, for it simply sells on sight. It is a true, stringless, round-podded bean, surpassing many varieties for earliness and productivity, the yield being simply prodigious. The pod is of medium length, in color a very attractive dark green, and is unequaled by any other sort for tenderness and fine flavor. We unhesitatingly recommend it to our growers throughout the United States as being one of the best and most profitable green-podded beans obtainable. Large pkt. 10c., 3 for 25c., qt. 50c., $1.75, pk. $2.50, bu. $11.75.

French Stringless was the first to pick with me. Every plant was fairly loaded with long, beautiful green pods, solid, tender and of delicious flavor, and showed no string whatever until quite old. They retain their color and tenderness longer than either the Valentine or Boston and at a higher prize.

T.J. O'HARA, MARKET GARDENER, FRANKFORD, PA.

MOORE'S ENGLISH STRINGLESS

(Newington Wonder)

Extremely Early, Unusually Hardy, Wonderful Productive, Finest Quality

A new early variety with long, round green pods, entirely stringless, very meaty, delicious flavor, wonderful tender-tenderness, remarkably early, enormous productivity, continuing a long time in bearing, valuable for private gardens. This bean was introduced by us in 1905, and has grown rapidly in the market, and is now one of our standard varieties. It is a perfect green-podded bean, and is greatly appreciated and used by all who raised it. It is a very profitable variety for market gardeners. Large pkt. 10c., qt. 50c., 1 lb. $1.75, 5 lb. $3.00, bu. $17.50.

Moore's English Stringless beans surpassed all my expectations. It was the very earliest and finest of all the green-podded beans in this section. It produced a large quantity of choice pods of the finest quality, and, compared with the Red Valentine and Bonnetie varieties, by market returns were about 50 per cent better.

S.T. JONES, FRECHOLD, N. J.

KING OF THE EARLY STRINGLESS

(Round Pod—Six Weeks)

This excellent variety is a great improvement over the old type, being ONE-THIRD LONGER THAN THE VARIETY. PODS PERFECTLY ROUND, DARK GREEN AND STRAIGHT, and fully as productive as any variety of its size. It also has the additional advantage of being suitable both for early and late planting, being extremely hardy. It will withstand early and late frosts which kill other varieties. A most desirable sort for the market gardener's fall crop, owing to its enormous productive qualities, large and uniform appearance, and ability to withstand one or more frosts. Should be planted instead of either Valentine or Royal. Black Valentine or Regent, being superior to either in appearance. Large pkt. 10c., 3 pkts. 25c., qt. 50c., 4 qts. $1.75, pk. $3.00, bu. $17.50.

 מיור ' S STRINGLESS. Round pod. Large pkt. 10c., qt. 50c., pk. $3.50, bu. $12.50.

LONGFELLOW. Round pod. Pt. 30c., qt. 50c., pk. $5.00, bu. $25.00.

GIANT STRINGLESS. Round pod. Pt. 30c., qt. 50c., pk. $5.00, bu. $25.00.

Early Rally. Round pod. Pu. 50c., qt. 1.00, pk. $5.00, bu. $11.00.

BEANS DWARF OR BUSH

GREEN-PODDED

French Dwarf Horticultural

Vine very productive, compact, upright, with large leaves. Pods very numerous, of medium length, very nutritious, with splashes of bright red on a yellowish ground. They become fit for use as green-shelled beans to eat early and in this condition the beans are very large, of fine flavor, easily shelled and are about equal to and many consider them superior to the Lima in quality. They make a delicious snap bean when young. This is a most excellent winter shell bean when fully grown. As a baked bean they are very delicious. It is produced by our immensely productive flat green-podded variety, valuable alike as a green and dry-shelled bean. Enormous quantities of these beans are annually grown in California, where they are highly esteemed for their richness and flavor known to no other variety for cooking in a dry state. An average of forty-five bushels per acre is not uncommon.

California Pink snap or dry-shelled bean. Enormous quantities of these beans are annually grown in California, where they are highly esteemed for their richness and flavor known to no other variety for cooking in a dry state. An average of forty-five bushels per acre is not uncommon.

We will mail postpaid any 3 ten-cent packets of Vegetable Seeds for 25 cents, or 7 for 55 cents.
DWARF WAX POD OR BUTTER BEANS
EPICURE EXTRA EARLY WAX
The only absolutely Rust-Proof Round Pod Wax Bean ever Introduced
Being very meaty, entirely stringless, this variety can be used as a string bean until nearly ripe; in fact, LONGER THAN ANY OTHER SORT. It is also one of the hardest varieties and does not split like many other round pod wax sorts. Quality is unexcelled. An ideal bean for either early or late planting. An immense yielder, bearing almost the entire summer. No market gardener will be disappointed with this excellent new sort. It combines quantity, quality, good looks and good prices. It is especially valuable for long-distance shipping. Large pkt. 10c., 3 for 25c., qt. 55c., 4 qts. $1.30, pk. $3.25, bu. $12.00.

NEW CALIFORNIA RUST-PROOF BLACK WAX
The Handsomest and Most Productive Flat Podded Wax Bean Ever Grown
In this very early variety introduced by us, we have one of the very best wax sorts ever offered to market gardeners and private families. It will sell twice as well and at a higher price than many other flat podded sorts. The pods are longer, broader and of a brighter yellow color than any other sort, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, hardy, and yield enormous quantities of large, handsome, flat, meaty pods, borne well up from the ground. They are not at any disposition to rust no matter where grown. It is from eight to ten days earlier than the Davis or Flageolet Wax or any other flat pod wax sort. It is very hardy and will stand many frost nights in the early spring than any other sort. We particularly recommend this valuable new sort to all our market garden friends. Large pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 1 pk. $1.25, bu. $8.25. Special prices for 5 bu. lots and upwards will be made upon application.

MOORE’S STRINGLESS KING OF THE WAX
New, Perfectly Distinct, Immensely Valuable, Marvelously Productive, Extremely Early, Round Pod, and of Very Fine Flavor
This is a first-class early wax bean in every respect, having originated with one of our Philadelphia market gardeners, who never failed to send his neighbors for less than $20.00 per bushel. Plant of robust, branching habit, should be planted thinly so as to allow plenty of space for bearing. The pods are round, long, and of a beautiful, bright, golden transparent yellow color, very tender, stringless and entirely free from rust, and remain tender a very long time. Pods are long, thick, very attractive, very meaty and hang in remarkable profusion, and continue to bear a very long time. It will mature fully as early as our new famous California Wax. A market sort, it invariably brings the “top notch” price. We recommend it to all our market garden friends. Pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 4 qts. $2.00, pk. $3.75, bu. $14.00.

PROLIFIC EVERBEARING WAX
The Most Productive, Delicious and Best Selling White-Seeded Wax on the Market
This is a first-class wax bean in every respect. The pods are nearly round, of a beautiful bright yellow color, long and hang in perfect clusters well up from the ground. It is very early and hardy and produces a long while in bearing, and this combined with immense productiveness and handsome appearance and most delicious quality, has made it a favorite with market gardeners everywhere. As a dry bean for winter use it is the best we have ever eaten. Large pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 1 pk. $1.25, bu. $8.25.

HOPKINS, GOLDEN STRINGLESS. A very early, round podded sort of great value to the market gardener. A heavy yielder and good market sort. Will stand more cold weather than other wax sorts. Large pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 1 pk. $1.25, bu. $8.25.

HODSON WAX. Large pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

DWARF WHITE KIDNEY WAX. Round pod. Plt. 30c., qt. 55c., 4 qts. $2.00, pk. $3.50.

WARDWELL’S KIDNEY WAX. Flat pod. Large pkt. 10c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

BRITTLE WAX. Round pod. Large pkt. 10c., 3 for 25c., pt. 50c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

CURRIE’S WAX. Flat pod. Pkt. 30c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

PENCIL POD BLACK WAX. Pkt. 10c., pt. 50c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

DWARF BEANS FOR SHELLING
MEXICAN GREAT AMERICAN SOUP BEAN. Everybody relishes a good bean soup, but ninety-nine out of a hundred varieties of beans are too large and lack that rich delicacy of flavor that a soup bean should have. Now the American nation is great for good soup. They are known the world over for that, and a bean soup is one of their great specialties. We know the travelers traveling in Mexico that everywhere bean soup was served, and the rare delicacy and flavor thereof called forth pleased remarks from every traveler. The secret of the whole thing was that they used a small soup bean. The size of the bean is smaller than a small pea, is manifoldly flavored and just the article required to make a magnificent bean soup. A pint of beans will grow sufficient beans to supply a good-sized family all winter, while for baking there is no bean that side of the star that can equal it in quality and richness of flavor. Plt. 10c., qt. 55c., 4 qts. $2.00, pk. $3.50, bu. $12.00.

ROYAL WHITE KIDNEY. Are grown almost exclusively for shell or soup beans, of very delicately rich flavor. Plt. 10c., pt. 50c., qt. 55c.

EARLY MALLOW NAVY OR PEA. A very productive sort, with fine rich flavor. Special good stock. Very nutritious. Highly recommended. Plt. 10c., pt. 30c., qt. 50c., 4 qts. $1.75, pk. $3.00.

BLACK TURTLE SOUP BEANS. It cooked in the form of a soup until the bean and skin be soft, they will have the exact taste of soup made from the famous Diamond Back Turtle. Plt. 10c., 3 pkts. 25c., pt. 50c., qt. 55c., 4 qts. $2.40.
MOORE’S SUPERB NEW BUSH LIMA BEANS

Moore’s Profit-Making Lima Beans—Every Market Gardener Should be Careful to Plant Our Specially Selected Varieties

MOORE’S NEW GIANT

Sturdy Erect Bushes Filled with Luscious Green Beans. Produces Yields, Early and Continuous Bearer. Handsome Pods 4 to 5 inches in Length. Both pods and beans are twice the size of Kummer's Thorburn or Deere's Bush Lima, It is equally erect habit. It branches freely with all the branches held upright, and the pods high above the ground. No pods or beans deformed from resting on the ground.

Moore’s New Giant Bush Lima. The beans are ready for use as early as those of the Burpee Bush Lima, bearing tremendous crops and furnishes the most delicate beans for the table earlier than most pole varieties. The pods contain four or five handsome deep-green beans of the most luscious quality and owing to the fact of the beans being so closely packed they shell very easily.

Moore’s New Giant Bush Lima not only produces immense crops but has additional merit over all other varieties of the “Potato Lima” types, both tall and bush. Even when full size the beans are tender, juicy and sweet of flavor when cooked. This cannot be said of the Challenger, Deere’s or Potato Lima sorts. On account of its close, compact and upright habit it cannot be planted one-third closer than the old Burpee, Kummer’s or Deere’s Bush type. Pkt. 15c., 2 pkts. 25c., 4 pkts. $2.75.

MOORE’S NEW BIG POD BUSH LIMA

In this we offer you the Earliest, Largest and Best of all LARGE BUSH LIMAS. The pods are truly enormous in size, filled with beautiful luscious green beans larger than any bush limas ever produced before. The pods are longer, but not as thick as our New Giant Bush.

Moore’s New Big Pod Bush Lima when compared with the older sorts is radically different: the pods are borne in clusters, and the beans are much larger, while the beans either green or dry are about twice as thick and of the same luscious flavor as our Giant Bush or Burpee’s Thick Green Pole Lima. The beans either fresh or dried are of a delicate greenish white color, and ready for use from 6 to 8 days earlier than the earliest pole lima. We would like to tell you many more nice things about it if we had the room. Pkt. 15c., 2 pkts. 25c., qt. 75c., 4 qts. $2.75, pk. $5.00.

NEW DWARF FRENCH SNAP FLAGEOLET BEANS

Bean connoisseurs who appreciate the delicious and well-dressed dishes of dwarf beans served in the fine restaurants and hotels of London and Paris will find these few types which we have imported from France to meet their most fastidious tastes. We thus bring Pale and London bean delicacies direct to your door and table. These varieties are adapted to growing in greenhouses, frames and the open ground.

Sutton’s Forcing and prolific bean from England, which produces an excellent crop within a very short period from the date seed is sown. Although the plant is well adapted for culture under glass it is entirely as well suited in the garden beds and the frame. In fact, it is one of the few varieties that is useful both for indoor and outdoor cultivation. Pkt. 15c., pt. 35c., qt. 75c., pk. $1.50.

Moore’s Dwarf Sugar Forcing

Moore’s Dwarf Sugar Bean produces a heavy crop of long, dark green succulent pods, which are entirely stringless, and when well advanced in growth they retain their crispness and break easily. This is quite an early variety, and one of the finest for forcing under glass and also a most excellent sort for outdoor culture. Pkt. 15c., pt. 35c., qt. 75c., pk. $1.50.

Triumph of the Frames

(Improved French Stock.) A great favorite in England for forcing and outdoor culture. Pkt. 15c., pt. 35c., qt. $1.50.

BUSH BUTTER LIMA

A MARVEL IN YIELD! Outyielding all of the Earlies, and equaling the heaviest cropping Lates in number of pods. Of a heavy growth and very prolific, bearing continuously until the end of the season. Very extensively grown in some sections. Pkt. 15c., pt. 35c., qt. 85c., pk. $1.50, bu. $16.50.

Henderson’s Improved Bush Lima

Cultivated for heavy growth and very prolific, bearing continuously until the end of the season. Very extensively grown in some sections. Pkt. 15c., pt. 35c., qt. 85c., pk. $1.50, bu. $16.50.

French Bush Lima (Green Seeded.) New, being the best of all the bush sorts for the family garden. Wonderfully productive. Pkt. 15c., pt. 35c., qt. 85c., pk. $1.60.

MOORE’S WHOLESALE CATALOGUE FOR MARKET GARDENERS AND FLORISTS

Fordhook Bush Lima, (True Stock.) Excellent for outdoor culture. Pkt. 15c., pt. 35c., qt. 85c., pk. $2.40, bu. $15.00.

Henderson’s Improved Bush Lima

Cultivated for heavy growth and very prolific, bearing continuously until the end of the season. Very extensively grown in some sections. Pkt. 15c., pt. 35c., qt. 85c., pk. $2.40, bu. $15.00.

French Bush Lima (Green Seeded.) New, being the best of all the bush sorts for the family garden. Wonderfully productive. Pkt. 15c., pt. 35c., qt. 85c., pk. $1.60.
POLE LIMA BEANS

WILKIE'S PERFECTION PRIZE

The Standard Pole Lima Bean. A Grand Acquisition

This world famous variety originated and the seed was grown by a noted Philadelphia market gardener who discovered us to distribute it by the most profitable and delicious of Pole Limas. Mr. Wilkie was over 25 years perfecting this truly valuable variety and which is unhesitatingly pronounced to be the best large Pole Lima Bean in cultivation by thousands of market gardeners throughout the United States. The beans shell easily, are large, very tender, sweet and juicy, of a fine green color and enormously productive. 162 pods have been gathered from a single vine, single pods yielding 9 to 1 large beans. The vines while young produce pods in great abundance and continue to grow and bear profusely the entire season. This is unquestionably the earliest, best and most profitable variety for the market gardener to plant; the beautiful green color and delicious quality of the beans always create a big demand for it wherever known. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 70c., 3 pk. $2.60, pk. $5.00, bu. $18.50.

READ WHAT OTHERS SAY:

IMMENSE CROP.—The Wilkie Prize Limas I bought from you last year were the wonder of the neighborhood for earliness, yield and size of pods. In spite of the drought I had an immense crop.—William Singlet, Willow Grove, Pa.

GRAND SUCCESS.—An old customer of yours persuaded me last season to plant the Wilkie Prize Lima. I planted 16 quarts and had grand success.—John Long, Pymouthum, Pa.

PLANTED THEM ELEVEN YEARS.—I have planted your Wilkie Lima for the past eleven years, getting fresh seed from you every year. I have tried many other sorts but find it best. I believe it to be the earliest Pole Lima on the market, and the most profitable of its class.—Peter Leaming, Market Gardener, Cape May, N. J.

MOST PROFITABLE.—For Wilkie's Perfection Prize Lima and Walter’s Thick Green Pole Lima are the standard of all that I grow and have used since 1890. In our 19 years’ experience we grow about 500 lbs. per acre at the station. The yield of both sorts was marvelous, right up to hard frost. Will be sure to buy all my seed from you another year.—O. S. Smith, Woodruff, N. J.

VERY RELIABLE.—I have been buying my Lima beans from you for the past 19 years and have always found you very reliable. Your Walter’s Thick Green and Cape May Giants are our favorites.—Chas. F. Nicholson, R. F. D., New Castle, Del.

Walter’s Prolific Thick Green Pole Lima

A grand selection, possessing great merit. Of most delicious quality. Will always command the highest market price. 250 pods to one vine is the record.

Our illustration herewith, which was taken from a photograph, admirably illustrates the shape and compact habit of the bean. It originated and was grown for many years by Mr. Henry Walter, one of the most successful Lima bean growers of Gloucester Co., N. J., and who always jealously guarded his seed from "outsiders." By paying him an enormous price we finally induced him to grow seed which we now offer to our many market gardener friends. This variety invariably commands a higher price in all markets than any other sort, and it will be found very profitable to grow by all who plant for profit. The distinctive improvements are its remarkable productiveness, delicious flavor, and the forming of the beans so closely in the pod. Vines vigorous and productive, with pointed leaves and white blossoms. Pods broad, straight and thick. Beans dark green, tender, sweet and juicy, medium size, broad and much thicker and greener than any other type of Lima, and formed very close together in the pod. This is an excellent sort for the family garden and the best of all sorts for canning purposes. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 70c., 3 pk. $2.60, pk. $5.00, bu. $18.50.

KING OF THE GARDEN. Crop failed.

EARLY LEVIATHAN. (New.) Early and productive. Pt. 40c., qt. 75c., 4 qts. $2.50, pk. $5.00, bu. $18.50.

GREEN SEEDED. An extremely valuable new variety which should be known to every Lima bean grower. Very early, wonderfully productive and vigorous grower, beans large, pods borne in clusters of superior quality and immense size, and filled with immensely large beans of a beautiful green color, and always commands fancy prices. Pkt. 15c., pt. 40c., qt. 70c., 4 qts. $2.50, pk. $5.00.

DIRECTOR’S IMPROVED or CHALLENGER. Thick, round bean of fine quality and a heavy yielder. Pkt. 15c., pt. 35c., qt. 70c., pkg. $2.50.

FAMOUS SOUTHERN BUTTER LIMA. This variety of pole beans is a little larger, and it is earlier to mature than any of the other pole sorts. It is also remarkably prolific, of delicious quality, a continuous bearer, easy to shell, and will prove to slightly cheaper to market gardener in the market garden. The pods are produced in clusters. We strongly recommend it to all our customers as a distinct, valuable and highly desirable pole Lima bean. All who have home gardens should plant it. Pkt. 15c., pt. 40c., qt. 75c., 4 qts. $2.50.
BEANS—Pole or Running—Superior Varieties

CULTURE—These Pole varieties should be planted about 2 weeks later than the Bush varieties. They should be enriched with fertilizer, well-rotted manure in the hills. From 6 to 10 seeds are planted about one inch deep in each hill. Every one with a home garden should plant one or more of these excellent varieties. They are more productive, better flavored and easier gathered than the dwarf sorts.

Lazy Wife’s (Green Pod). The pods, of medium dark green color, measure from one to a half to six inches in length and are solidly productive. They are broad and retain their rich, tender, and stringless qualities until dried. The seeds contain from six to eight round white beans, which make excellent winter dinner beans. Pkt. 15c., 3 pKts. 25c. 1 qt. 80c.

Wren’s Egg or Cranberry. Stringless pods hang in enormous clusters. Beans large, beautifully splashed and spotted with red, and of the highest quality. Being stringless, it makes an excellent snap bean at any stage of growth, and when ripened is unsurpassed for baking or boiling; well adapted for where the summers are long. Pkt. 15c., 3 pKts. 25c. 1 qt. 80c.

THE MOORE SEED CO., PHILA., HIGH GRADE VEGETABLE, FLOWER AND FIELD SEEDS

WREN’S EGG POLE BEAN

Scarlet Runner. Ornamental as well as useful. In northern locations where the summers are cool and short it takes the place of the Large Lima Beans. Plants are of strong, quick growth, bearing large sprays of bright scarlet pea-like flowers. When fully ripened, the dry seeds are of bright scarlet, heavily blotted with purple. Pkt. 15c., 3 pKts. 25c. 1 qt. 80c.

Early Wax Kentucky Wonder. Tennessee White Corn Hill. It is undoubtedly the best variety ever grown for planting among corn, thus securing 2 crops easily from the same ground with but 1 cultivation—this is practical wisdom. The seed is white, pod flat, light green, very meaty, and they are without doubt the most productive green pole bean in cultivation. As a green snap bean they are superior to any sort grown. While it is the earliest pole bean grown, it will continue to bear until frost if the pods are removed while yet young. Don’t fail to plant a dozen or more hills among your corn. Pkt. 15c., 3 pKts. 25c., 1 qt. 80c., 1 qt. 80c., 4 qts. $2.50.

Famous Southern Butter Lima. This variety of pole beans is earlier to mature than any of the other pole sorts. It is also remarkably prolific, of delicious quality, a continuous bearer, easy to shell, and will prove to be decidedly a money maker for the market gardener. The pods are produced in clusters. We strongly recommend it to all our customers as a distinct, valuable and highly desirable pole lima bean. All who have home gardens should plant it. Pkt. 15c., 3 pKts. 25c., 1 qt. 80c., 1 qt. 80c., 4 qts. $2.50.

KENTUCKY WONDER. Tennessee White Corn Hill. It is undoubtedly the best variety ever grown for planting among corn, thus securing 2 crops easily from the same ground with but 1 cultivation—this is practical wisdom. The seed is white, pod flat, light green, very meaty, and they are without doubt the most productive green pole bean in cultivation. As a green snap bean they are superior to any sort grown. While it is the earliest pole bean grown, it will continue to bear until frost if the pods are removed while yet young. Don’t fail to plant a dozen or more hills among your corn. Pkt. 15c., 3 pKts. 25c., 1 qt. 80c., 1 qt. 80c., 4 qts. $2.50.

Old Homestead or Kentucky Wonder. Green color. Vine vigorous, climbing well, and very productive, bearing its pods in clusters. Pods green, very long, often reaching 9 or 10 inches, nearly round when young, and very crisp.

We will send postpaid any two 15c. packets for 25c., or 5 packets for 55c.

New Brazilian Asparagus Bean. This is a big improvement over the old Cuban variety, being much earlier. Pods gro

BEETS

Selected Pedigree Varieties.

Our early Beets are famous everywhere.

THE MOST PROFITABLE SORTS FOR YOU TO GROW—they are the kind that make money for those who sell them. You will be pleased with any or all of them.

New French Trevis e. Positively the earliest dark blood red variety ever introduced and we recommend every one of our 95,000 market gardener friends to plant it largely—it will make big money for them all. It is as symmetrical a beet as can possibly be grown, one of the most delicious and profitable varieties in the market. It is the result of many years of selection and careful working out to produce a beet that will yield a large quantity of big, beautiful, and delicious beet roots. It is highly esteemed by every grower who has tested it. pkt. 10c., oz. 15c., lb. 45c., 1 lb. $1.50, 5 lbs. $6.50.

Wesley's Earliest Market Beet. One of the most wonderful early dark blood beets of the century. A handsome dark blood red, fine grained, showy variety for first early, second early and late planting. The largest dark red early beet ever grown. It makes a long-felt want among beet growers. Every beet salable. Always brings the highest market price. This excellent beet is an improved form of the famous "French Early Red Beet," so extensively grown in the south of France for early shipment to the Paris and London markets, where it is held in higher esteem than any other variety. It is a source of great profit to the French market gardeners, as well as to all others who grow it. Top of medium size, root very symmetrical and will please all who plant it. An enormous yielder. pkt. 10c., oz. 15c., lb. 45c., 1 lb. $1.50, 5 lbs. $6.50.

I have planted your Wesley's Earliest Market Beet for fifteen years with the greatest satisfaction to myself and patrons. No trouble to sell them. L. W. Tole, Wilmington, Del.

Nutting's Extra Early Gem. Mr. Nutting's success and fame as an early beet grower has extended over a long period of years, and the giving of this grand new early beet to the public through us—we have purchased his entire stock—he continues to grow and to have an increasing number of growers who have purchased this beet. It is a most handsome beet having a large, round, deep crimson red root and a fine quality. It is a very early variety and will produce and store well. It is the best beet for early market. pkt. 10c., oz. 15c., lb. 45c., 1 lb. $1.50, 5 lbs. $6.50.

For upward of 25 years your Nutting's Early Gem Beet has been my main crop for early planting. The quality is superb and the top small.

E. W. Lawrence, Jersey City, N. J.

Moore's Deep Crimson Globe Beet. A Grand Second Early and Main Crop Variety. This variety is quite distinct and has become remarkably popular among gardeners in this and other countries. It has been extensively grown and is highly recommended by those who have grown it. It is of medium size, generally about 6 inches in diameter, very handsome in shape, a little deeper than round with a smooth, even surface. The leaves are rich crimson in color, bound on slender stems, which grow quite straight and are thus easily removed. The flesh is deep crimson, ringed and zoned in varying shades. It is an extremely tender, and delicious beet, which grows quickly enough for very early use, it will remain tender for a very long period. pkt. 10c., oz. 15c., lb. 45c., 1 lb. $1.50.

CROSBY'S IMPROVED EGYPTIAN. Very fine stock.
Oz. 10c., 1 lb. 45c., 1 lb. $1.25.

BASTIAN'S EARLY HALF LONG. True seed grown by Bastian. Very choice strain.
Oz. 15c., 1 lb. 50c., 1 lb. $1.50.

EDMUND'S EARLY RED TURNIP. Good second early.
Oz. 15c., 1 lb. 40c., 1 lb. $1.25, 5 lbs. $4.50.

DETROIT RED TURNIP. Our strain is extra good.
Oz. 15c., 1 lb. 40c., 1 lb. $1.25.

EARLY ECLIPSE. 1 lb. 30c., 1 lb. $1.00.

Oz. 15c., 1 lb. 45c., 1 lb. $1.50.

HAINE'S LONG SMOOTH BLOOD. Late intense dark red.
Oz. 20c., 1 lb. 50c., 1 lb. $1.25.

FRENCH SWISS CHARD. (True Spinach Beet.) The best and most profitable sort for market. pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. $1.50.

Best All-Round Cabbage Ever Planted

"I have had three years' experience with Moore's Early Stonehead and I have found it by far the best all-around Cabbage I ever planted. It is a rapid grower, very hardy, and will head at least 40 per cent or better than any other variety I know. It makes a beautiful head, and surpasses all others I know in flavor. A certain merchant in my town got quite a number of new customers one season simply because he handled Stonehead. By time of taming seed and planting you can make early, medium and late of it."

A. S. Hansey, Scranton, Pa.
THE MOORE SEED CO., PHILA., HIGH GRADE VEGETABLE, FLOWER AND FIELD SEEDS

A BIG MONEY MAKER. FOR SPRING. FOR SUMMER.
MOORE'S NEW ALL SEASON BEET.

FOR FALL. FOR WINTER.

A BIG MONEY MAKER. FOR SPRING. FOR SUMMER.
MOORE'S NEW ALL SEASON BEET.

FOR FALL. FOR WINTER.

**Something New and to the Point**

This is one of the best early market beets in the world.

You Can Make Good Money Growing Moore's New All Season Beet on that Land of Yours.

The public wants this beet and will pay fancy prices for it. It has all the desirable qualities to make big money for you all the year round, no matter whether you grow it for your home market or distant shipping, your profits will be big.

It is the Wonder Beet by All Tests

No matter whether you plant a quarter pound or one hundred pounds, you should not fail to include Moore's All Season Beet. It means big profits to all who plant it, either for an early or summer, fall or winter crop. Roots are perfectly smooth, a beautiful globe, with intense blood red skin, fine grained and very sweet no matter what season in the year they are grown. **Plant it for early. Plant it for second early. Plant it for summer. Plant it for fall. Plant it for winter.** Pkt. 10c., oz. 20c., 1/4 lb. 50c., lb. $1.75.

None Better for the Home Garden

The all important feature that recommends this valuable beet for the home garden is its wonderful productiveness, ease of cultivation and its wonderful adaptation to producing fine flavored beets for the Spring, Summer, Autumn and Winter keeping qualities. The stringy or woody nature so noticeable in some varieties is entirely absent in this wonderful universal variety. Regarded by many as the most satisfactory early beet grown.

Plant Our Frost-Proof Hardy Cabbage Plants And You Will Double Your Cabbage Profits

We have these plants grown especially for us on the Atlantic Coast where the soil and climatic conditions are just suited for growing tough, hardy cabbage plants during the Winter and early Spring. The seed is planted in the open in the months of October, November, December, January and February, and when about eight to ten weeks old they are very tough and hardy. When in this condition they can be shipped and planted in the open ground a month to six weeks sooner than the home-grown hot bed or cold frame plants. These **FROST-PROOF HARDY CABBAGE PLANTS** will stand a temperature of 8 to 10 degrees above zero without injury, the land freezing, or the plants being covered with ice, sleet or snow after they are planted will not hurt them. The top of the plant does not die until your near Spring weather comes up, yet the roots grow from the time they are planted and just as soon as Spring weather starts, the plants grow very fast, maturing headed cabbage ten days to three weeks sooner than you can mature them from hot bed and cold frame plants. **You know what a big profit you will have to get your cabbage early.**

**TO GET THE ADVANTAGE OF THESE FROST-PROOF CABBAGE PLANTS THEY MUST BE PLANTED A MONTH OR SIX WEEKS EARLIER THAN YOU WOULD PLANT HOME-GROWN PLANTS FROM SEED.**

Our cabbage plants are shipped direct from our growing station by mail or express. We can fill orders from December 1st to May 1st. We guarantee delivery while our stock lasts.

The plants may be somewhat wilted and have a hard, stunted appearance. Regardless of appearance, however, they will produce the crop results if given proper growing care.

We offer the following varieties: Early Beauty, Jersey Wakefield, Large Early Oxheart, Charleston Wakefield, Early Stonehead, Model Summer, Succession, Early Flat Dutch and Early Drumhead.

Prices by parcel post, carefully packed, postage paid, to any part of the United States. In lots of 100, 200, 300 or 400 plants at 55c. per 100 plants; 500 plants for $1.85; 1,000 or more at $3.50 per 1,000 plants. Postpaid. Be sure to write your rural route number, box and post office distinctly.

Orders are filled by the 100, not 250 or 500. These prices are for even quantities of one variety to package; if you ordered 200 of one variety and 400 of another variety you would pay at the 100 rate.

Prices for strong plants by express, buyer paying express charges. In lots of 1,000 to 4,000 plants at $2.25 per 1,000; 5,000 or more at $2.25 per 1,000. Plants packed for express shipment, 1,000 or 2,000 plants of a variety to package, weigh about 30 pounds per 1,000 plants. Your express agent can tell you what the charges will be to your station. For the past two years the express service has been congested, and the deliveries slow and unsatisfactory. We therefore advise Parcel Post shipments for all orders, as there is less danger from delay.

Order Early to Get Plants Delivered In Time

When we receive your order for these plants, we have to forward it to our growing station, which takes several days. No plants are kept at our store; nor are any plants shipped from our store. Plants are shipped direct to you from growing station. Plants cannot be pulled or shipped when beds are wet. We sometimes have a week or ten days of continued wet weather which prevents shipment. If you do not receive your plants as soon as you expect them, you will know that weather conditions prevents shipment. You should send your order two or three weeks before you expect to set the plants and you will get them on time. But at all events send it as soon as you can and we will do our best to make prompt shipment.
Silver Asparagus Beets. This is a most delicious vegetable, with a very delicate flavor and slightly acidulous taste. The stalks are tender and mild tastes are cooked and eaten the same as common spinach. It is a great favorite in England, France and Germany, where it is found in almost every garden. The culture is the same as ordinary beets. Plants should be thinned to 30 inches in the row. We earnestly recommend all our customers to grow this delicious vegetable. Pkt. 10c., oz. 20c., 1 lb. 50c., lb. $1.75. SWISS CHARD. Sometimes called spinach beet. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.25.

Moore's Superior Sugar Beets and Mangel Wurzels

SPECIALY GROWN FOR FEEDING PEDIGREE STOCK

In our opinion no crop is a better paying investment for farmers to grow than Mangel Wurzel Beets. The value of these for stock feeding cannot be over-estimated. The results from their use are wonderful, as is clearly shown in the improved health and condition of animals, the increased yield of milk in cows, and the great saving of hay. They can be raised at a very trifling cost and the succulent root and succulent seed will yield immense crops per acre. Certain wealth and prosperity is assured all stock or dairy farmers who feed liberally of roots. Mangels are a valuable food to give brood cows during the winter. Fed in connection with grain they keep the animals healthy, tough, sleek and the system cool. Feeding hogs like them as a change from corn and they keep the appetite up well. It is difficult to obtain a full yield of milk in winter without succulent feed, and mangels supply this to the dairy cow in a palatable form. Mangels help push the calves along during the winter. Plant an acre this spring.

New England Milk and Butter Sugar Mangel. The feeding of this variety will increase your dairy profits from 25 to 50 per cent. It contains less water and more sugar and nutrient matter than any other mangel. In England, where it is considered indispensable for dairy farming, large dairy farmers state that they are not only able to obtain a higher price per ton for milk from cows fed on this mangel, but also that the cows produce fully one-third more milk and butter and are in much better condition fed on hay and the Milk and Butter Mangel, than if fed on hay alone. The largest yield of cattle feed ever known has been obtained from this variety. Chemical tests show it to contain 20 per cent. sugar, while other sorts only analyze from 12 to 14 per cent. It is a compact grower, and if ground be well fertilized, this variety will stand closer cultivation than any other. The root and top is red and very smooth. Oz. 15c., 1 lb. 40c., lb. $1.25, 5 lbs. enough for one acre.

Danish Long-keeping Sugar Mangel. The flesh is a deep golden yellow and is of high fattening value as well. Sheep and most stock have a preference for it over other varieties. It is the longest and best keeping of all mangels. The root will keep in perfect condition until June. The yield per acre under best cultivation is simply enormous. Is especially suitable for calcareous soils. Oz. 10c., 1 lb. 30c., lb. $1.00.

New Mammoth White Red Top Sugar. Wonderfully productive, very rich in food value, very nutritious. An all year green-keeper, yielding 30 tons per acre being an average yield. Oz. 15c., 1 lb. 40c., lb. $1.25, 5 lbs. $5.25.

BRUSSELS SPROUTS

Veitch's Market Favorite. Produces a very early crop of large, sweet sprouts, delicious in flavor. Leaves small, crumpled, pale green in color, standing well out from the stem. Enormously productive and a sure header. The finest of all sorts. Especially grown for a freight market. Pkt. 10c., oz. 50c., 1/2 Ib. $1.25, Ib. $4.00. SUTTON'S MATCHLESS. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

BROCCOLI

Sutton's Snow-White. This valuable new sort is a decided acquisition. The immense large, close, snow-white heads are of spotless purity, alike valuable for a spring or fall crop and a sure crops, where cauliflowers are uncertain. Those who grow for market will find this variety unusually profitable to cultivate. Pkt. 25c., oz. 75c., lb. $2.50, 10 lbs. $20.00.

EXTRA EARLY WHITE CAPE. Heads medium size close, of creamy white color. Pkt. 20c., oz. $2.00.
New Early Gem Cabbage

The Best First Early Cabbage

A valuable new acquisition for all who grow early cabbage. Earliest hard heading cabbage known. A great boon to the market gardener.

All who plant EARLY CABBAGE should plant this. It means big money to all who plant it. It has taken us ten years of hard, continuous labor to produce and perfect the New Early Gem Cabbage, which for extreme earliness and freeness of head, is the peer of any other sort. Every where cabbage is grown specialists have been struggling to combine a hard head with earliness and it must be conceded that until now all these efforts have failed and that the great desire of the market gardener has been left to us to accomplish. We feel confident that at last a variety has been produced which combines extreme earliness with hardness and good size; likewise deliciousness, sweetness and productivity. This is another valuable feature which it possesses and should be taken into consideration by all, viz., its compactness of growth. Notwithstanding the large size of its heads, it is a perfect first early cabbage in every respect. All are safe in planting it, and we especially recommend it to southern growers.

Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. 1.25, lb. 3.50.

Boston Early Hardhead

No One Should Miss Planting This.

Wakefield in earliness, and forming very much larger heads. It is a very distinct type of cabbage and highly praised by hundreds of the most successful market gardeners all over the country. Very uniform in shape and general appearance, fine grained, small short stumpy, with few loose leaves, thus allowing them to be set out near together; it also has a very valuable quality of remaining much longer than any other, after full maturity, without cracking. It is the best early sort for winter, and is probably the heaviest of all the cabbages in cultivation. It makes a fine basket cabbage. Try it.

Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. 1.25, lb. 4.25.

Moore's Selected Beauty Wakefield

This is the best type of Early Wakefield. Our strain is universally conceded to be the best type of Wakefield early cabbage in cultivation. The heads are remarkably hard, outer foliage small, and capable of being planted very close, and will mature all at once. It has always been all one crop, and has the very finest strain of this important variety, and it pleases us to state that we have a really superior strain for Market Garden friends, and we hope they will avail themselves of the opportunity to get out an extra stock of this valuable early variety.

Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. 1.25, lb. 4.50.

New Early Copenhagen Market

It is undoubtedly without a rival as the best type of a great large round headed early cabbage in cultivation. The type is thoroughly fixed, the heads maturing all at the same time (this being a great consideration to Market Gardeners, entailing less labor in harvesting and a clean cut harvest). The heads average about 10 pounds each in weight, are very solid, with small core and of fine quality. It matures as early as our large Early Jersey Wakefield and yields heavier yield per acre than that popular variety. The plant is short-stemmed, the heads being produced almost on the ground level. The leaves are light green, rather small, coarser shaped and therefore can be cut closer than usual with varieties of similar size. We have a fine stock of seed (all grown in Denmark), which is very limited. Per pkt. 10c., 2 pkts. 25c., oz. 50c., lb. 1.25, lb. 6.00.

Large Early Ox-Heart

For many years past the true type of this valuable cabbage has not been offered by any American seedmen. We are proud to say that we are now enabled to offer to our patrons the true type of this famous and valuable old sort. We pronounced it the very best early Ox-Heart Cabbage in existence. The heads are nearly twice as large as the Early Jersey Wakefield, often weighing upwards of 20 pounds, and probably as early as our Boston Early Head. It also stands the cold better than many other sorts. Very few outer leaves, thus admitting of closer culture—upwards of 12,000 can be planted to an acre. Our market garden friends will be pleased to know that it does not burst open like the Wakefield. It is particularly adapted to thin, light soils. This is a great acquisition, as every cabbage grower will at once recognize.

Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. 1.25, lb. 6.00.

CHARLESTON LARGE EARLY WAKEFIELD

The uniformity and trueness of our strain is appreciated by all who use it.

Pkt. 10c., oz. 40c., lb. 1.25, lb. 1.50.

CHINESE CABBAGE

PHILADELPHIA EARLY WINTHROPSTADT

Much superior to imported seed. Solid heads, with short stems. Pkt. 10c., oz. 40c., lb. 1.25, lb. 4.00.

HENDERSON'S SUCCESSION

(proven stock) Our stock is unusually fine. Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. 1.25, lb. 6.50.

PROOF OF QUALITY

"Yong Ox-Heart Cabbage is a wonder, many heads weighing 8, 10 and 12 lbs., as large as a rock. Out of 800 only 10 failed to head; it seems to be a cabbage of great vitality and the bees damage it but little." —S. J. MORGAN, Kansas City, Mo.

"I used your cabbage seed for the first time last year. The Model Summer Cabbage were simply great, hundreds of heads weighing 15 and 20 pounds, and one that I paid $4 for show purposes weighed 28 pounds. It will hold up in good condition twice as long. I trust this will lead us to use your seed more."

M. WARD, Richelieu Co., J.

TO PREVENT STEM and BLACK ROT and CLUB ROOT

Disinfect seed with our 40 per cent. Special Formaldehyde Solution take 1 teaspoonful water, 1 teaspoonful, 1 oz. soap, mix thoroughly; soak seed twenty minutes; rinse clear water and dry. Price, 1-lb. bottle, $.10, not available.
MOORE’S EARLY STONEHEAD CABBAGE

The best Cabbage Novelty in the last 10 years.

A highly interesting and valuable novelty for all who grow cabbage for home use or market or for long-distance shipping. We highly recommend it to all Southern cabbage growers. This superb new cabbage has created a veritable sensation wherever grown. It outyields and outsells any other early or second early flathead cabbage ever produced. Thousands say it is the best cabbage ever grown either for early, second early or late. It is justly said to be the most celebrated cabbage ever introduced. Moore’s New Early Stonehead receives nothing but the most enthusiastic and highest praise from all who grow it, in no matter where, North, South, East or West. It is the earliest flathead cabbage ever produced. 40,000 pounds per acre is not an unusual yield. Moore’s New Early Stonehead Cabbage will surely please all who plant it. A good distinct type all by itself. An early, very hard heading variety maturing from three to five days later than our Early Dixieheart. Somewhat flat to globe shaped, small ribbed leaves, small, very close and of fine, delicate texture; can be planted very close, about 9 inches in the row. A money maker for market gardeners, and very suitable for the home garden. Heads medium size, heavy and hard—solid as a stone—our customers say. It is a sure solid header, always produce a crop, the heads though hard never burst. The superb hard heads are excellent for making slaw or sauerkraut, and owing to their great solidity keep well when stored for winter use. A Fine Type for selling in baskets. It is now extensively grown in all parts of the country and is universally pronounced a great success. Pkt. 15c., 2 pkts. 25c., oz. 55c., 1 lb. $1.25, 10 lb. $5.50.

C. L. Wrigley, Harrisburg, Pa., writes:—“I have been growing cabbage for 29 years and find nothing to equal Moore’s Early Stonehead. It is great.”

ALWAYS TRUE TO NAME

GENTLEMEN—I have been planting your cabbage seed for eight years and they have never failed to produce good crops under favorable conditions. Have always found them true to name and of high germinating qualities, and I have been especially pleased with your cabbage seed, which gave me a bumper crop this season. In ten acres I don’t think there were more than twenty-five heads that went to seed. They proved far superior to seed bought elsewhere. Would not hesitate to recommend them to truck growers anywhere. Wishing you continued success, I remain,

Yours very truly,

DAVID P. CURTIN, Syracuse, N. Y.

FINEST EVER SEEN

“My Moore’s Early Cabbage Head Lettuce is the finest ever seen here.”

E. LEE, Box 45, Florida.

MADE BIG MONEY

“I have made big money every year by planting Moore’s Early Stonehead Cabbage. Had in over five acres last year and seven acres this.”

THOS. S. MYERS, Madison, Wis.
MOORE’S ALLHEAD EARLY CABBAGE

The deep flat heads are remarkably solid and the most uniform in color, form and size of any variety. The hard heads grow so free from spreading leaves that full one thousand more heads than usually can be obtained to the acre. It is really an all-the-year-round cabbage, being equally good for winter. If planters everywhere only knew the excellence of Moore’s Allhead Earley Cabbage, even most large supplies could be met with ease.

NEW MODEL SUMMER CABBAGE

The grandest large heading summer cabbage in existence. In the illustration we display a variety of those which are in our garden—surely the finest type of summer cabbage in existence, whether for medium early, main summer crop or even early fall for winter use. You will miss a wonderfully good thing if you don’t get it. We do in a few days after our Early Stonehead, much superior as a summer sort to successions, being double the size we have never seen many double heads of the sort. It is, without exaggeration, that it is the finest summer and winter heading cabbage in existence to-day, and for summer use it has no equal. It is the cabbage in every respect for the market gardener or private winter, better and solid leaves, larger, more distinct heads, and better flavor than any other cabbage known; only the very best seed will do, and it is equally as good a winter as it is as a summer sort, and the plants will almost catch up in good condition longer than Early Drumhead or Early Flat Dutch. For compact growth and solidity and fine quality, it is without a peer; and as Mr. William S. Lippscott, of Morton, Pa., writes us: “It is the most rapid selling and satisfactory summer cabbage I ever grew.” Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.25, lb. $3.50, postpaid.

NEW RUSSIAN ROUND GIANT

THE LARGEST HARD-HEADING CABBAGE IN CULTIVATION. SURE TO HEAD

This famous new cabbage was first introduced by us from Russia many years ago, where it is the most popular cabbage for winter, and our Russian-grown seed is absolutely unsurpassed, and it well deserves the name Round Giant, for never before have we seen any cabbage that produces such uniformly large, solid heads, or any very large cabbage, in which the heads were so hard and solid. The New Russian Round is uniformly true to type and sure to head hard—“solid as a rock”—and we recommend it to all our market garden friends who wish large, exceedingly solid, compact heads, as being a very distinct winter cabbage, superior to any other for the cabbage in good locations, and we offer only seed of the finest selected strain. From repeated trials, as well as from the experience of many customers, we are convinced that this strain surpasses in every growth and heading, as well as in uniform size and solidity of heads, any other strain of the so-called “Holland Cabbage.” The magnificent heads are nearly round in form, very hard, and firm when at a point where they could be picked or table use there is no variety to equal it for slaws, salads, etc. Cabbage growers will find this a very profitable sort for any market. The market is never out of winter market, as our seed is grown for us by a celebrated Russian garden market gardener. Our seed is grown uniformly, and will give the greatest satisfaction to all. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.25, lb. $5.00.

NEVER SAW ANYTHING LIKE IT

A. J. Linde, Astoria, Long Island, writes: “Have grown cabbage for twenty-two years, yet I never saw anything like the New Russian Round Giant I received from you. Not a plant missed making an extra large, round, firm head, very fine grained, tender and handsome in appearance. My entire crop of 15,000 heads rated as extra fancy and returned me $2.00 per hundred above regular good stock. Enclosed find money order for four pounds more.

LARGE DARK RED DANISH

(Danish Round Red.) We undeniably pronounce this the best of all late Red Cabbages, producing uniform large solid heads, a blue keeper, of large solid heads, a blue color, which extends to the center of the head, and the best of all late sorts for market. Many of the heads average eleven pounds each, and it can be grown on any winter variety, and never fails to head, and for close packing or table use there is no variety to equal it for slaws, salads, etc. Cabbage growers will find this a very profitable sort for any market. The market is never out of winter market, as our seed is grown for us by a celebrated Russian garden market gardener. Our seed is grown uniformly, and will give the greatest satisfaction to all. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.25, lb. $7.50.

BRUNSWICK NETTED SAVOY

The Hardest Heading, and Best Variety for Early or Late Crop. Heads large, very compact, solid and deliciously tender and sweet, and well adapted for either early or late or late head or even winter crop. Wonderful choice of heads, and the only one that will stand so well under any conditions until May. Walter F. Denton, Conshohocken, Pa., writes: “I have grown all the double hooded kinds of Savoys, but found no other half so good as a keeper. It is being grown so much in our market conditions on the 15th of May, and also differs from the kind of Savoys in making heads as well as a rock, standing late frosts in the field better than the Fox or Marv variety, or any of our other strains of rich, strong flavor of surpassing excellence of netted look, cause it to outsell all other varieties. Equally valuable for early or late crops. Very quick to develop.” Pkt. 15c., 2 pkts. 25c., oz. 50c., 1 lb. $1.50, lb. $5.00.

Market Gardeners well know how difficult it is to get a good and satisfactory stral of Savoy Cabbage. You will have no trouble whatever if you buy our Brunswick Netted Savoy Seed.

CHINESE CABBAGE—HANG KOW SELF-BLANCHING. (See illustration from cover page.) This is the heading and best variety of Chinese Cabbage. It is absolutely the best firm heading sort; it will not scald or burn, and will make a head during summer much much larger. It is when other varieties fail. It is excellent in quality, crisp, tender at all times, with a fine rich color flavor, handsome in color, vigorous growth and fine quality. We recommend it to the market gardener. A first class variety for the home garden. A good keeper, good shipper. the best seller. Blanches quickly white, crisp and delicious. Pkt. 20c., oz. 50c., 1 lb. $2.00, lb. $5.50.

Pe Tsai Chinese Lettuce or Celery Cabbage (Genuine Wong-uga-pak Street variety.) These plants, when offered, either in crates or car lots, while growing its general appearance is very similar to our romaine celery. Be sure to plant it, the demersal of Asparagus beet is rapidly growing. Pkt. 10c., 5 pkts. 25c., oz. 50c., 4 lb. $1.25, lb. $4.00.
THE WORLD'S BEST CABBAGE SEED
IS GROWN BY AND CAN ONLY BE HAD FROM US

NEW ROYAL DANISH BALL HEAD CABBAGE

PROCURABLE ONLY FROM THE MOORE SEED COMPANY, PHILADELPHIA.

The True Danish Round Head Type, It is the best of all the Danish cabbages. Early, head, short stem and the best keeper of all. Always commands a higher price than any other type of Danish cabbage. 40,000 pounds per acre is no unusual yield. The magnificent heads are nearly round, very hard and solid, and the best keeper of all the types of Danish or Holland cabbage. A very robust grower, close outer foliage, never rots or blights in the field, and about two weeks earlier and shorter stem than the old type. The heads when trimmed are of a beautiful, attractive clear white. Pkt. 10c., 3 pkts. 25c., oz. 45c., 1 lb. $1.25, 1b. $1.50.

THE BEST CABBAGE IN NEW YORK STATE—Gentlemen—"I am both a grower and a shipper of cabbage. I planted 23 acres of your New Royal Danish Ball Head, and all who saw it, as well as myself, pronounced it the best strain of Danish Cabbage in New York State. My crop averaged 18 lbs. per acre, and I did not lose one head from rot or blight."—S. J. Thomas, N. Y.

THE EARLIEST TO MATURE—"I planted three kinds of Danish Cabbage this season, including your Royal Ball Head, which was ready to cut twelve days before the other. For solidity and long keeping it beats anything in my twenty-two years' experience."—Peter Folks, Lake, N. Y.

DEALERS ALWAYS PREFER IT—"In answer to your inquiry, I find my customers decidedly prefer your Royal Ball Head, which is due to its great tenderness and delicate, sweet flavor. The heads remain firm and the leaves retain their crispness longer than the German Export, tall Danish Round Head sorts. I find dealers always prefer it to any other cabbage they can get."—James Cusick, Arbyrabula, O.

HAINES' PERFECTION LATE BEAUTY

1. It is the surest heading American variety of cabbage.
2. It is known to flourish on all soils, north, south, east or west.
3. It is planted by mere gardeners than any other American late sort.
4. It is almost proof against the destructive cabbage worm.
5. It is the best winter keeper for the southern states.
6. It is the best to grow for home market.
7. It will produce the greatest money value per acre.
8. It is the best for the family garden.
9. It is the best to sell by the 100 heads or carloads.
10. It is the best sort for the dealer to handle.
11. It is sure to head solid.
12. It makes a crop where other sorts fail.
13. It is worth many times the price we ask for it.
14. It is the truest American variety for making fine quality sauer kraut.
15. It is sure to please everybody.

Our attention was first called to this new late cabbage by the raiser, Mr. Albert Haines, of Burlington Co., who for many years kept in his own family and occasionally sold a little to his friends at $1.00 per lb. Many of those who grow it call it the "Haines Head," owing to the peculiar dark, smooth, oily appearance of its outer leaves. This feature renders it quite free from the attack of the cabbage worm. This feature alone is of inestimable value to all who plant it. All those who grow it pronounce it different and superior to all other late sorts. The interior is creamy white, compact and crisp, flavor especially fine. Produces enormous solid heads, averaging from fourteen to twenty pounds, and when especially grown will often reach thirty pounds each. We pronounce it the best late sort for winter keeping and shipping we ever introduced. Every plant makes a beautiful large solid head, which we usually sell above the highest market price. A field of this cabbage presents such a beautiful and interesting sight that it is no uncommon thing for cabbage growers to drive many miles to view it. Our dealers write us annually that they have never found a better head.

HAINES' PERFECTION LATE CABBAGE

CHAMPION'S LATE FLAT DUTCH CABBAGE

We know this to be the finest strain of Late Flat Dutch Cabbage Seed ever offered. It is all head, always sure to head, and will produce a greater weight of cabbage from a given space than any other Late Flat Dutch or Drumhead sort. The heads are scarcely any outer leaves, are remarkably uniform, solid, of fine texture, have a short stem, and usually weigh from ten to fifteen pounds. It is very sweet flavored, keeps well, is an excellent shipper, withstands drought well and is without doubt the finest Late Flat Dutch Cabbage for the Market Gardener and Consumer that we ever saw during our thirty years' experience. No variety of Late Flat Dutch can approach it for fine quality and for universal reliability to produce solid, firm heads of good size during the most unfavorable weather. Pkt. 10c., 3 pkts. 25c., oz. 40c., 1 lb. $1.25, 1b. $4.00.

ALMOST WORMPROOF

ALMOST WORM PROOF

The Cabbage Worms Passed it By

"I must write you about your Haines' Late Beauty Cabbage. It keeps fine; had it in fine condition until May, and made lots of money on it. Keep me ten pounds for my spring order; have made up a club among my neighbors for it."—Lewis Selzke, Plymouth, N. H.

Got Big Dividends

Benjamin Teller, Richmond, Va., writes:—"I certainly got big dividends from the point of the Haines' Perfection Late Beauty Cabbage seed I bought from you last season. Not a plant failed to head, not a head was lost by the worms. It is the only sort here that escaped. Every head was salable at top notch prices."

KEPT FINE AND MADE LOTS OF MONEY

Harry A. Hoag,轧le, Me., writes:—"I am much pleased with your Haines' Cabbage; while the worms here are very bad, they seemed to pass it by, while two other sorts I had were completely ruined by them."

"I am much pleased with your Haines' Cabbage; while the worms here are very bad, they seemed to pass it by, while two other sorts I had were completely ruined by them."
**SILIAN GIANT EARLY SUREHEAD CAULIFLOWER**

Italian Giant Early Surehead is the very best early Cauliflower in cultivation, either for forcing under glass or outdoor planting, not excepting any variety, and we challenge the world to produce a finer, handsomer, larger or earlier Cauliflower than our Italian Giant Early Surehead. It is remarkable for its extra earliness and certainty to produce fine, large, handsome, pure white, compact, heavy heads of finest quality. Many heads often measure twelve inches in diameter. It is the earliest of all Cauliflowers, and is raised by the standard everywhere. Whether for forcing under frames, in greenhouses or open ground it is the surest header in existence—it is a gem. On account of its very dwarf and compact habit and short outer leaves it is peculiarly well adapted for forcing during the winter or early spring. Whoever essays to grow this most delicious vegetable, either for home use or market, should purchase this variety. Of dwarf, compact habit and short leaf, enables it to be planted very close—20 inches apart each way. This sort has given the very finest results wherever planted, for a late crop. While we originally recommended it for an early crop, we, as well as hundreds of our customers, find it superior to all other sorts for a late or autumn crop. The heads are very compact and deep, closely set and heavy and entirely free from any yellow or purplish tinge when young, thus insure fancy prices. One grower, of twenty-nine years’ experience, says he has “gotten fifty per cent, better satisfaction from it than from any other advertised early sort.” If you grow Cauliflower for home use, home market or to ship long distances, it is surely the best sort for you to plant. Spooner Cummings, Cramer Hill, N. J., writes: “I force four houses 2000 lbs. of your Italian Giant Surehead Cauliflower every winter and find this variety decidedly more profitable than either Snowball or Snowstorm, and I have had both the later sorts from the introducers.”

**Moore’s Earliest Perfection.** One of the earliest and best for forcing. Pkt. 25c., 1 oz. $2.00.

**Selected Early Dwarf Erfurt.** Small-leaved open ground, producing pure white heads of fine quality. Pkt. 15c., oz. 500, ¼ lb. $1.20.

**Gilt Edge Early Dwarf Erfurt.** Excellent for forcing under glass as well as growing out doors and a great favorite with many critical growers. Produces very large heads. Pkt. 25c., 1 oz. $1.35, oz. $5.00.

**Improved Early Snowball.** Extra quality. A really fine variety generally. Sure to head. We have the finest possible strain of this promising variety. Pkt. 20c., ¼ oz. $1.25, 1 oz. $4.00, ¼ lb. $13.50.

**Champion Dry Weather Cauliflower.** This is an entirely new and valuable type of Cauliflower, producing large, solid, pure white heads a few days later than our famous Italian Giant Early Surehead.

On account of it being very deep rooted, it is sure to thrive, robust and strong, and has never failed in the greatest drought. It thrives anywhere in the United States or Canada. Many of our customers in Texas, Arizona, Oklahoma and New Mexico write that heads of the finest quality, weighing from 10 to 15 pounds, are sold uncommonly well. By the use of our new CAULIFLOWER and our Italian Giant Early Surehead, this delicious vegetable can be had at any season of the year. We may also say it is a grand good sort to plant for early; it thrives even better on rich, moist soils. In growing any kind of cauliflower it is essential that the ground be well enriched and well cultivated during the growing season. Don’t fail to give it a trial, it will surely please you. Pkt. 25c., double pkt. 50c., 1 oz. $1.50, ½ oz. $5.00, oz. $5.00, ¼ lb. $12.00.

**Chervil** (French) plant and uses similar to parsley. Pkt. 5c., oz. 15c., ¼ lb. 40c., 1 lb. $1.25.

**Chives** Also called Schnittlauch. Chives resemble small onions. The tops are used for flavoring. More delicate than onions. Easily raised from seeds. Perfectly hardy. Packet, 10 cts.; ounce, 50 cents.

**CORN SALAD** Large seeded Italian broad-leaved (True). The best and most productive variety for market. Packet. 10c., oz. 20c., ¼ lb. 60c., 1 lb. $2.00.

**Collards** GEORGIA WHITE. Extra quality. Pkt. 5c., oz. 10c., ¼ lb. 30c., 1 lb. $1.00.

**Cress, or Pepper Grass** FINE CURLLED. (Pepper Grass.) Pkt. 5c., oz. 10c., ¼ lb. 25c.

Water Cress. One of the most appetizing, delicious flavored of small salads. It does fairly well in very moist situations, but thrives best in shallow water, on edges of streams, where it grows most luxuriantly. Pkt. 10c., oz. 30c., 1 lb. $1.50, 1 lb. $5.00.

**Georgia Sweet Prolific Ground Peanut or Chufa**
CARROTS—Best Market Sorts

We have exercised the greatest possible care in selecting the best varieties of Carrots, and the careful manner in which the seed has been sown will insure our customers purity of strain and the most satisfactory results from sowing our Carrot Seed. Market gardeners derive great satisfaction from sowing our Carrot Seed.

French Red Forcing. (See cut.) An excellent dark red coreless variety, about 3 inches long, with very small, short top, remaining a tender, juicy and sweet a long time after being fit to pull. It is remarkable for rapid growth and very small top rounder it one of the best and most profitable sorts for sowing under glass during the autumn or early spring. Can be allowed to remain quite thick in the ground. Price trade will pay an extra price for this variety. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

New Perfection Rubicon or Model Carrot. (See cut.) In this new variety we have an entirely new and distinct American carrot; very symmetrical in shape and of a beautiful, deep golden orange color, without core. The stock is so finely bred, and the carrots have attained such uniform shape, that they are almost exact duplicates of each other. It is earlier than the Danvers; the leaves are much shorter; fewer and finer than this well-known sort. It is an excellent sort for growing under glass or outside, at any season of the year. It grows without neck; the crown is hollow; and it grows well under the ground, which prevents it from becoming sunburnt—a very important feature. Its table qualities are unequalled, while its yield is enormous. Neither does it crack open like many other sorts. Pkt. 10c., oz. 20c., lb. 60c., lb. $1.50.

Ox-Heart or Guarande. It is intermediate as to length between the half-long varieties (such as Danvers and our Rubicon). Pkt. oz., 15c., lb. 30c., lb. $1.00.

Chantenay. They are a little shorter than the French Forcing, being thicker at the shoulder and hence more productive. Extra fine stock. Pkt. 10c., oz. 15c., lb. 40c., lb. $1.25.

Moore’s Favorite Carrot. Would you consider 500 bushels an acre a good crop? We think you would. However, many of our customers think anything less than 1,000 bushels an acre not a good crop. We have grown many large carrots, every year after year; take a harvest of 1,000 bushels from each acre, some with our Moone’s Favorite Carrot, and regular average is said to sand 600 bushels per acre. The size is allowed with good stable manure at the rate of 15 tons to the acre. Our illustration shows its typical shape; it is darker than Danvers and grows from one to two inches longer. The quality is the best and it holds its flesh well down to the point. Very smooth and handsome; top small; keeps well; fine for boxing or bundling. The average size is from one-third to one-fourth that of the Danvers, but the quality is about the same. This is the ideal sort for a market gardener’s late crop. Pkt. 10c., oz. 20c., lb. 60c., lb. $2.00.

Long Red Surrey. A great improvement on the various types of Long Orange Carrot obtained by a careful selection for successive years of the best-formed and deepest-colored roots. It is larger, better flavored, of a deeper orange color, and more certain to produce a crop than any type of long carrot; flesh very sweet and tender; very productive, swells bigger becomes hard or woody at the heart. The roots grow very regular and smooth; they are of good size, being from six to eight inches in length and two inches in diameter at the top, tapering gradually from the shoulder to the thin end. This is the ideal sort for a market gardener’s late crop. Pkt. 10c., oz. 20c., lb. 60c., lb. $2.00.

Reselected Prize Danvers Half Long. (Krewsen’s Stock.) Seed grown by a leading Philadelphia market gardener. Stump rooted, very smooth, fine in texture, extra dark color, finest quality, best market strain and heaviest yielders. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

CARROTS—For Stock Feeding

We rank carrots as high as hay and grain for feeding live stock. One acre of good carrots equals 350 bushels of oats and an acre will produce from 20 tons up. The stables of the largest and best teams in Philadelphia and other large cities feed carrots once a day all winter and spring. Carrots fed to horses and other stock give them a gloss and aid them in digesting grain. Carrots are also of great value to dairymen, in that they greatly increase and prolong the flow of rich milk. All stock fed on carrots require less grain and are of special value for feeding during winter months.

Large Red Belgian. This new red-pointed variety is undoubtedly the best of all sorts of its type for feeding stock. This attains the largest size, and will yield more in bulk and keeps better than any other sort grown. The color is a dark orange-red; flesh rich, solid, crisp and nutritious. It has yielded as high as twenty-five tons per acre, is adapted to all soils, and we predict that it will soon become a general favorite as a cattle carrot. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

New Giant Swedish. This new variety is undoubtedly the best of all the yellow sorts for feeding stock. This attains the largest size, and will yield more in bulk and keep better than any other yellow sort grown. Uniformly smooth in form; they are easily harvested. Tons of rich and nutritious. Will yield thirty tons per acre a great milk producer. Suitable for all soils. Pkt. 10c., oz. 20c., lb. 50c., lb. $1.75.
THOUSANDS of MARKET GARDENERS

Throughout the United States acknowledge our Celeries to be the finest in existence, and use no other

Moore’s Selected Boston Mammoth White Plume Celery—THE PUREST AND BEST WHITE PLUME CELERY IN THE WORLD

This is an entirely new strain, having originated with a highly successful market gardener near Boston, who sent it to us for introduction. It has now been in our possession for nearly ten years, and we have improved it remarkably by the most careful selection every year. It is remarkable for its robust size, as it grows unusually tall and thick, while the number of hearts it produces is simply enormous. It is no less remarkable for its long-keeping qualities, it being no unusual thing for it to remain in perfect condition as late as March 20th. It is a very rapid grower, “whites up” sooner, and is cut for market from early June on. It is extremely straight, remarkably tender, crisp and rich flavored, and possess a beautiful pearly-white color, hitherto unknown to White Plume. This stock is also absolutely pure, containing no green whatever and will surely give the best satisfaction to all as it is the result of some 15 years’ careful selection by the best New England Market gardeners who plant it once, plant it always, because it always sells so well. Pkt. 10c., 3 pkts. 25c., oz. 45c., 1 lb. $1.50, 10 lb. $5.00.

SOLD FOR AN EXTRA PRICE

“I had the finest crop of Boston White Plume Celery last fall from your seed that was ever raised in this section. It was truly beautiful and so acknowledged by every one who saw it; had plenty of stalks, pure white, two feet long, crisp and of elegant flavor. I sold every stalk at an extra price.

R. DANGEMAN, Jersey City, N. J.”

MOORE’S NEW SILVER SELF-BLANCHING CELERY

Combines the grand qualities of the three most popular celeries grown—The sturdy, solid habit of our California Mammoth Solid Golden Self-Blanching; the exquisite color and earliness of our Boston Mammoth White Plume, and delicate richness of our Sweet Nut. This grand new celery is easily described as a Golden Self-Blanching plant with White Plume coloring. It possesses the robust, sturdy, compact habit of Golden Self-Blanching, the stalks being even thicker, more solid and heavy, with immense solid hearts and all brittle, crisp and tender, free from string or pithiness, and of delightfully rich flavor. The foliage is tipped and variegated with white, while the heart, inner stalks and leaves are naturally self-blanching, as on each side of the row. Its extreme earliness renders it valuable celery for the market gardener, and it does not “burn down” during hot, dry weather like other sorts. In side-by-side tests with White Plume and Golden Self-Blanching, it outclassed them all in earliness, flavor, size and solidity of heart, and height of stalks and head, standing usually six inches higher than White Plume. Its foliage is green and white, white stalks are not stringy, tough or bitter, but tender, brittle, very sweet and of a nutty flavor. Leading Philadelphi a market gardeners have it on the market June 25th. The seed can be sown earlier than any other sort without running to seed; this alone is a highly valuable feature to the market gardener. It is sure to bring fancy prices. Pkt. 10c., oz. 40c., 1 lb. $1.25, 10 lb. $5.00.

Moore’s New Giant White Arrezzo Celery. We unstintingly pro-nounce this the best and most profitable of all whites for winter use. It is of unusually vigorous, sturdy growth, making immensely thick and heavy stalks and large heavy hearts, all remaining a beautiful light green until blanched by earthing up or being stored for winter. It blanches to a clear white, when the stalks are extremely brittle, entirely stringless and exceedingly crisp and possessing flavor surpassingly rich and nutty. Any market gardener who wishes the best and most profitable winter celery he can get will find it in our Moore’s New Giant White Arrezzo. Pkt. 10c., 3 pkts. 25c., oz. 45c., 1 lb. $1.25, 10 lb. $5.00.

New Broad-Ribbed or Sweet Nut Celery. The most delicious eating celery ever introduced. It is the sweetest, crispest, tenderest, finest flavored and most solid of all celeries. No other sort equals it in these valuable qualities. Again, it sells not only its own weight in valuable self-blanching and important feature, as all celery growers well know. It is a strong, vigorous grower, distinctly self-blanching in good keeping quality. These qualities are second to none. Edible almost to top of the stems. We commend it to the private planter, who requires the highest quality, and to the market gardener, who wants to have the best. It is also known as the highest price for his products. Excellent for early or late use. Blanches almost as freely as our famous Boston White Plume. Pkt. 10c., oz. 50c., 1 lb. $1.40, 10 lb. $8.50.

Moore’s Matchless Long-Keeping Golden Heart Celery

A variety of rare merit. The most desirable type of Golden Heart Celery known to the trade. Remarkable for its long length, broad, thick ribs and numerous “hearts” of the finest golden color. This variety blanches easily, keeps remarkably long in perfect condition. The ribs are unusually solid, crisp, tender and beautiful on appearance. This variety has been produced by careful crossing and high culture on the part of the best celery growers, by one of the best celery growers between the Dwarf Golden Heart and our White Walnut, by one of the best celery growers between the Dwarf Golden Heart and our White Walnut, by one of the best celery growers between the Dwarf Golden Heart and our White Walnut, by one of the best celery growers between the Dwarf Golden Heart and our White Walnut. In quality, appearance and size this sells nothing to be grown. In quality, appearance and size this sells nothing to be grown. We can recommend it as one of the best types of celery for the market gardener, while its fine flavor and beautiful appearance make it very desirable for private use as well as the market gardener. It is very hardy and is held in high esteem among our home gardeners. Pkt. 10c., oz. 35c., 1 lb. $1.00, 10 lb. $5.00.

WINTER KING—Zurrenner’s Stock

A strong growing type of golden heart, solid, fine quality and a good winter keeper.

Pkt. 10c., 3 pkt. 25c., oz. 50c., 1 lb. $1.40, 10 lb. $8.50.

SOUP CELERY. For flavoring. Oz. 50c., 1 lb. $1.25, 10 lb. $5.00.

IMPROVED GIANT PASCHAL. Very fine stock. Oz. 50c., 1 lb. $1.50, 10 lb. $5.00.

Golden Plume Celery. (New.) Originated with one of the most successful market gardeners on Long Island, who has sold his entire crop at wholesale as high as $1.00 per bunch of 6 stalks. It is a very profitable easy blanching variety. Stalks of a golden white color short, thick, crisp and tender and blanches very readily. Highly profitable for each autumn and market gardener. Pkt. 5c., 6 pkts. $1.00, 1 oz. $2.00, 1 lb. $10.50.

NE PLUS ULTRA. Best market sort. Very large and smooth globular-shape roots. The most profitable sort to grow. Pkt. 10c., oz. 30c., 1 lb. $2.50, 10 lb. $10.50.
MOORE’S SELECTED MAMMOTH
Solid Golden Self-Blanching Celery
IS THE BEST THAT GROWS
MOORE’S SELECTED MAMMOTH SOLID
GOLDEN SELF-BLANCHING CELERY

The verdict of all who grow it is, "It is the best that grows," no matter where it is planted—east, west, north or south. It is the best strain of Golden Self-Blanching Celery that grows. It is particularly well adapted to growing on heavy much lands that have been reclaimed from swamp lands. Florida and Louisiana growers prefer this strain to all others. It is especially valuable to muck land growers, for as far as we know it has shown no disposition to blight, even on land where other golden self-blanching celery could not be grown on this account.

It always grows solid, robust, very crisp, and of delicious, good, nutty flavor. It is less affected with hot, dry weather than other old strains. The stalks are numerous, a rich solid and of a richly beautiful golden-yellow, and interlaced with numerous inside shoots or hearts of the same handsome yellow color and fine quality. Its beautiful appearance and fine quality always insure the biggest market price and quick sales. Owing to the great solidity and firmness of its stalks it stands shipment better than any of the strains from France or other parts of Europe.

Our strain of this is acknowledged by all who plant it—and they are thousands—to be the finest and purest in existence, and far superior to any other. The stalks grow much thicker and taller and more solid than the old sort, and are of a more beautiful and a richer very golden-yellow color. Very solid and of a delicious nutty flavor. The beautiful appearance of this strain, which is of strong, vigorous habit, is well shown in the illustration. Our strain contains no green, has an abundance of hearts or inside shoots, is always solid; pithy or spongy stalks are unknown. No strain can surpass it, and ours will give the highest satisfaction to all who grow it. An excellent keeper and shipper. If you grow for home market or shipping you should not fail to plant our seed. It is the best you can get. Those who plant it always get satisfaction. Wm. Richmond, of Readingtown, Pa., sent $1,500.00 for this celery from one acre of ground. Pkt. 15c., 4 for 50c., oz. $1.50, lb. $4.50, lb. $15.00. Crop very short.

GOLDEN SELF-BLANCHING. Imported seed; same strain as offered by other leading seedsmen. Pkt. 10c., oz. 75c., lb. $2.75, lb. $8.00.
MOORE'S FIRST EARLY TABLE CORN

It is just like coining good money to plant this corn. It is positively the earliest table corn ever introduced. Hundreds of carloads of this corn are shipped to New York City and Boston every season. From four to seven dollars a bushel on carloads can be made on early sales. Big profits await all who plant it early. It is the true early "roasting ear" type. Every market gardener who wishes the earliest table corn of good quality he can get should not fail to plant this exceedingly valuable sort. In our Moore's First Early Corn we have a truly remarkable and profitable extra early variety. It is positively the earliest table corn ever introduced. It is the hardest of all varieties of corn, and cold wet weather has little or no effect upon it. On account of its extreme hardiness it can and should be planted from two to four weeks earlier than Crosby, Minnesota, Cory, Premo or other varieties of sugar corn. We particularly recommend it to plant it at least two weeks earlier than Crosby or other varieties of sugar corn, if they would secure all the advantages of this profitable extra early sort. Again, don't fail to plant it early. The stalks grow about five feet high, and nearly always have two, and sometimes three, well-developed ears from six to nine inches in length. Leaves small and few, will bear very close planting. Ground should be well fertilized to secure its wonderful productiveness. The grain is deep, pearly white, very tender, sweet and juicy, considering its extreme earliness. The ears mature very rapidly and were not found lacking in the poorest years. It required long and patient care, as well as the expenditure of much money, to develop this variety, and we assure our market garden friends they can easily amass snug fortunes if they will use Moore's Early Corn early, and we advise our many thousands of market garden friends not to be afraid to plant plenty of it. It is a great money maker, and you will get a better return than by planting Moore's First Early Table Corn. Can be planted ten days earlier than Crosby or any other sweet sort. Moore's Early Buck Mountain or Burlington Market. A sure variety for satisfaction and profit for all who plant it. Rows straight and parallel. It presents a very attractive appearance, and it is of excellent table quality. It is very hardy; should be planted a month earlier than Evergreen Sugar. It adapts itself to any kind of soil, either sand or heavy clay. Three ears to a stalk is not unusual and many were as large as a man's head. Plant it early. It has become so popular that in no season have we been able to fill all the orders from the many thousands of our customers. Don't be afraid to plant it early. Plant it early and you will not only have early corn but early money as well. Its quality and sweetness leave nothing to be desired in so early and heavy yielding corn. Our word for it. Large pkt. 10c., 3 pkts. $0.17. Price per lb. $1.75, per cwt. $2.25, postpaid by express or freight, pt. 30c., qt. 50c., 4 qts. $1.75, pk. 50, bu. 11.00.

Moore's Early Buck Mountain or Burlington Market. A sure variety for satisfaction and profit for all who plant it. Rows straight and parallel. It presents a very attractive appearance, and it is of excellent table quality. It is very hardy; should be planted a month earlier than Evergreen Sugar. It adapts itself to any kind of soil, either sand or heavy clay. Three ears to a stalk is not unusual and many were as large as a man's head. Plant it early. It has become so popular that in no season have we been able to fill all the orders from the many thousands of our customers. Don't be afraid to plant it early. Plant it early and you will not only have early corn but early money as well. Its quality and sweetness leave nothing to be desired in so early and heavy yielding corn. Our word for it. Large pkt. 10c., 3 pkts. $0.17. Price per lb. $1.75, per cwt. $2.25, postpaid by express or freight, pt. 30c., qt. 50c., 4 qts. $1.75, pk. 50, bu. 11.00.

Moore's First-Early Adams (Emer Adams Stain) Very early and used extensively for a first early table corn among market gardeners everywhere. The stalks are about four feet high, with small tassels and tiny ears. The ears are short, very full, twelve or fourteen rows, and are well covered with coarse husks. The kernels are white and smooth. This is an extremely hardy variety which can be grown closer together than most sorts. Large pkt. 15c., 2 pkts. 25c., 25c. per oz., 4 qts. $1.60, pk. 2.75, bu. $9.00.

Hyde's Earliest Sugar. Our Hyde's Earliest is the best of all the extra early sugar varieties for market or home use. The quality is delicious; the ears are large, from six to eight inches in length, holding ten to twelve rows of pearly white and unusually sweet grains. In earliness it follows immediately after our Moore's First Early. Fodder is about five feet high, many stalks yield two or more ears. It is a sure money-maker for all who grow it. It is also the best variety to plant for a late full crop. We cannot recommend garden fodder to who are market gardeners. The quality and earliness make money-sugar corn can they get. It is sure to please all who grow or eat it. Large pkt. 10c., 3 pkts. 25c., 25c. per oz., 4 qts. $1.60, pk. 2.75, bu. $9.00.

Seymour's Large Golden Bantam. It is of strong growth, the stalks averaging six feet in height. The ears are from six to seven inches in length, often two to a stalk and of an unusually delicious sweetness and average twelve rows. The grain when ready for use is a rich creamy yellow, deepening to orange-yellow as it ages. It is the richest in flavor of the golden-yellow type, and is especially recommended for the northern states. It is desirable also for warmer locations, both as a second-early and for late plantings. Our selected strain, northern grown seed, and a big improvement on the old short-earred type of Golden Bantam. Large pkt. 15c., 2 pkts. 25c., 25c. per oz., 4 qts. $1.60, pk. 2.75, bu. $9.00.

Hickman's Extra Early Three-Eared. A remarkably valuable early variety for market and home use, excellent quality, yielding from two to four beautiful long ears. Just think of it, three well-developed ears of delicious sweet corn on one stalk! It is a splendid money-maker for any market gardener, and Hyde's Earliest. It makes a good stock variety and gives satisfaction to all who plant it either for home, market, or shipping. Be sure to plant a peck of each variety. It is the result of many years of careful selection to secure earliness combined with large size, productiveness and fine quality, one of the most successful large sugar corn growers in Gloucester County, N. J. It is sure to please all who plant it. It is sure to sell, so be sure to have it ready for the market. This is a deep and meaty "flint" corn. Matures immediately after Hyde's Early. Large pkt. 10c., 3 pkts. 25c., 25c. per oz., 4 qts. $1.60, pk. 2.75, bu. $9.00.
Luscious Golden Rod Sugar Corn

A few years back there was a
much-vaunted yellow-grained Sugar Corn, but owing to the unsatisfactory quality of the new varieties of recent introduction, they are rapidly gaining in popularity. This is an extra early yellow-grained variety, but when once gets the sweet delicious taste, the vigor of grain is forgotten. Stalks about six feet high and usually bear 2 and 3 ears, which are filled out to the extreme tip. Pkt. 10c., 3
pks. 25c., pt. 25c., qt. 45c., 4 qts. $1.60.

Dainty Black Mexican Sugar Corn

Everyone who has seen this corn recently and the deliciousness and fine grain qualities in spite of its dark color, making it more and more of a favorite every year. Eight to 10 rows; ears about 8 inches long; kernels black-purple and very sweet. Pkt. 10c., 3 pks. 25c., pt. 25c., qt. 45c., 4 qts. $1.60.

Goldon Bantam Shoe Peg Sugar Corn

This new variety is a decided improvement on the well-known Golden Bantam, making a larger ear, and surpassing that variety in its sweetness and delicious flavor. It is fully as early as the Golden Bantam; the stalks bear two to four ears each, of a most desirable size for table use. In its green state the kernel is light yellow but when cooked to a bright golden yellow. The flavor of the Golden Bantam Shoe Peg is rich, nut-like and delicious. Grown together with its productivity and early maturity, bound to make it one of the most popular sugar corns in culture. Large pkt. 10c., 3 pks. 25c., pt. 25c., qt. 45c., 4 qts. $1.60, pk. $8.00.

Moore's New Snow White Evergreen

Should be planted by all Market gardeners, canners and all lovers of good sugar corn who will find it to represent the finest ideal—white, sweet, tender, fine quality and productiveness. This corn have long been waiting for. Ears contain sixteen or more rows of beautiful and delicious deep grains. Two and occasionally three attractive large ears are produced on each stalk. Another valuable feature is the grains retain their tenderness and their sweetness longer than any other variety. It is profit and satisfaction to all who plant it. It always brings fancy prices. Our seed is limited, and we hope our many thousands of customers will soon this order early. We wish every customer to have plenty of this wonderful variety. This seed is well worth the price asked. Large pkt. 10c., 3 pks. 25c., pt. 25c., qt. 45c., 4 qts. $1.60, pk. $2.50, bu. $9.00.

Stowell's Evergreen. Pkt. 25c., qt. 40c., pk. $2.25, bu. $8.00.

New French Honey Sugar

Announced by those who grow it to be the most delicious sugar corn ever grown. It is a strong, vigorous grower and heavy yielder, with white grain of good size; it has 12 to 14 rows, and comes in after the earlier varieties. No stalk has less than two large ears. Just right for fine market trade, especially when sold direct to the consumer. Excellent sort for the family garden. We cannot say too much in its praise. Large pkt. 10c., 3 for 25c., pt. 25c., qt. 45c., 4 qts. $1.60, pk. $3.00.

Howling Mob. The stalks are of strong, vigorous, growth, four and one-half to five feet in height, have abundant foliage, and generally produce two fine ears to a stalk. The ears measure seven to nine inches in length, with twelve or fourteen rows of good-sized, pearly-white grains, and mature with our Hickman's Three-cared. The ears are covered with a heavy husk, which extends well out from the tip and affords good protection to the green ears which are so often destructive to early Sweet Corn. Large pkt. 10c., 3 for 25c., pt. 25c., qt. 45c., 4 qts. $1.00, pk. $3.00.

Cooper's Large Early Shoe Peg. We have obtained this delicious sort from Mr. Thomas Cooper, Newport, R. I., who has grown quite wealthy by marketing it to the most critical buyers in Boston and New York. The productivity of this sort is simply prodigious. When grown on flat and well suckered, ears of 10 inches in length are often developed. The cob is very small, the grain deep and of rich flavor. Stalks bearing 4 ears are not uncommon. We cannot recommend this sort too highly to all our customers. The ears are just the right market size and is a "mint" for all who grow for summer hotel trade. Large pkt. 10c., 3 for 25c., pt. 25c., qt. 45c., 4 qts. $1.60, pk. $3.00.

Moore's Late Concord or Improved Late Mammoth

It is strictly an evergreen sort; in remaining long in edible condition it ranks with the best, and is admitted to be the most "everlasting evergreen" of all sweet corn, and much superior to the old late Mammoth—more and bigger ears to a stalk, also deeper grained. The ears of extra large size, mostly 2 to a stalk, grains deep, exceptionally tender and sugarly, and have the advantage, as we said above, of remaining longer in the green state than any other. Our stock has been carefully grown and selected. Large pkt. 15c., pt. 25c., qt. 40c., 4 qts. $1.50, pk. $2.50, bu. $9.50.

21
It costs less than 60 cents
an acre to use our carefully selected SEED CORN.

SEED CORN

Grown, Selected, Cured, Graded and Tested by The Moore Seed Company

WE GROW CORN FOR ALL PURPOSES

The yield of corn on any land can be doubled by the judicious change of Thoroughbred Seed. You must get more bushels per acre than the average or you cannot compete for a profit. Thirty bushels per acre will not pay. Sixty bushels per acre are a fair average; one hundred bushels if you have the right kind of seed, etc. Many farmers are harvesting more than a hundred bushels of corn per acre and these big yields come from just two causes—proper management and thoroughbred seed. The yield of every corn grower ought to be at least a hundred bushels per acre and no farmer should be satisfied with less. An acre will contain something more than 19,000 stalks of corn planted three in a hill in the ordinary manner. If every stalk produces a good ear there will be more than a hundred bushels per acre, and here is where every thoroughbred seed shows its advantage. You need not fear barren stalks if you buy your seed corn of us, and if you have the right kind of soil, and give proper cultivation, every ear will be a good one. Nubkins are more often evidence of poor seed than poor management, but the best seed corn on earth won't produce a crop unless properly grown. Start right, buy your seed corn of us; do your part by furnishing good soil and cultivation, and you can harvest the ideal crop—a hundred bushels or more per acre.

PROMISING the Deepest Grained and Purest Yellow Early Dent Corn in Existence. The Kind That Will Make You Prosperous.

The Greatest Feeding Corn for Cattle Ever Produced. 140 bushels per acre is the record of this corn. It is early, ripening in 30 days, and can be planted in the northern corn belt and compete successfully both in yield and maturity against corn from locally grown seed. Ears are not large, but of good size and symmetrical; color a bright golden yellow, as handsome as a twenty-dollar gold coin just from the grain, and the grain is very deep, cob small, dries out quickly.

It Has the Color. If you want to get top market prices for yellow corn, just shell a carload of Prosperity with a machine that will clean out broken cobs and trash and you will have No. 1 yellow, something that very seldom appears in the big markets. It has color, it has depth of grain and it will have soundness necessary to pass the closest inspection. Prosperity will ripen and produce good corn in any season, something that cannot be said of many of the large-eared varieties. Plant it, tend it and study it, and we have confidence to believe that you will agree with us that Early Prosperity Corn is the very best of its type for the farmers of the Middle, Southern, Western and Eastern States.

The Hybrid of Seven Varieties. Seventy pounds of ear corn makes sixty-two to sixty-five pounds of shelled corn, and in feeding to market, it weighs one to five bushels more to the wagonload than common varieties in the same size wagon. We have selected ears of this variety which produced sixty-four pounds of shelled corn and only six pounds of cob to the bushel. This is an unparalleled record. It cannot be equalled by any other corn in the world.

It Makes the Most Feed. You can readily see that it is the man who feeds the corn on the farm who will get the most value from Prosperity—there is so little waste and the quality is the best. It is a soft grain hard and full of oil, and easily digested. There is absolutely no such feeding value in fifty bushels of Prosperity Corn as in sixty of any other variety.

The cost of our pure seed is only 60 cents per acre. One bushel per acre added to your crop will pay for the seed used. But practically all of our varieties are capable of increasing your yield from 20 to 50 bushels per acre. A word to the wise is sufficient.

Iowa Silver King

Prize Winner Everywhere

Iowa Silver King is a smooth, dark, shiny black, and sets the ears about three and one-half or four feet from the ground. There are no barren stalks; every one has an ear, many stalks have two or three ears, and the originator says that has been characteristic every year that he has grown it. Type is very even. Ears measuring from ten to twelve inches in length, and weighing one and one-half pounds are often found. The ears are very uniform in size and shape, with sixteen to twenty straight rows (usually eighteen rows) of deep, pure white kernels, set close, white cob, and ears are well filled out over the tips. It is early, maturing in ninety-five days. The cob dries rapidly, so that it is ready for market earlier than any other large white field corn. Seventy pounds in the ear will make sixty-two pounds shelled. It is adapted to a wider range of soil and climate than any other variety we have ever offered. It is a very distinct type of corn, hardy and a wonderful resister of drought.

We have never in our thirty-five years' experience found any ear corn that has given as good results under adverse weather and soil conditions, and imparted itself so well to change of locality as does this variety.

Read the astonishing record of a prize contest. It produced 21 bushels per acre in Scott County, 21; 6 bushels in Indiana; 21 bushels per acre in Kansas; 78 bushels in Illinois; 16 bushels per acre in Ohio; 98 bushels per acre in Texas.

If you are looking for corn that will make you money every year, SILVER KING WILL MEET YOUR REQUIREMENTS. There is no better feeding corn than Silver King. The grain is rich in oil and protein, the kernel is deep, cob is small, ears are always sound and dry. Silver King will give heavier yields, and of better quality, on light soils, poor soils or sandy soils than any yellow sort we know of.

Prices: For high grade extra select seed: pkt. 15e, 25c by mail, postpaid; qt. 50c, 4 qts. $1.00, pk. $1.50, 1 bu. $3.00, 10 bu. $25.00.
ADVANTAGES

Many of our market garden friends may need good field corn seed. You can greatly increase your crops of corn from 20 to 50 per cent. by a judicious change of seed. The latest improved varieties only are the most profitable sorts to grow. We offer you the best for other sorts see our seed buyers' guide.

POOR MAN'S CORN
Possessing Magnificent Properties, Splendid Qualities and Tremendous Possibilities. The Most Valuable New Field Corn in the World To-day.

This great corn is the result of a series of crosses and subsequent by a continuous systematic selection, accumulating and perpetuating the superior merits of its parents, we have evolved a superior new variety, which we take great pride in introducing to the corn growers of the world. It is an important cereal in the United States and all foreign countries. We have named it the Poor Man's Corn because it will produce more corn on poor, light soils than any kind now in cultivation, thus greatly assisting the poor farmer who has little money with which to buy fertilizers. It is strong, rich soils it has no superior. The ears are of good size, handsome, with large, deep graps of rich orange color, and very small red cob, rarely producing less than two ears to the stalk. Hanks and shells easily and it is also adapted to a greater variety of soils than any other varieties, producing unusually well on light or heavy land, where other varieties would not thrive. Has matured well-shelled corn in 85 days, planted May 28th. One hundred and thirty bushels shelled corn to the acre are common on good corn ground, with good, but not extra, cultivation. Moreover, it commands the highest market price. It is destined to be planted largely. You should be among the first.

Stanley's CROW REPELLENT

Protect Your Corn
Use Stanley's Crow Repellent
Pour the liquid repellent on seed corn when ready to plant and stir thoroughly. Use at once—no need to wait for it to dry. Will go Through Any Planter Without Positively no Clogging. Is non-poisonous. Will not harm the seed. Will not kill crows or animals, but will keep them away and prevent destruction by them.

Use Stanley's Crow Repellent on the seed corn and your corn crop will show a Larger Yield Per Acre.

When Planting Your Corn

Stanley's CROW REPELLENT
Will rid your corn crop of crows and other corn-pulling birds and animal pests, such as moles, gophers, woodshucks, prairie dogs, squirrels, etc.

STANLEY'S CROW REPELLENT Insures your precious crop against destruction by birds and animals. Aids and hastens germination of the seed corn. Protects against rotting in the ground. Prevents loss of seed and labor of re-planting.

Price, large can, enough for two bushels of seed corn, $1.50 by mail, postpaid, $1.65. Small can, enough for one bushel, $1.00; by mail, postpaid, $1.10.

CHAMPION SEED-CORN GRADER
Every farmer who owns a corn planter should also own a Champion Seed Grader. The irregular kernels that weigh more or less in every ear of corn are the ones that cause trouble in the Planter.

The grading use of the Champion Seed Corn Grader all of these kernels are sorted out, and greatly increased yield is the result of its use.

Price, each, $2.25; by mail, postpaid, $2.15.
Figure it Out for Yourself

It costs but 80 cents for seed for 1 acre, freight included, for any of our improved varieties of seed corn. 90 acres of Diamond Joe's Big White will make you a yield of 4,000 to 5,000 bushels. 50 acres planted to common varieties will make you 1,500 to 2,000 bushels. Here is a difference of 2,500 to 3,000 bushels or less than a CENT PER BUSHEL FOR THE INCREASED YIELD, or a hundred times the cost of the seed. Figure it out for yourself.

DIAMOND JOE'S BIG WHITE

This wonderful new variety of white corn was originated and first introduced 4 years ago and is now acknowledged by farmers, planters and corn growers everywhere as the "King of all White Corn" for light, thin or sandy land. When we catalogued this corn the first year, although we had about 8 thousand bushels of it, our entire stock was exhausted long before the season was over. Since then we have grown it much more extensively, but because the following year the demand for it has increased until we have always sold out long before planting time was over. Those who were fortunate enough to secure some of this corn won a prize, and everywhere doubled their yields on light and without exception were pleased. In fact it would make one gasp with astonishment to see and read the reports that come to us that the wonderful yields this corn is made on thin or sandy soil. From nowhere comes a word of disappointment, but all are enthusiastic and in its case when husking time comes, "DIAMOND JOE'S BIG WHITE" is incomparable with any other white corn we have ever before grown or handled in all our 40 years' experience. It is especially well adapted to old, thin, or sandy land, and on good strong corn ground there is no variety in the world that makes more big bushels of good, sound, well matured corn to the acre. It is absolutely free from barren stalks, every stalk bearing 1 to 3 well developed ears. It is very early to mature, making itself anywhere in from 90 to 100 days. It will thrive and do well in extreme drought. In short, "DIAMOND JOE'S BIG WHITE" is a superior variety of corn from every point of view over any white corn in the world. If you are looking for a white corn that will make you the most bushels and the most of every bushel stop right now and order enough to plant your entire crop. Be it the white corn that will do it. Pkt. 10c., 2 pkts. 25c., by mail: qt. 30c., 4 qts. $1.25, 1 bu. $2.35, bu. $4.50, by express or freight.

LONG'S DROUGHTPROOF

A New Yellow Dent Corn

Resists Drought and Scorching Better than any other yellow variety. More corn fields have been ruined by the drought and hot sun killing the tassel and pollen this past season than the writer has ever known, and especially is this fact true in the great corn belt. This magnificent new yellow dent corn went on through 8 weeks of growing weather without a drop of rain, and the heat the most severe ever known in this section, and it has made a crop where other sorts failed on account of weather. All fields that leaned towards the hot sun burned up. The pollen on these fields was killed, therefore the silk was not fertilized; result, no grains on the cob. On the other hand, a large field of this wonderful strong-growing variety, which leaned towards the sun, kept green and yielded over 100 bushels per acre. We do not hesitate to say that all points considered—its beautiful color, size, cob, long yellow grains, large ears—taking all points combined, it is the finest drought-resisting yellow corn ever introduced, and each customer who gives it a trial will be fully convinced that it is the best 90 to 100 day corn to be ever planted.

Droughtproof Corn is phenominally excellent, and must be tried by all farmers. It will yield big crops wherever corn can be grown. We advise all our friends to buy it.

Long's Droughtproof Corn is $1.25 per acre, 146 bushels per acre in the World.

MOORE'S EARLIEST CUCUMBER

HAS YIELDED $1,100.00 PER ACRE

Moore's Earliest. Remarkable and Highly Valuable Early Cucumber. Has yielded $1,100.00 per acre. The superior and the best shipper of all White Spines. It is the variety that will return you the most money, no matter where you ship it. As an extra early White Spine Cucumber there is no strain equal to this. It is truly an evergreen, retaining its beautiful dark green color until fully ripe, it is a sport from our famous Green Fournier Cucumber. We have devoted a number of years to the careful selection of the finest specimens for seed purposes, and hereewith offer to our many thousands of customers. Color is dark olive green, white or light spines running from blossom end. It is the earliest and finest formed of all the strains, and the best for home market or shipping. It is smooth, tender, crisp, remaining green on the vine and after picking. It is very hardy. We recommend this as the best strain of extra early White Spine for the market gardener. It seems to be peculiarly adapted to both northern and southern soil and climate, always developing symmetrical fruit of a beautiful dark olive-green color, from six to ten inches in length. At the same time it gives the earliest picking and the largest crop of any known variety. The vines are robust and very free from disease, which is so devastating to many varieties. Indeed, the fact of its combining every good quality, its ready and quick sale in our market at double common sort prices, its fine appearance and its remarkable astonishing productiveness led us to give it the name of Ideal. We can heartily recommend same to all who desire a really matchless cucumber for shipping long distances, as it holds its beautiful dark green color longer than any White Spine hitherto introduced. Our word for it! Every cucumber grower should plant it. It will yield more money to the acre than any other sort. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00, 5 lbs. $9.00 postpaid.

Important to the Planter. All our Cucumber Seed is very carefully grown under our own supervision, from very carefully selected stock seeds. No two crops of seed are grown in succession on the same ground, thus avoiding all possibility of blight from this source. We also practice this policy in growing all our tomato, melon and potato seed. The careful and intelligent planter will at once realize that this method renders our seeds much more valuable than seeds grown in the usual way by others, and market growers, large planters and associations will get none but the very finest quality of this important seed from us, and we are prepared to furnish any quantity our largest planters may require.

MATCHLESS WHITE SPINE

(Private Stock)

This private strain we have had over ten years, and it is the most thoroughbred, uniform and shapely variety known among the White Spine type, not only for first early but for general crop as well. In purity it is unexcelled. Vines are vigorous growers, heavy and long continuous yielders. Keeps green much longer than the yellow varieties. No spot exceeds it in crispness and flavor. Every market gardener and shipper knows how difficult it is to secure pure cucumber seed, and as this sort is absolutely without mixture, we are sure it will be quickly appreciated by all growers.

Selected seed. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50, 5 lbs. $7.00.

Early Fortune. Originated near Baltimore, Md. and is a fairly good type of early long White Spine. Our stock is very pure. Oz. 15c., 1 lb. 45c., lb. $1.50.

Burrell's Early Klondike. Early, smooth, long and of shipper, pure stock. Pkt. 5c., oz. 15c., 1 lb. 40c., lb. $1.25, 10 lbs. $11.00. Large buyers of any kind of cucumber will be quoted special prices upon stating quantity wanted.

California Gem. A remarkably fine sort of the White Spine class. A great favorite in all markets. Long and symmetrical. Its wonderful yield, coupled with the high prices it sells for, makes it the most profitable for the grower. A real good thing. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

DAVIS PERFECT. New. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

Arlington White Spine. A rich dark green color, averaging seven to eight inches in length. Very fine type. Pkt. 5c., oz. 15c., 1 lb. 40c., 1 lb. $1.25.

Boston Market or Prize-Taker. A great favorite in the Boston market. Immensely productive, fine picking variety. Length its medium, between the White Spine and Long Green. Very thick through and full at both ends, presenting a beautiful type. An excellent market sort. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

LONG GREEN TURKEY. Pkt. 5c., oz. 15c., 1 lb. 45c., lb. $1.50.

Fordhook Famous. Always straight and well formed, they never turn yellow, and critical buyers are willing to pay an extra price on market for these unspotted fruits. The grower says it is undoubtedly the finest long-fruited strain in cultivation. Oz. 15c., 1 lb. 30c., lb. $1.75.
We are the largest growers of Cucumber Seed of any Seed House in America.

New Green Fournier Cucumbers. A new variety from France, the highest merit, possessing the rich, dark green color which has been so long sought for but never before obtained. This is truly an evergreen, retaining its color until fully ripe. On sight, its distinct dark green color and smooth skin attracts the attention of every one interested. The fruit set early and the Vigorous vines abundant in long straight, handsome fruits of the most desirable quality; the flesh being peculiarly crisp and tender, and the flavor delicate, high character. It is especially valuable to the local market.

Pkt. 10c., oz. 15c., lb. 50c., lb. $1.00.

English Forcing Cucumber, Duke of Bedford

ENGLISH FORCING OR FRAME VARIETIES

These produce remarkably long and very solid fruits with few and small seeds. Our seed from the best English strains. Remember, send in $1.00 and select seeds in packets and ounces the value of $1.50.

Guthrie’s Black Snake. A prolific variety of medium size. Pkt. 20c.

Duke of Edinburgh. Large, black, dull green fruits, often 30 inches long. Pkt. 30c.

Lockies’ Perfection. Very uniform; color, beautiful green. Pkt. 35c.

Lord Kenyon’s Favorite. A great favorite, uniform in size and perfect in shape. Pkt. 20c.

Telegraph. Clear, green, smooth fruits, 11 to 16 inches long; free bearer. Pkt. 30c.

Tender and True. (Carter’s.) Fine flavor, very popular. Pkt. 35c., or 6 pts. for $1.00.

PARIS EARLY CLUSTER PICKLE

YIELDS FROM 250 TO 400 BU. PER ACRE

UNAPPROACHED IN QUALITY

COLOR OR BRITTLENESS

MONTAGUE’S GREENHOUSE

This is a grand American variety for greenhouse culture. It is the result of years of careful selection by Mr. Montague, the most successful commercial cucumber grower in America. It has a wonderful bright, glossy green color, and is far superior to any other American forcing sort. Wonderfully productive, tender, smooth, very even in regular in form; besides it brings the highest market price in every market. Fruit will average from seven to ten inches long. You will find it just right. Pkt. 10c., oz. 35c., lb. $1.25.

Moore’s Gladiator Cucumber. This cucumber is a second early or late variety and surpasses all others of its class in beauty, delicious flavor, and size. A single plant will often yield fifteen or more cucumbers, from ten to fifteen inches in length. It is pre-eminent in the finest sort grown for slicing, being very brittle and crisp in all stages of growth. It is of a beautiful clear dark green color, very even and smooth and straight. The cucumbers are very tender at any stage, the flesh is entirely white, very clear, delicately crisp, tender and brittle. It is likewise a grand sort for “salting” or pickling and will always outsell any similar sort. Pkt. 10c., oz. 15c., lb. 50c., lb. $1.50.

Paris Early Cluster. This is the most remarkable and valuable of all pickling cucumbers, and our illustration gives a very clear idea of its wonderful productive ness. For several years we have made cucumbers for pickles a study, testing and originating new sorts for this purpose, and now we think we have surpassed in our Paris Early Cluster. It is short (just the right length), bearing in numerous clusters near the root, of fine form, solid and crisp in texture, excellent in quality, and combines all the elements to make it a superior pickle as well as for slicing. Its productiveness is marvelous, cropping from 250 to 400 bushels per acre on good ground.

We are sure our market gardeners will find it by all means the best sort in America, and to always command the highest market price. Over 55,000 of our customers planted this valuable variety in 1914, and all pronounced the ideal sort for commercial pickling. Pkt. 10c., oz. 15c., lb. 50c., lb. $1.50.

English Pickling. The vines are exceedingly productive, being covered with the curious little fruits, making delicious sweet pickles. The seeds are rare, Pkt. 10c., oz. 25c., lb. 75c. 1 lb. $2.50.

WEST INDIA GHERKINS. A very small, oval, pickly, very distinct from all others. Pkt. 5c., oz. 25c., 1 lb. 75c.

Queen’s Golden Cucumber. New, extensively grown in China and held in great esteem by the wealthy there, owing to its delicious flavor. We hope every one of our customers having a garden will give it a trial. Pkt. 10c., oz. 30c., 1 lb. 60c.

Japanese Climbing Cucumber. It bears abundantly throughout the season, while the climbing habit enables the hanging fruit to grow perfectly straight; the cucumbers are thick, tender, and of delicate flavor; when young make attractive pickles. Pkt. 10c., oz. 25c., lb. 60c., 1 lb. $1.00.

New Giant White Cucumber. A very remarkable variety, having few seeds, and is exceedingly crisp, of most superior flavor. Pkt. 10c., oz. 20c., lb. 75c.

Serpent, or Snake Cucumber. A remarkable and very interesting curiosity. The cucumbers grow curled up like a snake with the head protruding and sometimes are five feet in length. Pkt. 10c., oz. 20c.

DANDELION

The Dandelion resembles Endive and is sometimes cultivated for spring greens, or for blanching for salad, also a valuable remedy for diabetes. Many market gardeners, and especially those who plant the Dandelion for seed, find this to be a very profitable variety.

FRENCH or CABBAGING. An improved thick-leaved early variety, bearing clusters of the common dandelion. The only sort worth planting. Very profitable to grow for market. Pkt. 10c., oz. 25c., lb. $2.00, lb. $7.50.

FENNEL

CELERY-ROOTED FENNEL. Cultivated same as parsley. Thick and part of the root should be covered with soil, similar to celery. Pkt. 10c., 3 pts. 25c., oz. 25c., lb. 75c., 1 lb. $2.50.
Superior Varieties of Egg Plant

Our Highly Bred and Critically Selected Types are Superior in Color, Shape, Size and Productiveness, and Unequaled for Home Market or Shipping. Our Varieties are Money Producers.

MOORE'S EARLY BLACK BEAUTY

This is said by many of our customers to be the king of Egg Plants, especially to those who grow for market. It is no less valuable to those who grow for their own table. This is the result of years of careful selection from our well-known New Jersey Improved, which has given such universal satisfaction to the many thousands who have grown it. Moore's Early Black Beauty is absolutely the most productive and best selling large black fruited Egg Plant grown. The skin is of a beautiful deep lustrous black color and does not turn yellow in transit; flesh very white, tender and of superior quality. The entire plant is spineless, of a low, stocky branching habit, a continuous producer and very thrifty growth, with no disposition to bight like the older sorts. All say it is a perfect "beauty." No seed saved from diseased plants. Always sure to yield a heavy crop, and very deeply desirable for growing. Southern market gardeners and shippers will find this variety the very best type of Black Beauty in cultivation. It grows from 10 to 12 feet tall. The best variety of Florida planters. Mr. T. Lane Moore, Commission Merchant, Philadelphia, says: "Your Moore's Early Black Beauty Egg Plant is the finest that comes to this market." Pkt. 10c., 3 pkts. 25c., oz. 60c., 1 lb. $1.75, 10 lb. $6.00.

EARLY PURPLE TOKIO

(New.) This grand new sort is from 5 to 6 days earlier than any other large fruited sort. This is a highly valuable feature, besides it is the most productive sort ever seen. Each plant will yield from 15 to 20 beautiful large fruits a season. It will thrive anywhere an egg plant will grow, and it is being more extensively grown every year. Hundreds of our most critical growers prefer it to any other famous Moore's Early Black Beauty. Fruit round, of a handsome purplish black; very few seeds; early; enormously productive and superior quality. We believe it to be the ideal sort for the market gardener and shipper. A good keeper and the best long distance shipper we know of. Pkt. 15c., 2 pkts. 25c., oz. 60c., 1 lb. $1.75. 10 lb. $6.00.

MARSHALL'S NEW HIGH BUSH

(New; worm proof.) The hot sun does not blight the blossoms, as is the case with some other sorts. It resists drought and hot weather to a wonderful degree, partly on account of its strong upright growth, which effectually prevents grubs and cut worms from boring into the fruit. All the fruits are borne and held high up above the ground. It bears its eggs or fruit sometimes two to four feet above the ground, thus escaping liability to rot in damp or wet weather. Large size, enormously productive and good quality 90 days later than our Early Purple Tokio. It is especially valuable to all who grow egg plants in the southern states, either for home use or shipping. It is of large size, good shape, and no waste of material in slicing, while the flavor cannot be surpassed. It will thrive anywhere an egg plant can be grown. On good land it should be planted 4 feet by 6 feet. A grand acquisition. Pkt. 10c., oz. 45c., 1 lb. $1.25, 10 lb. $1.50.

GEORGIA WHITE CABBAGE COLLARDS

The Collard is among the most valuable of vegetables (and the cheapest kind known), growing in any kind of fertile soil and the vegetable itself is fit for food from a plant 10 inches in height up to a stalk 3 to 5 feet. Then, after the top has been cut off, the young crisp sprouts springing out from the invincible stalks, are a delicious dish. The Collard is most palatable in winter, especially after a keen frost, and even quite a considerable freeze only renders the flavor more delicate as well as the vegetable itself more wholesome. When properly boiled the winter-crisped leaves may be partaken of with keenest relish by almost any one. Georgia White Cabbage Collards often grow 3 feet across the top and weigh 15 lbs. Pkt. 5c., oz. 10c., 1 lb. 50c., 10 lb. $1.25.

CHICORY, OR FRENCH ENDIVE

MAMMOTH ROOTED BRUSSELS. Ribs, leaves and stalks very large. Pkt. 10c., oz. 30c., 1 lb. 85c., 10 lb. $3.00.

LARGE VENETIAN. Leaves large and fleshy, colored red, rose and yellow. Highly ornamental, finest quality. Pkt. 10c., oz. 40c., 1 lb. $1.25.

CHIVES

Sow the seeds early in May in shallow drills 12 inches apart and cover very lightly with soil, but press down firmly. Keep well watered until young plants are up. Do not thin out, but allow to grow thickly in a mat; the following spring lift in clumps 6 inches square and plant in rows, allowing 12 inches of space between each plant. Keep growth constantly cut to keep it tender and do not allow to flower. Pkt. 15c., 2 for 25c., oz. 75c.
Moore's Mammoth Green Curled Italian. Very large, valuable, new sort, attaining a diameter of twenty-two inches and is especially useful for decorative purposes in displaying oysters and other seafoods. It is the heaviest yielding, easiest blanched, longest keeping, best selling and the most profitable sort to grow for the home market or long distance shipping. It is a universal favorite with all who plant or sell it either for home use or market. Every Philadelphia endive grower buys his seed from us. Leaves beautifully curled, tender; of an attractive green color and blanches easily. The centre is very close and full.

Moores Mammoth Green Curled Italian Endive.

So compact is the centre that tying up to blanch is often unnecessary. Much superior to the so-called oyster endive sold by other seedsmen. It is the green curled endive par excellence. Try it and be convinced. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

English Bordeau. A new, large, green, curly, tender sort; splendente from 12 to 15 inches in diameter. Very pretty and distinct; will outsell any other medium sized, green curled sort. Should be grown by all who cultivate endive for table use. The leaves are more numerous and more evenly curled than curls. Mammoth Green Curled Italian are rare, usually tender, and blanch readily upon being tied up a few days. It is the best sort for the home garden and culinary use. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

White Curled Guillaune. A beautiful curled variety; leaves almost oblong; large compact grower. Pkt. 10c., 3 pts. 25c., oz. 30c., 1 lb. 85c., lb. $2.50.

FRENCH ENDIVE or Whitoof-Chichory. True mammoth Brussels strain. Pkt. 10c., oz. 35c., 1 lb. 85c., lb. $2.50.

Giant-Leaved Batavian (Escarole), readily blanches a beautiful white, producing a good, firm, compact head and the best market type. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

**GOURDS**

A large and interesting class, producing a great variety of curious fruits, many of which are peculiarly marked. All the fruits are hard shellable, and are much relished by the ladies.

No. 1052. Japanese Nest Egg. Very handsome, making a capital nest. Pkt. 5c., oz. 15c., 1 oz. 50c., 1 lb. $2.50.

No. 1053. Hercules Club. Four feet long. Pkt. 5c., oz. 15c., 1 oz. 50c., 1 lb. $2.50.

No. 1054. Orange Shaped. (Mock Orange.) Pkt. 5c., oz. 20c., 1 oz. 60c., 1 lb. $3.00.

No. 1055. Sugar Trough. Very useful for baskets, dishes, buckets, etc. They have hard, thick shells, lasting for years, and capable of holding from 2 to 10 gallons each. Pkt. 5c., oz. 35c., 1 lb. $5.00.

No. 1057. Sponge or Dish Rag. (True Chinese Loufia.) Pkt. 5c., oz. 50c., 1 oz. 85c., 1 lb. $2.50.

No. 1059. Bottle Shaped. Pkt. 5c., oz. 50c., 1 oz. 85c., 1 lb. $2.50.

No. 1051. Dipper. (Cabra.) Named for its resemblance to a dipper. The capacity varies from a flat to a quart, with handles 6 to 8 inches long. They are convenient for dipping hot liquids, etc. Pkt. 5c., oz. 20c., 1 lb. $1.00.

No. 1058. Fine Mixed. A large collection of the most ornamental and useful, including all the above. Pkt. 5c., 7 pts. 25c., oz. 20c.

**KALE OR BORECOLE**

This popular rolling green for winter and early spring use is being planted more largely each year, and will keep copiously, coming from southern states reach northern markets during the winter months in large quantities, and in some sections it is almost as popular as spinach. We have found the following sorts to be the best for market.

Norfolk Green Curled Scotch. (Long Standing.) Beautifully curled, very hardy, handsome variety. The hardest and best for fall sowing, to winter over in northern latitudes. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

Welsh Curled. Beautifully curled, long plum-like leaves, heavy and very tender. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

DWARF GERMAN GREENS. Not hardy north of Virginia. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $1.75.

ITALIAN ADRIATIC. Pkt. 10c., oz. 35c., 1 lb. $1.00.

**KOHL-RABI**

Earliest Erfurt White. The shortest leaves and best early market variety, being entirely leafless, tender and sweet. The best variety for forcing in frames or outdoor culture. The best and most profitable sort for market either spring or fall.

Pkt. 10c., oz. 30c., 1 lb. 85c., lb. $3.00.

SMOOTH WHITE SHORT-LEAVED VIENNA. Not as early as the above. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

SMOOTH PURPLE SHORT-LEAVED VIENNA. Pkt. 10c., oz. 30c., 1 lb. 85c., lb. $3.00.

**LEEK**

Sir Ayton Castle Winter. The best for market or private use. The best winter keeper. Pkt. 10c., oz. 25c., 1 lb. 70c., lb. $2.50

LARGE IMPROVED NEW GIANT ITALIAN. Extra stock and better than the London Flag. Pkt. 10c., oz. 25c., 1 lb. 70c., lb. $2.50.

"Your Sir AYTON CASTLE is a grand variety, the finest I have ever seen. Nearly a foot in length and 2 inches in diameter, and will get much larger. It is a good keeper." Mr. A. Weller, Frankfort, Pa.
MONEY-MAKING LETTUCE

SUPERB VARIETIES FOR HOME MARKET OR SHIPPING. Each One Illustrated

Bigger Crops, Bigger Prices, Bigger Profits Are Assured to All Those Who Plant Moore's Lettuce Seed

MOORE'S EARLY CABBAGE HEAD

A Grand Large Early Cabbage Lettuce. Wins Praise from All Users. Produces Immense Solid White Heads, 8 to 10 and often 12 inches across. The Ideal Lettuce for first sitting, either under sash, "cotton," or open on ground borders. Unexcelled as an early market variety for either Northern or Southern growers. Very tender and will remain in good condition longer than Big Boston. If you grow early Lettuce to ship long or short distances, it will make you better money than any other sort.

In some states years of careful selection and testing have finally produced this fine variety. It is a large framed, broad, and open plant, with a large, crisp, tender, and sweet heart. It is a good, steady grower, and makes large, flat, tender heads, which keep perfectly during transportation. It is known to mature all early sorts for growing in the open ground throughout the north or in Florida, or along the Atlantic and Gulf coasts. Thousands of acres of this valuable variety are now grown throughout the United States for home markets and shipping. Pkt. 10c., oz. 30c., 1 lb. 75c., 10 lb. $2.50. Large buyers will be quoted special prices by stating quantity wanted.

THE BEST EARLY LETTUCE EVER INTRODUCED.

white, buttery heads, crisp, tender and sweet. Our illustration shows its heading qualities to perfection. The best of the early sorts has proved to be not only the earliest of the year, but also the best of the season. It is a large framed, open plant, with a large, crisp, tender, and sweet heart. It is a good, steady grower, and makes large, flat, tender heads, which keep perfectly during transportation. It is known to mature all early sorts for growing in the open ground throughout the north or in Florida, or along the Atlantic and Gulf coasts. Thousands of acres of this valuable variety are now grown throughout the United States for home markets and shipping. Pkt. 10c., oz. 30c., 1 lb. 75c., 10 lb. $2.50. Large buyers will be quoted special prices by stating quantity wanted.

MOORE'S EARLY MAY KING.

Our many customers will find our strain of Early May King to be a big improvement over the original type. The plants are of quick growth, practically all head and extremely handsome. From early spring plantings in the open ground they grow quickly to a diameter of six to seven inches with the broad, light-green outer leaves folding closely about the round solid head; in cool weather the edges of these outer leaves are never tinged with brown. The inner leaves (practically the entire head) are blanched to a rich golden yellow and have a specially fine, rich buttery texture. The round solid heads are so firmly folded that they can be shipped to distant markets and arrive in good condition. We recommend repeated plantings in the spring, and again during August and September. Pkt. 5c., oz. 25c., 1 lb. 60c., 1 lb. $2.00.

MOORE'S EARLIEST WAYAHEAD.

Shows a remarkable combination of earliness, firm, blanched character, handsome appearance and fine quality. Both in cold frames early in the spring and in the open ground—in spring, summer, and early fall months—It has proved to be not only the earlist and one of the surest heading of all early lettuce, but also of the very finest quality throughout the season. Wayahead is not only earlier than May King, but the tightly folded heads are generally larger in size. The outer leaves are a very light green, with the inner head finely blanched to a rich buttery yellow and stands a long time before running to seed. Pkt. 10c., oz. 30c., 1 lb. 75c., 1 lb. $2.50.

MOORE'S NEW ALL HEART.

This distinct Cabbage Lettuce is excellent for spring and summer use, as it stands intense heat. It is a yellowish green color, and forms a solid heart, even before it is half grown, and is of superior flavor. It is also sometimes used for forcing under glass. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. $2.50.
CHAMPION BIG BOSTON

The King of This Type of Head Lettuce. One of a very careful and intelligent selection of one of Philadelphia's most successful market gardens. It is a true long-distance shipper, and as in the largest lettuce growing sections of the United States, we had to find our thousand market gardeners throughout the world. It is a great success, a true long-distance shipper, and we especially recommend it to all lettuce growers who ship long distances. It seems to have little or no tendency to go to seed, which is a highly valuable feature for all lettuce growers. It will stand longer on the ground and hold up longer after fall rains than any other Big or Large Boston Lettuce you ever had.

CHAMPION BIG BOSTON LETTUCE

The Great Hot Weather Lettuce. Immense Heads—12 to 15 inches across. Blanches Beautifully, is Crisp, Sweeter and Absolutely Free from Buttery Flavor. In short, it is the Acme of Perfection for a Spring and Summer Lettuce. It heads during hot, dry weather, when no other sort will.

Those who like a cabbage lettuce, with rich, buttery leaves of great substance, will be thoroughly well pleased with this new variety from Turkey, which is accurately shown in the illustrations. It is a very remarkable and desirable variety, the result of many years' careful selection and improvement by a dry, deep rooted, resisting hot, dry weather to a remarkable degree. The outer color is a distinct apple green. It is now very extensively grown by thousands of market gardeners in all sections of the country and from whom we have many gratifying reports. It has come to stay, and is a standard main summer crop hot weather lettuce. It will be a valuable and greatly appreciated. I might very appropriately call it an All Head lettuce. It is very slow to run to seed, and it will stand in great quantity fully two to three weeks after it is headed up. It is much quicker to mature than either Big Boston or Mammoth Salamander. Most highly recommended for family gardens or the market gardener who wishes fancy prices for what he grows. We highly recommend it for early spring and early fall. Also for chardonny or chardonnay of all classes. Pkt. 10c., oz. 30c., 1/2 lb. 75c., 1 lb. $2.50.

NEW TURKISH BUTTER LETTUCE

The Great Hot Weather Lettuce. Immense Heads—12 to 15 inches across. Blanches Beautifully, is Crisp, Sweeter and Absolutely Free from Buttery Flavor. In short, it is the Acme of Perfection for a Spring and Summer Lettuce. It heads during hot, dry weather, when no other sort will.

Those who like a cabbage lettuce, with rich, buttery leaves of great substance, will be thoroughly well pleased with this new variety from Turkey, which is accurately shown in the illustrations. It is a very remarkable and desirable variety, the result of many years' careful selection and improvement by a dry, deep rooted, resisting hot, dry weather to a remarkable degree. The outer color is a distinct apple green. It is now very extensively grown by thousands of market gardeners in all sections of the country and from whom we have many gratifying reports. Most highly recommended for family gardens or the market gardener who wishes fancy prices for what he grows. We highly recommend it for early spring and early fall. Also for chardonny or chardonnay of all classes. Pkt. 10c., oz. 30c., 1/2 lb. 75c., 1 lb. $2.50.

CANNOT SAY TOO MUCH IN ITS FAVOR.—"Your Turkish Butter Lettuce shows a remarkable combination of good qualities—earlyness, firm heading, beautiful appearance and fine quality are but a few. I have grown it 3 years and I cannot say too much in its favor. It is simply the best butter lettuces the market gardener can grow. It is sure to head every time. When Salamander and Big Boston just started to head I had your Turkish Butter all cut off. All were down at same time."—SAMUEL H. WHEATLEY, RUTHERFORD, N. J.

A MAGNIFICENT SUMMER LETTUCE.—"I have been trying 21 years and have been planting your Turkish Butter exclusively the past 4 years for my summer crop. When I tell you it is a magnificent lettuce, I would not be without it. I am only repeating what all my neighbors say who were first induced to plant it by me; 32 heads filled a flour barrel. They were beautiful large, solid, firm heads too."—ISCHA M. JONES, WILKES-BARRE, PA.

MOORE'S NEW SUMMER GEM

This is undoubtedly one of the largest heading varieties of all summer lettuces and particularly valuable for summer planting. The heads are large, from 12 to 15 inches across; firm up rapidly and are of a beautiful creamy white color. Market gardeners in warm sections write us that it heads up uniformly and is among the most popular lettuces ever had for summer use. Excellent for private gardeners. It should have about 100 seeds to an ounce. Don't fail to try it. Pkt. 10c., oz. 25c., 1/4 lb. 60c., 1 lb. $2.00.

Moore's Summer Gem.

PLANT CHAMPION AND GET THE BEST CROP...
LETTUCE—HIGH GRADE VARIETIES (Continued)

MOORE'S CALIFORNIA
TENNIS BALL LETTUCE

Very Large, Extremely Crisp, Hard Heading and Extra Long Standing

This famous variety from California is the surest and best heading of all the crisp-headed varieties. It is most highly esteemed for its beautiful appearance and mild flavor during the hot summer months. The plants are of medium size, but produce large, conical heads, which are tightly folded and blanched to a beautiful silver white. The outer leaves have a light green, finely fringed, and grow up closely about the large conical head. While it is especially adapted for midsummer, it is very desirable for spring and fall. The plants are of quick, strong growth, attaining a leaf diameter of twelve inches and a height of fifteen inches. The unusual solidity of the heads is insured by the large white main ribs of the leaves, each of which, curving strongly into the center, acts like a brace, making it impossible for the leaves to open outward and expose the center, which is constantly thoroughly blanched. A good long-distance shipper. Pkt. 10c., oz. 50c., 1 lb. 75c., lb. $1.00.

HOPKINS BIG BOSTON. We have a very fine strain of this famous variety. (Description of our New Champion Big Boston on page 36.) We solicit correspondence from large buyers and associations who plant this important variety. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50, 5 lbs. $6.00 postpaid.

CUT AND COME AGAIN. A very crisp, sweet and tender variety for sowing thickly in rows; it can be repeatedly cut during the season; excellent for the family garden and home use. Will make as selling-by-measure. Will make good heads if properly thinned. Should be cut about 2 inches from the ground. You will like it. Pkt. 5c., oz. 10c., 1 lb. 20c., lb. $1.50.

BOSTON WHITE HOT HOUSE
(Rutter's Private Stock.) Early, rapid grower, very solid, compact white, tender hearted. A compact white tender hearted and extensive grower of hot house lettuce ships the most solid heading lettuce and realizes higher prices than any other Boston grower. The most profitable and most reliable lettuce for growing in greenhouses. Pkt. 10c., oz. 50c., 1 lb. $1.75, lb. $5.00.

SPECIAL FORCING GRAND RAPIDS. (Sloan's Stock.) Better color and very compact. Pkt. 10c., oz. 25c., 1 lb. 50c., lb. $1.75.

NEW FRENCH POUlTRY LETTUCE. Probably every poultry raiser knows how eager the growers are to eat lettuce, how they seem to enjoy it, and when opportunity offers, to actually fight for it. The French and Belgians are said to produce the finest flavored poultry grown, and largely attribute their great success to the great quantities of a certain lettuce which they freely feed their fowl on. After considerable expense and trouble we have succeeded in obtaining some of this valuable variety for our customers. It is a very strong grower, a small plot of ground will yield a prodigious quantity of this lettuce, which contains certain valuable properties both medicinal and food which make it so valuable to the poultry raiser. All kinds of poultry eat it greedily—chickens, ducks, guinea and geese eat it with great avidity. Freely fed in connection with other foods it keeps them in the best possible physical condition, and greatly increases the egg production, as well as imparting a delicious flavor to the fowl when cooked. It is a very cheap food, and very easily grown. We recommend sowing it 2 inches deep in rows 18 inches apart. When 3 or 4 inches high, it is ready to feed. Every poultry raiser, large or small, should, if possible, produce his own poultry food, and there is no poultry food he can produce as cheaply as growing our New French Poultry Lettuce. Pkt. 10c., oz. 50c., 1 lb. 80c., lb. $3.00.

ROMAINE CELERY—NEW

A GOOD NEW LETTUCE. Very profitable to grow. This new sort produces an unusually snowy white color, and a large compact solid head. Very sweet and tender, and is preferred to all other varieties of Cos lettuce. At Paris, where large quantities of it are grown, it is considered as the Parisian Celery Lettuce. All large cities consume immense quantities of this variety. Grows about 10 inches high, and will blanch without tying. It is the best keeper of the season. No other sort is worthy of growing where this can be had. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

A FEW OF THOUSANDS

"Moore's California Tennis Ball Lettuce is the best and most profitable sort I ever grew and I have been trucking 15 years."—C. A. Mires, Thorndene Farm, Pa.

"Your Romaine Celery Lettuce is far superior to any other sort. It is the best cropper, the best carrier, and the best seller."—SAMUEL DIVINE, Rochester, N. Y.

MUSK MELONS—THE MOST PROFITABLE ONES TO GROW

Important for You to Know
That for many years we have been one of the largest growers of Melon Seeds in the United States, and that for many years we have been supplying many of the finest growers of melons, and have come to be known as the leading source of supply of the finest melons. We have always given the most careful selection of the finest seeds, and have been able to supply the best seeds at the lowest prices. We have always been able to supply the best seeds to the best growers, and have always been able to supply the best seeds to the best growers at the lowest prices.

NEW ORDWAY PINK (Solid Netted)
No melon grower will make a mistake in planting it. It is a tough, thin-skinned melon, covered with a closely banded and interlaced gray netting, and is the most popular of rich golden or reddish-orange color, very thick, fine-grained, and spicily, not containing too much water or acid; the flavor cannot be excelled. Seed cavity small and triangular. It is an abundant yielder, often producing over 25 medium melons to the hill. It is an excellent melon and will carry its large yield well. This melon has brought hundreds of growers highly profitable returns. Pkt. 10c., oz. 20c., lb. 50c., 1 lb. $2.00, 5 lbs. $9.00, postpaid.

SALMON-TINTED POLLOCK No. 10-25
Salmon-Tinted Pollock No. 10-25 is probably planted more extensively for long-distance shipping than any other sort. Many of our California and Western growers buy this valuable sort from us in one-hundred-pound lots, because of its thin texture is deep and firm. Color of meat green one-half the depth from the rind, the remaining one-half a rich salmon, giving it an attractive appearance. The netting is closely laced and interlaced, there being a subnetting underneath the netting. The skin runs from standard to jumbo and it yields a very heavy crop and invariably sells at outside prices. This is the favorite sort with California growers and other long-distance shippers. We offer the seed in grades only and that the very best.

Stock Seed Salmon-Tinted Pollock No. 10-25. Saved from the finest grades of melons to ripen. Pkt. 10c., oz. 20c., lb. 75c., 1 lb. $2.00, 10-lb. lots and up $19.00, postpaid.

Burrell Gem
This seed is cut from melons of the finest possible selection as to uniformity of size, shape, netting and quality. In fact, it is saved in the same care as we exercise in breeding up a new variety. Stock seed, solid net. pkt. 5c., oz. 15c., 1 lb. 50c., 1 lb. $1.50.

PARKER'S EXTRA EARLY (New)
Earliest of All: Yes, it is the Earliest of All Netted Musk Melons, Without Exception. Our attention was called to this melon by a market gardener at Atlantic City, New Jersey. Ever since, every season over our customer hundreds of truck gardeners with our superior strains, and ship many thousands of pounds to the largest melon growers of the South and West. We attribute the popularity of our melons, as well as of other seeds, to our careful selection of the very finest specimens of our seed stocks, thus improving and breeding up our stocks to the highest state of perfection. Many of the best and most popular melons now known were first introduced by us. Correspond with us for SPECIAL PRICES if seed be wanted in large quantities, no matter whether it be 100 pounds or upon of any variety.

PARKER'S EXTRA EARLY MELON

MATCHLESS EARLY MUSK MELON

It is a small melon, weighing 1 to 1½ pounds. The flesh is deep and thick, and light green in color, except the seeds, where it inclines toward yellow. The flavor is exceedingly fine. The skin is green, regularly ribbed and thickly netted. It is a firm solid melon, and will carry in perfect condition for a week or more after its removal from the vine. It is a heavy cropper, and is in wide demand for market melons. It is practically large in size, and its heavy, round, firm, solid quality makes it highly prized. We offer the best grade of seed only. Only the most perfect fruits are cut.

Pkt. 10c., oz. 20c., lb. $2.00, 5 lbs. $9.50, 10 lbs. $18.00, by mail or express, prepaid.

EMERALD GEM
Skin deep emerald-green, flesh salmon colored and delicious quality, Flesh very thick, small seed cavity. Pkt. 10c., oz. 20c., 1 lb. 50c., 1 lb. $1.35.

McCLEARY'S LARGE JENNY LIND
Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. $2.25.

ROSE or PETOSKEY
Thick salmon-colored flesh. The fruits are produced in large quantities, round or slightly oval, ribbed and heavily netted; of a light green or faint golden hue when fully ripe. The flesh is thick, of deep-orange color, uniformly ripened. This melon is a favorite in the eastern markets, and is grown in great quantities. The best salmon is much firmer than that of our Emerald Gem. It is an excellent shipping variety, of handsome appearance and good quality. Listed.

Pkt. 10c., oz. 15c., 1 lb. 45c., 1 lb. $1.35.

MCCLEARY'S LARGE JENNY LIND

POD ROSE or PETOSKEY
Thick salmon-colored flesh. The fruits are produced in large quantities, round or slightly oval, ribbed and heavily netted; of a light green or faint golden hue when fully ripe. The flesh is thick, of deep-orange color, uniformly ripened. This melon is a favorite in the eastern markets, and is grown in great quantities. The best salmon is much firmer than that of our Emerald Gem. It is an excellent shipping variety, of handsome appearance and good quality. Listed.

Pkt. 10c., oz. 15c., 1 lb. 45c., 1 lb. $1.35.
MOORE’S DELICIOUS GOLD LINED ROCKY FORD

A most delicious green-fleshed Cantaloupe and best selling sort of its type

It is a big money-maker, in the fullest sense of the word, for all who grow it.

The most progressive muskmelon growers of Rocky Ford, Colo., made a very comfortable fortune in growing this one variety for the Eastern markets, where they sold carloads of this one variety at very high prices on account of its delicious eating qualities. Its shape is ideal, very slightly oval, no ribs and it is heavily netted over the entire melon. The melon is very thick netted, hence it carries well; fine grained and sweet; color green with a beautiful deep yellow gold margin next to the seed cavity.

It is of uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Every seed we offer from this strain will be from a select melon and hand-seeded. It ripens quite early and many of our customers claim it to be the most productive muskmelon they ever grew. Our seed fields have never shown the slightest trace of rust or other disease. We offer it at a wonderfully low price. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

NEW EARLY HONEY SWEET

They weigh about two pounds each, skin thickly netted. In quality and flavor they are superior, being uniformly rich, sugary and husky. They are Extra Early, ripening a few days after the Matchless Early. The melons, even if left on the vines a week after they are ripe, and ready to pick, still retain their good quality. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

CALIFORNIA GOLDEN HONEY DEW

THE FAMOUS NEW MELON. Sold in season 1919 at from $1.30 to $2.50 each. One California melon grower paid $3,000.00 for 1/2 lb. of seed for his 1919 crop.

The rind is a dull white when ripe. Part of the melons show slight checks in the rind like a tendency to net. This appears when the melon is ready to pick. Time of ripening about two weeks later than Rocky Fords. The size runs the same as the original green flesh sorts, six to seven inches in diameter from top to bottom and eight inches in length. The matured melons are practically all the same shape and size. The flesh is a rich golden color and deliciously sweet. The melon is the best of all shippers and will keep several weeks, so there is practically no loss from spoiled melons in shipping.

We recommend this melon to market growers and to all amateur gardeners. The vines are vigorous and set six to ten melons to the hill and if proper care is taken to ship only ripe melons a fine market can be established.

Our supply of seed is strictly right and grown from carefully selected stock seed from the INTRODUCER’S STOCK.

We wish all our customers to plant at least some of our New California New Golden Honey Dew and get acquainted with its deliciousness. Commercial melon growers will find it a wonderfully profitable crop. Price, pkt. 10c., 3 pkts. 25c., oz. 35c., 1 lb. $1.00, lb.$3.50.

FORDHOOK

The flesh is very thick, of an attractive deep-salmon color and surpassingly sweet to the very rind. The rind, although thin, is unusually firm, so that the fruits carry well to market. The fruits are ready for market fully as early as our Honey Sweet. The vines grow vigorously and each vine sets from 5 to 9 melons immediately around the fruit. Practically the fruit touches one another. The melons are remarkably even in size, weighing from 1 lb. 8 oz. to 2 pounds each. Our FORDHOOK is so thoroughly a money-maker practically no fruits unfit for market. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

PERRY’S NEW HOODOO PINK MEAT

THE “KNIGHT” OR MARYLAND CANTALOupe

This superb green-fleshed Muskmelon has for five successive years broken all records, selling without regard to market conditions for other melons at Norfolk, Va., as well as here in Maryland, and has a wonderful reputation. In quality, it quite outclasses all other green-fleshed melons, having a taste that is indescribably delicious with a remarkable aroma. While this melon has had a wonderful reputation around Baltimore and Norfolk markets it fully deserves to be known over a wider territory. It is slightly pointed at the stem end while being rather blunt at the blossom end. They grow uniform in shape and size, averaging about six inches in length from stem to blossom and 4½ to 5½ inches the other direction; handsomely netted, very thick meat. Every melon grower is to be congratulated who grows a crop of this magnificent melon. Pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. 80c., lb. $1.50 postpaid.

EARLY HACKENSACK MUSK MELOON

A large green-fleshed variety, round, slightly flattened from the stem to the blossom end, very deeply and broadly ribbed, with bold, strongly defined netting. The flesh is very thick, rich in appearance and deliciously flavorful. This type of Melon is rapidly coming into favor again. Pkt. 10c., oz. 25c., 1 lb. 50c., lb. $1.75.

EARLY hackensack Musk Melon

One of the best selling musk-melons on the market to-day. True stock. Wonderfully productive, a wonderful seller. A wonderful blight or rust resisting type.

The fruits are uniform, of just the right market size, ribbed deeply and densely netted, covered smooth, flesh a beautiful deep orange, thick and very small seed cavity, of spicy, sweet aromatic flavor. A very desirable melon to ship to distant markets it is without a superior. We have had this melon keep in perfect condition for three weeks after having been removed from the vines. It is the melon for you to grow for big returns. Pkt. 10c., oz. 20c., 1 lb. 70c., lb. $1.75.
Everyone Should Try Our

**Cuban Banana Musk Melon.** Flesh very thick, a salmon color; the flavor is distinct from all other melons. It looks almost like an overgrown banana, and, moreover, has rich banana-like perfume. This curious melon attains a length of 15 to 20 inches, and a diameter of 4 to 8 inches. This sort is not a mere curiosity, but is in such favor as to command good prices in choice city markets, and is very desirable for family use as well. Pkt. 10c., oz. 20c., 1 lb. 60c., 1 lb. $2.00.

**MISSOURI HONEY HEART WATERMELON**

A Wonderful Money Crop Maker in every State. The Finest Watermelon in all the World, so votes everyone who grows it. The Watermelon Noted for its Astonishing Long Distance Keeping Qualities, so say all who ship it. All Big Watermelon Growers are Astonished at its Wonderful Productiveness.

(See Illustration from a Field Photograph for proof of yield)

This wonderful melon originated with one of the most successful melon growers in Missouri, who made a very comfortable fortune in growing and shipping it to all the leading large cities in the United States. It reached New York City in the pink of condition and sold at fabulous prices. The melons were shipped in apple barrels. The melon grower and originator of this wonderfully valuable new melon says in part:

A Great Producer—Splendid for Shipping—Very Popular with Produce Commission Men. It is hard to beat as to quality and productiveness and is a splendid shipper. It is grown largely in Missouri for this purpose. The Melons ripen evenly, the vines are vigorous, show no tendency to wilt or rust, and bear many Melons of splendid marketable size. Oval, very heavy and with a rind which is very thin but firm. In color it is a light green, slightly veined with a darker shade. The flesh is a beautiful bright red, very tender and deliciously sweet. Missouri Honey Heart remains a remarkably long time in good condition after being ripe. We have a splendid strain of this valuable seed. Price, pkt. 10c., oz. 20c., 1 lb. $1.00, 10 lbs. (enough for one acre) $5.50.

New Irish Gray Watermelon. A remarkably new and delicious melon, a big money maker, and supreme satisfaction to all who grow it. It has more valuable qualities than any similar melon we ever introduced before. If you are a grower of watermelons this new variety offers you an opportunity to "clip money" such as you never had before. These melons attract the attention of every one by their beautiful rich yellowish-gray color, with an average weight of 20 pounds. The color is distinctly unique and not found in any other. It is enormously productive; it will produce 30 per cent. more marketable melons than either Tom Watson or Kleckley Sweets, and will stand long-distance shipping better than either. Will easily carry 2,000 miles farther than Tom Watson and open as fresh as when picked. Can you beat that? No. The flesh is bright sparkling red, the flavor is deliciously sweet and satisfying. The vines are most vigorous and will resist. One of our largest watermelon growers says: "During my 20 years' experience as a melon grower and shipper I have never seen a melon grower so contented as to own a field of IRISH GRAY in every detail and for every purpose." Pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. $1.50.
OUR MELONS ARE GROWN EXCLUSIVELY FOR THE SEED

and every melon not true to type and shape is thrown out and destroyed. Every melon under 15 pounds in weight of the smaller varieties and 20 pounds of the larger, are discarded. Not a seed is saved from the small and inferior melons. Not a melon is sold from the crop or shipped by any of our regular watermelon seed growers. Naturally it costs several times as much to grow seed this way than it does to grow the seed sold by other houses at a lower price.

We make a specialty of our pure, pure watermelon seed of the highest vitality which we grow on new ground under the most favorable conditions. Next to our Tomato seed it is our greatest specialty. Our seed is the best that can be grown, and if you want seed that will produce large, perfect, sweet and salable melons, we have here what you want to grow watermelons fit to eat and to bring you the highest price in the market, use our specially selected and carefully grown watermelon seed.

Moore's Selected Watermelon Seed Is the Best

Our watermelon seed is used by many of the largest planters in the United States, and we thank our numerous Southern customers for their very liberal patronage.

ARIZONA WONDERFUL SUGAR

While traveling in the State of Arizona, we found this sort to be almost universally grown on account of its many good qualities. We procured some of the seed and are now able to offer it to our many thousand customers. The melon is of good large size, flesh of a bright red, and of a delicious sweetness. The rind is unusually thin and tender and very good for canning purposes. It is a very popular variety throughout the United States, and we are assured that we are furnishing the very best grown today.

OUR MELONS ARE GROWN EXCLUSIVELY FOR THE SEED

THE BIG GROWERS AND SHIPPERS EVERYWHERE ARE BRINGING IT IN VEST

Weighs from 30 to 50 lbs.; one grower reports 90 lbs. Our seeds are the choicest. A cross between the Tom Watson and Big Blue Gem. It is a handsome long melon (see cut) with dark green stripes. The heaviest bearer of all the melons, cuts deep red, a better melon than the Watson, in fact it equals our now famous Shaker Blue in quality. Many predict that it will supplant all other sorts as a shipping melon. No matter where grown it keeps well, looks attractive and possesses an excellent flavor, flesh remarkably sweet and tender. Grows solid, never hollow. The shape is ideal. One of our large Southern growers says: "Your New Excel beats them all, it is the best I ever saw and I have raised thousands of cans." Medium early. It means a revolution among watermelon growers everywhere. Genuine seeds, and we always ship the finest grown. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50. Special quotations on larger quantities.

French Preserving Melon

This is quite distinct and superior to the ordinary preserving citron. It is immensely productive. The flesh is very firm and solid, with few seeds and of spherical shape. The preserving qualities are the very finest; it makes beautiful, clear, nearly transparent, deeply preserved, or unsurpassing fine flavor. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $2.00.

Alabama Sweet

One of the finest long shipping melons. This new introduction is becoming the most popular long shipping melon among Southern melon growers of all the long shaped shipping varieties, and rightly so. In general appearance it looks very much like the Kleckley Sweets—looks that make it sell on sight at the highest price. It is extra early, coming in almost with Seminole, and is one of the earliest medium-to-large size melons we have ever seen. It is of long shape with an intense dark green color, and a splendid shipper. Flesh is very fine grained, solid but fine from stringiness. Pkt. 5c, oz. 10c., 1 lb. 25c., lb. $1.00.

Kleckley Sweets

An immensely popular melon of superb luscious market. Flesh bright scarlet with broad solid heart, crisp and sugary. Seed saved from selected specimens only. Pkt. 5c., oz. 10c., 2 oz. 15c., 1 lb. 25c., lb. 50c., 5 lbs. $1.75.

Turner's Dark Icing, or I. C. Kind

Fruit of round or shortened oval form, with dark green skin. Flesh deep pink, very sweet and melting. Juicy but popular with New Jersey truckers, as its noted fir quality makes the melons sell well in any market. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

Florida Favorite

A large oblong melon, with dark green skin, faintly striped with with deeper shade; deep red flesh of excellent flavor. Pkt. 5c., oz. 15c., 1 lb. 40c., lb. $1.25, 5 lbs. $2.00.

The rind is exceptionally strong, making it a good shipper. Quality superior to Kob Gem, larger in size and more attractive in appearance. Very pure stock. Oz. 10c., 1 lb. 50c., 15c., 5 lbs. $2.75.

Louisiana Melting Sugar

A large, long, weighty melon. Flesh light green; interior always solid, the edible portion extending to within half an inch of the skin; flesh brilliant red, sweet, tender, crystalline, very juicy and altogether quite superior. Very hard rind and therefore a good shipper. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

EARLY MARKET KING

Superior for Long Distance Shipping

THE EARLIEST LARGE MELON EVER GROWN

MATURES 63 DAYS FROM PLANTING

Notwithstanding the large size of this melon they will readily withstand packing seven layers deep, without injury, in a car; whereas the Blue Gem or any other variety cannot be packed more than five layers deep for long distance shipping, thus fully proving it to be superior to all others as a shipper. Fruit large and heavy (thirty to fifty pounds.) A melon large growers need not hesitate to plant largely. This is not only an early watermelon of fine quality, but it is also of large size. From seed planted on the fourth day of May, large, ripe melons were picked July 28th. Its eating qualities superior to all other early sorts, and always commands the highest market price. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.
THE NEW TOM WATSON

It certainly gives us great pleasure to introduce this remarkably fine new Water Melon to our many thousand customers. It required many years of the most careful hybridizing and selection on the part of Mr. C. O. Watson to produce this, what we term, the King of All Water Melons, and to use his own language he believes it "challenges the world to produce a better melon of its type, a better melon for growing, shipping or eating." This remarkable melon ripens in from 65 to 80 days, and under good cultivation will weigh about 60 lbs.

We have given it careful trials among many large melon growers for several seasons past in the largest melon growing sections of the world, and they are all highly enthusiastic in its praise. We have never yet found a grower or consumer who was not delighted with it, and we feel sure you will join the same rank if you plant it. It gives surprising results to all. The skin is of a rich deep green, the flesh a beautiful deep red, crisp, sugary and melting and free from stringiness. It is very heavy, early, large, handsome, a strong vigorous grower, a good shipper and long keeper. One grower planted 1,200 acres of this melon. All seed saved from specimen melons only. Pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. $1.25.

SHAKER BLUE

The New Shipping Melon. This is comparatively a new melon from one of the largest water melon growing districts in Georgia; it is admitted by all who have seen or handled it to be the coming melon for profitable long distance shipping, as well as for home market where large round melons are in demand. It is a large handsome melon. It commands a much higher price than Kolb Gem, Blue Gem, Triumph, Irenclad or Kelleigh Sweets. The rind is a beautiful dark green, occasionally showing stripes and bands of a lighter green, changing to darker green when ripe. It is particularly distinguished by its solid "Big Heart" of pleasing bright red color and delicious quality and entirely free from hard core. The centre or heart is solid from rind to rind and holoves or cavities are entirely absent. In our opinion it is a most desirable variety for shipping or hotel trade. All seed saved from specimen melons only. Pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. $1.50.

A GRAND NEW WATER MELON—FLORIDA GEM

A Most Valuable Sort for Shipping, the Home Market, or the Private Garden. The Handsomest, Most Productive, Best Selling and Profitable Light Green Variety. The Largest Early White Melon Ever Grown. Matures 81 Days From Planting.

One of Florida's largest and most successful melon growers, and who cleared over $17,000 in 2 years, growing and shipping these delicious melons north, is O. W. Watson, from southern origin, it is equally well adapted for the north and will grow anywhere where water melons can be grown. The color of the outside is rather light with distinct dark markings. The flesh is of a pleasant brilliant red and decidedly solid, and will be found to be firm and very dense to the core. The flavor is peculiarly delicious. It grows very uniform in size and is without doubt the most productive melon ever grown, and the vines will remain green longer than any other variety known to us and will also sell for higher prices in all markets than any other sort. We earnestly recommend all melon growers to plant it. Another valuable feature is, it is not subject to blight to the extent that other melons are, and will yield big crops on land where other sorts fail to produce satisfactorily. Pkt. 10c., oz. 15c., 1 lb. 50c., 1 lb. $1.50, 5 lbs. $5.00. Buyers of 25, 50 and 100 lbs. lots of any kind of melon seed will be quoted special prices by letter.

Arkansas Traveler. A large, long, weighty melon. Rind dark green, with waving stripes of black. Interior always solid. Flesh brilliant red, sweet, tender, crystalline, deliciously sweet and very hard rind, and therefore a good shipper. In color of flesh it is deepest red, in texture crystalline, in flavor sugary. The flesh is solid throughout, without any sign of either core or cavity, and the edible portion extends to within half an inch of the skin. Fine for late plantings to mature in August and September. Pkt. 10c., oz. 20c., 1 lb. 50c., 1 lb. $1.50, 5 lbs. $7.00.

HALFET HONEY. Seed saved from finest specimens only. Oz. 10c., 1 lb. 25c., 1 lb. 75c., 5 lbs. $3.25.

Harris Earliest. In form this melon is oval to oblong. It is beautifully striped with dark green and gray stripes. It has bright red flesh, which is tender, sweet and delicious beyond description. It is very productive. It is the melon for everybody who wants to be first. It bears shipping very well and on account of its extreme earliness, handsome appearance and fine flavor qualities, it always finds a ready market at fancy prices. On stock direct from Mr. Harris. Oz. 15c., 1 lb. 35c., 1 lb. $1.00, 5 lbs. $4.50.

LIGHT ICING or ICE RIND. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.50.

STRIPED GYPSY or GEORGIA RATTLESNAKE. A favorite melon in the South. Oz. 10c., 1 lb. 25c., 1 lb. 75c., 5 lbs $3.50.
Moore Seed Co.'s Onion Seed is Unequaled in Quality

Moore's Philadelphia-Grown Onion Seed is acknowledged by all who have ever grown it to be superior to that obtained from any other source in both strength and purity. No one can appreciate the value of reliable seeds better than those who have been once disappointed, and too much care cannot be exercised in selecting your supply. There is no vegetable where the quality of the seeds exerts a greater influence upon the crops than onions. Our stock is all grown from choice bulbs, selected carefully by hand, and is unequaled in this country.

American Grown PRIZETAKER

THE KING of all

Yellow Globe Onions

True Southport Extra Dark
Large RED GLOBE

IF YOU ARE A GARDENER, MARKET GARDENER OR FARMER, YOU CAN MAKE MONEY AND LOTS OF IT IN GROWING OUR

AMERICAN-GROWN MAMMOTH (LONG KEEPING) YELLOW PRIZETAKER ONION

Our American-grown Prizetaker seed we offer produces large, well-ripened bulbs the first season from seed. Flesh white, crisp and mild in flavor. The skin is thin. of a bright straw yellow. Form nearly a perfect globe, as shown in our illustration. Under ordinary cultivation this variety will yield bulbs nearly three times as large as the Globe Danvers, while under special cultivation we have raised specimen bulbs to weigh from four to five and a half pounds each. These are the large mild onions which are sold in small crates in early fall and are esteemed for their large size, handsome appearance, mild and delicate flavor. With ordinary culture the crop of Prizetaker Onions is not infrequently 1,300 to 1,500 bushels per acre, and often runs up to 1,800 bushels. Our Strain Prizetaker is the tallest and most productive, most popular and best of all Yellow Globe Onions. It has a very small neck and ripens up without stiffness of the neck. In market it never fails to attract attention on account of its beauty, and is sure to bring a far better price than any other onion. It is a remarkable good keeper.

New Zittau Extra Early White

The earliest on earth. This is the biggest early onion money-maker ever offered by any seedman. You grow it direct from the seed and you will have bigger and better onions than any you may grow from sets and at one-third the cost of sets and one-half less labor. Big statements these, but every word the truth. 1,000 bushels per acre can easily be grown from seed of this variety, and in this latitude they can be had on the market by June 15th, when prices range from $1.00 to $2.00 per bushel for new onions. It is unquestionably the largest, handsomest, finest flavored, best shaped, finest keeping, most superior early onion ever introduced, and is an onion that will sell on its merit in any market.

White Barletta

Excellent pickling variety; very early. Small, pure white and of mild flavor. Very profitable for the local market gardener. Pkt. 10c., oz. 25c., 1 lb. $1.00, lb. $3.50. Best sort for bottling or pickling.

White Silver Skin

(Philadelphia Grown) It is from this variety that the famous white sets are grown. Pkt. 10c., oz. 25c., 1 lb. 50c., lb. $3.00.

Australian Brown

Very solid and of good quality. Pkt. 10c., oz. 25c., 1 lb. 60c., lb. $2.00.

Larger buyers will be quoted special prices upon stating quantity wanted.
SPECIAL PRICES. On Onion Seed in any quantity over what is quoted here will be promptly given upon application. Onion Seed has been a leading specialty with us for years. We supply large quantities of seed to many of the largest growers in the United States.

NEW ROYAL SPANISH ONION.
The largest onion grown, similar in form to our Prizetaker, but differing from it in the color of the bulb, which is a lighter straw-yellow, also different in the size, which is a good deal larger. Planted at the same time and under the same conditions, our Royal Spanish will produce bulbs one-half larger and heavier than Prizetaker. The bulbs are very handsome, nearly globular in form and have the size of a large orange, have very thin skin of light straw color and white flesh, which is tender, mild and most delicious, surpassing all similar onions in delicate flavor. Our seed of this variety has been grown in Europe. These onions, if properly dried and stored in airy, cool places, will keep in good condition until spring, and while in the growing stage during the summer they can be used at any time for the table and are of excellent flavor.

It is a record of producing 1,228 bushels per acre. It is a great money-maker, single specimens often sell from 10 to 25 cents each. It is the greatest cropping yellow onion. Be progressive and plant this wonderful money-maker freely.

JAMES' GIANT SILVER KING ONION. I raised 38 bushels Royal Spanish Onions from 1/4 lb. of your seed.

THOMAS O. JANNEY, Rochester, N. Y., writes: Last season I sowed an acre of onions seed bought from you—3 pounds yellow Prizetaker and 2 pounds New Royal Spanish onion, and although the spring was late and cold the seed germinated well. We had a fine stand and a good crop, from which we realized $2,000.00 net Price, pkt. 15c., 2 pkts., 25c., oz. 35c., 1 lb. $1.00, lb. $2.50.75.

MOORE'S GIANT SILVER KING ONION. Universally Popular.

A LEADING VARIETY IN ALL SECTIONS, PRODUCES ENORMOUS CROPS OF ELONGATED ONIONS, ALL CLEAN, SOLID, HARD, THICK, AND PERFECT, SO THICK NECKS," SURE CROPPER, LONG KEEPER, UNQUALIFIED SHIPPER. (New Early Type.) This is our new type of Silver King, from which that introduced several years ago in that it gives in all respects a decided advantage, especially for the market gardener. Large white onions can now be had fully two weeks earlier than from the old type. Like all our varieties the skin is of a beautiful silvery white, with flesh of a particularly mild and pleasant flavor and so sweet that it can be eaten like an apple. No other white onion attains such a man-mother size nor uniformity of size, and is within the range of country. The popularity of this onion increases rapidly from year to year within onion growers everywhere. All who grow it unanimously say it deserves every word of praise that is bestowed upon it by its enthusiastic admirers among farmers, truckers and especially those who eat it. As to the wonderful size, early maturity and fine eating qualities of this famous onion we cannot speak too highly. Everyone desires having the largest, handsomest and most palatable white onions of the finest flavor will be more than satisfied with our Early Giant Silver King. It is highly recommended for the family garden, exhibitions, fairs, restaurants. Its size and beauty always makes a very attractive and especially on market stalls, where it always commands the highest price. This remarkable variety was planted over 150,000 gardens last year for home use or market. It is the most productive of all white onions and goes hard on the market in cultivation. It is the onion for every body, no matter whether grown for sale or consumed on the table as an occasional onion, better still, plant a pound, or if you are a large grower plant 10 pounds. Pkt. 10c., oz. $1.00, lb. $1.50, lb. $3.50.

L. HARVEY'S 203 BUSHELS.—I harvested 203 bushels from the pound of your Early Giant Silver King onion seed. The largest measured 19 inches around. They sold for $3.50 per 100 lbs. My White Glover brought $1.45 per 100 lbs.—Old Mr. Petersen, Easthampton, Wis.

SOLD BETTER.—"I had no trouble to dispose of my Early Giant Silver Kings. They sold better and for more money than either Red or Creme Reds. Will double my crop of them another year."—Chas. P. Minter, Beaumont, Texas.

CHOICE PHILADELPHIA-GROWN ONION SETS:

Philadelphia has long been famed, the country over, for growing the best onion sets, and we are prepared to furnish the choicest stock. Indeed, we include onion sets among our leading specialties, and spare no pains to produce them from thoroughly bred seed and keep them true to name. The peck and bushel prices on onion sets are subject to market changes. We always give full measure unless weight is agreed upon. Prices will probably rise as follows for good stock. Large buyers will please write for prices, stating quantity wanted.
LARGE RED WETHERSFIELD ONION, Extra fine. This is the most popular standard variety for winter market in many Northern States. It is not an early ripening sort, as it continues in growth throughout the season and consequently makes very large onions. Continued selection of bulbous plants for seed gives us a small-necked, sure-ripening strain, entirely free from scallions or thick necks. Its splendid keeping qualities make it easy to hold crops for late winter markets. There is no better strain of the true large Red Wethersfield in cultivation today than this one offered by us. Pkt. 10c, oz. 25c., 1 lb. 75c., 1 b. $2.50.

JAMES' LONG-KEEPING YELLOW ONION. The only variety that will produce perfect yellow sets. Will produce large, perfect onions the first year from seed. The most satisfactory and profitable yellow that variety for market gardeners to plant. Our customers will find in our James' Long-Keeping Yellow that reliability of bottoming and large field are both combined in this popular variety. It cannot be too highly recommended. It is extensively grown for sets for market, and frequently produces five hundred bushels of beautiful sets per acre from seed sown in the spring. The genuine James' Long-Keeping is a very handsome large, round onion, thick, and of good size, with thin, yellow skin, flesh white, fine-grained, firm, and of excellent quality. The large onions of this variety will keep in perfect condition longer than any sort, and are equally as perfect in the spring as when put away in the fall. So beautiful are the sets grown from this seed that they will sell from fifty cents to one dollar per bushel more than any other yellow variety. When sown thinly, same as our Early Silver King, it produces beautiful large yellow onions, without out necks, of excellent quality, which will mature earlier and yellow variety. Pkt. 10c, oz. 30c., 1 lb. 50c., 1 b. $1.00.

SOUTHPORT LARGE WHITE GLOBE (True Southport Strain). A large, globe-shaped onion; flesh firm, fine-grained. The great keeper. This is one of the handsomest White Globe onions grown; of beautiful form, clear white skin. Our stock is very choice. Pkt. 10c, oz. 30c., 1 lb. 75c., 1 b. $2.50.

LARGE RED GLOBE (True Southport Strain). This variety produces large perfectly globe-shaped onions of an extra rich deep red. It brings the highest prices on market, and is very profitable. It is also known as a Red Wethersfield, but is not so early as our Large Red Wethersfield, which is of the flattened type. We highly recommend it to all our market garden friends. Pkt. 10c, oz. 30c., 1 lb. 85c., 1 b. $3.00.

SOUTHPORT LARGE YELLOW GLOBE (True Southport Strain). Like the well-known White Globe in size, but with pale, straw yellow skin. A heavy cropper, handsome in appearance, large size, and sells readily in the market. This strain is the best obtainable. Pkt. 10c, oz. 30c., 1 lb. 85c., 1 b. $3.50. Connecticut grown seed.

EARLY FLAT YELLOW DANVERS. Matures about two weeks earlier than the globe varieties. Pkt. 10c, oz. 30c., 1 lb. 75c., 1 b. $2.75.

PHILADELPHIA YELLOW STRASBURG, OR DUTCH. Bulbs quite flat, of a good size; skin rich yellow, turning to brown when exposed. Ripens early, flesh white and of mild flavor; keeps well. It is one of the very best to grow for sets. Pkt. 10c, oz. 30c., 1 lb. 75c., 1 b. $2.50. 50- and 100-lb. lots will be quoted upon application.

MOORE'S PHILADELPHIA-GROWN YELLOW GLOBE DANVERS ONIONS—FOR SETS. Very early growing and selected for producing sets of the proper shape, size, and color, and producing onions of equally fine quality. The sets grown from this strain of seed will keep in good condition much later in the winter and spring longer than those from seed grown in any other locality. Pkt. 10c, oz. 30c., 1 lb. 75c., 1 b. $2.75.

NEW JERSEY WHITE SCALLION OR CLUSTER BUNCH ONION. This variety is of wonderful value and importance to the market gardener who grows scallions for bunching. Heretofore scallions for bunching could only be grown from small onions or sets planted the year previous. The proper kind of onions or sets, for this purpose are not only difficult to get but are usually expensive, cost considerably. It is now possible to be growing scallions occupying the ground without return for many months. With our New Jersey White Scallion Onion Seed you can sow it as early in the spring as can be worked and secure beautiful long, white scallions for bunching. For always leave a portion of the bottoming will be produced up until the ground freezes up in the winter. It is not uncommon for forty-five scallions to be produced during the pulling season from a single seed planted. The bulbs can be kept for ripening until the ground freezes up, and will ripen exceptionally well. The heads are a beauty and will keep in excellent condition. This strain will produce much better than any other strain that we have seen. Pkt. 10c, oz. 30c., 1 lb. 1$0.00, 1 b. $3.50.

WHITE BERMUDA ONION. This is the standard variety for market crops for shipping. Pkt. 10c, oz. 30c., 1 lb. $1.00, 1 b. $3.00, 5 lb. $14.50.

CRYSTAL WAX BERMUDA. Its pure, waxy-white skin makes it a settler above all other varieties and its mild flavor brings it in favor everywhere that it is known. Pkt. 10c, oz. 30c., 1 lb. $1.00, 1 b. $3.50, 5 lb. $16.00.

AILSA CRAIG ONION. This is one of the largest of the British sorts, and is used very extensively in private gardens both for ordinary use and for exhibition purposes. European Onions do not, as a rule, grow well in America until thoroughly acclimated. This variety has proved to be an exception and has done well since its first appearance here. Grown from seed raised under our supervision, it has become one of the largest and most useful Onions. Skin is dark straw color, flesh pure white, mild and tender. Gardeners frequently bring very large specimens, grown for exhibition, five inches in diameter and weighing two pounds apiece. Pkt. 25c, oz. 50c., 1 lb. $1.75, 1 b. $5.00.
MUSHROOM SPAWN

AMERICAN PROLIFIC PURE CULTURE SPAWN. An American make of spawn which produces larger mushrooms of much superior quality to the English direct bricks inoculated from pure and very prolific cultures. Per brick 30c. (by mail 50c.), 3 bricks $1.46, 10 bricks $2.70, 25 bricks $6.00, 50 bricks $11.50, 100 bricks $22.00. Mushroom Circular Free on application.

MUSTARD

MONGOLIAN CUT LEAVED. The most decorative, productive and best flavored of all. No other sort half so good. Pkt. 10c., oz. 15c., 1 lb. 40c., lb. $1.50.

SOUTHERN GIANT CURLED. Pkt. 5c., oz. 10c., 1 lb. 30c., lb. $1.00.

PARSNIP

New White Maltese. This strain is the result of years of careful selection by a noted parsnip specialist. It embodies all the points of excellence desirable to a market gardener in smoothness, earliness, shape, true hollow crown, extra sweet rich flavor, beautiful white color, and is not too long nor too short. It does not crack open and is entirely free from all core or stringiness so common in other varieties and will usually bring from 50 to 100 per cent. higher prices. If you grow parsnips be sure and get this seed from us. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

Ideal Hollow Crown. Medium length, smooth, hollow crown, fine grained, sweet and pretty appearance. Oz. 15c., 1 lb. 40c., lb. $1.25.

SUTTON'S STUDENT, or Long Smooth. Handsome yielding. Oz. 15c., 1 lb. 50c., lb. $1.50.

OKRA

Holt's Prolific Dwarf. This is undoubtedly the best and most profitable variety for the market gardener or shipper to grow. Pods are well shaped, of proper size and entirely stringless. It is the earliest and most prolific of all. The best for light lands. Pkt. 5c., oz. 10c., 1 lb. 30c., lb. $1.00.

PERKINS' LONG PODDED. Good quality. Oz. 10c., 1 lb. 25c., lb. 75c.

DWARF PROLIFIC. 1 lb. 25c., lb. 75c.

Your Tomato seeds are the best in the world.—G. H. Kinsey, Hazlehurst, Miss.
Moore's Profit-Making Peppers

Chinese Giant

Double the size of Ruby King, and is very productive for so large a pepper, while the enormous size and magnificent appearance of the fruits make them sell most readily. The plants are vigorous in growth, but of stocky habit, seldom more than two feet in height. They are well branched and thickly set with enormous fruits of a rich glossy red color. Frequently half a dozen peppers will touch each other, as if on a single bunch. Our strain of the purée obtainable and produces uniformly beautiful, large fruits which are exceptionally mild—sweet as an apple. The strong growth of the plants enables them to mature the gigantic fruits only slightly later than our well-known Ruby King. True seed from our very best selected strain. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, 10 lb. $5.50.

New Tomato Pepper

Our illustration herewith is an excellent representation of this new red pepper. In shape and general appearance it very much resembles a tomato, so much so that nine persons out of ten, seeing it green or ripe, would at first glance say it was a tomato. Enormously productive, and can be eaten out of the hand like an apple, being mild and delicate flavor. It stays in bearing right through the season from early June until frost; and bulk for bulk will outyield even such a productive variety as Ruby King. Two to three sets taken the entire season through. If you are raising peppers for profit you should certainly include Tomato Pepper in your order. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.25, 10 lb. $4.75.

Ohio Crimson or Ruby Giant

A sweet and very early pepper of large size. Anyone wishing an exceptional early, large, sweet pepper can have one by planting Giant Crimson. It is the earliest maturing large variety on the market. The plant is vigorous and upright, growing 2½ to 3 feet high, taller than the Chinese Giant and more productive. The fruit is not quite as large as the Chinese Giant. Very sweet, with exceptionally thick heavy flesh. The color is a beautiful deep green when young, turning to a deep crimson when matured. An excellent, large mango pepper used for stuffing, equally as good for the table. An ideal home garden sort, and for market gardeners who wish a quick basket filler. Also a ready seller on the market stall. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.75, lb. $8.00.

Red Cherry Pepper

We offer the true type of this variety; the fruit is round as a ball, about one inch in diameter, intensely bright red when ripe and distinctly pungent. Very much used for seasoning and ornamenting pickled vegetables. Some pickle factories use great quantities of this handsome pepper. Pkt. 10c., 3 pkts. 25c., oz. 40c., 1 lb. $1.25.

Mammoth Golden Hercules

A giant among the pepper-fruits and the best of all yellow peppers. The fruit has solid flesh of good flavor, mild and pleasant and of a magnificent golden-yellow color. The plant grows uncommonly strong and is extremely productive. There are often at the same time twenty well-shaped fruits on one plant. Its value is increased by the upright growing of the fruits. They are consequently exposed to the sun, mature earlier, and even, during wet weather, they cannot become so easily rotten, as the kinds with hanging fruits, which come too easily in contact with the soil. May be eaten raw and are unexcelled for stuffing. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, 1 lb. $5.50.
BEST PEPPERS FOR MARKET

A GRAND PEPPER

Moore’s Mammoth Prizetaker is the large pepper on earth. Thousands of gardeners and Southern shippers have found it ahead of any other large variety they have ever tried. If you have not grown it you ought to, as you need it. Sixteen large specimens fill a half-bushel basket. We discovered it growing in a patch of Chinese Giants we were saving for seed in 1890, and at once recognized its many good qualities. We, as well as many hundreds of pepper growers who have grown it, pronounce it in every way superior to the Chinese Giant, and the most valuable acquisition to our list of peppers. It is larger, more symmetrical, earlier and a better yielder than the Chinese Giant; 241 baskets per acre was its record for 1902, 911 for 1908 and 972 for 1912. In shape it is longer from stem to blossom end than the Chinese Giant, decidedly smoother and fully 50 per cent. more productive. Never before has there been produced a pepper which gives a better representation as to shape and great productivity. The fruits of brightest scarlet, average 4 inches broad by 4 to 6 inches long. Moreover, the fruit sells better than any other large sort, which makes it extremely valuable to the market gardener. Flesh unusually thick and very mild, being entirely free from any pungent flavor. The yield is simply prodigious. We especially recommend it to all our customers who wish the largest good, sweet pepper obtainable, who grow for market or long distances. It is, therefore, highly recommended at good prices. In southern New Jersey it is frequently shipped in car lots by single growers. 

Pkt. 10c., 2 pkts. 25c., oz. 75c., 1 lb. $2.25, 10 lb. $25.00

New Cardinal Potherb Pepper This is just the right thing for bunching with potherbs, neither too long nor too small; color a rich, glossy cardinal red. Strong and pungent. It is the most productive pepper we know. Our illustration gives an excellent idea of its habit of growth. (See illustration.) Market gardeners will find this the ideal sort for potherbs. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, lb. $5.50

Moore’s Royal King Introduced by us 20 years ago. Plants grow two feet high and bear a fine crop. Has extra large scarlet fruits. The flesh is quite thick, sweet, and so mild that the peppers may be eaten from the hand like an apple. Especially fine for market use. Pkt. 10c., oz. 40c., 1 lb. $1.25, lb. $4.00.

Pedrick’s New Early Prolific Pepper The EARLIEST and Most Productive Large PEPPER in Cultivation

No grower of peppers will be disappointed in this grand new variety. Its earliness compared with any other sort is astonishing, and its yield is almost beyond description, and like, our Moore’s Mammoth Prizetaker Pepper introduced by us in 1904, it has come to stay, and will prove a source of much profit to all who plant it. It is fully three weeks earlier than the Neapolitan, and notwithstanding its earliness it will continue to yield fine large peppers, which are larger and narrower than Ruby King, up until frost. Mr. Pedrick had one plant that yielded 227 full-sized fruits during the season. To get best results the fruits should be removed from the plants as fast as fully grown. The size and yield will thus be fully maintained through the season. They carry and keep well, the flesh is thick and smooth, slightly pungent, and a glossy, brilliant red when ripe, and being first in market secures the highest price. Pkt. 10c., 3 for 25c., oz. 50c., 1 lb. $1.50, lb. $5.50

Italian Early Red This valuable new variety is the earliest type of Bull Nose in cultivation. It is valuable alike for the amateur and market gardener. In size it is about the same as the old Sweet Bell or Bull Nose. It is wonderfully productive. The plant is a perfect mass of peppers, which are of a beautiful glossy red, and a continuous yielder. It is a highly profitable sort for the market gardener, either for the home market or shipping, and either for the northern or southern grower. The early peppers are in great demand at very high prices wherever known. Flesh is extremely mild and sweet; continues to bear freely until frost, and carries well. While young the fruits are of a beautiful emerald green and carry long distances perfectly. It is one of the best peppers for you to plant if you wish to make money. Pkt. 10c., 5 pkts. 25c., oz. 40c., 1 lb. $1.50, lb. $5.00.

Perfection Pimiento (New) A remarkably thick-fleshed variety, also a remarkably good bearer. It is not uncommon for a plant to carry from 50 to 40 marketable fruits at one time. Fruits measure about 4 inches long, by 3 inches across the shoulder, and taper nicely to a blunt point. The flesh is thick, decedently mild and twice as thick as Moore’s Prizetaker, and much firmer. The very thick flesh and peculiar shape make it the best long-distance shipper ever introduced. It will keep in prime condition twice as long as any other. Perfection is really a great apple; can be stuffed with meat and baked; can be used as a salad and also canned for use at any time of year. Has thick, firm flesh which permits its being salted and peeled. Should be in every family garden in the South because it is delicious stuffed with salads. We are sure you will like it. It is the best of all varieties for canning. Every pepper grower should plant it. Pkt. 10c., 5 pkts. 25c., oz. 40c., 1 lb. $1.50, lb. $5.00.
MOORE’S FAMOUS MARKET PEAS

One of the finest-flavoured early Peas yet offered to the public.

McLean’s First of All. This delicious variety originated in England and is the earliest Pea ever produced. It is, strictly speaking, an extra early sort, and will mature ahead of the Gradus, Thomas Laxton, Morning Star, Lightning Extra Early, Royal Early or Nott’s Excelsior. It is wonderfully productive: a single plant has been known to produce 150 large-size pods. It requires no brush supports in the field, and will produce better on light land than any other early sort. The pods are large and well filled with large, beautiful dark green peas of delicious quality. It is remarkably hardy and should be the first to be planted, and you will have the first peas in market and get the largest price. Our crop this year being large, we can offer the seed to our customers at a very low price. It is remarkably uniform and quite free from sports of any kind. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 55c., pk. $1.25, bu. $12.00.

Moore’s Lightning Extra Early. The earliest and most productive of all extra early white-seeded peas. Are planted annually by over 40,000 market gardeners throughout the United States. They will be found of equal value for late summer or autumn sowing, or where a pea crop is required to come off in the shortest possible time. The entire crop can be gathered in one picking. This valuable sort is so hardy that it can be planted shortly after the frost is out of the ground. Under favorable conditions peas can be picked twenty-three days from sowing the seed. The yield of these peas is simply wonderful. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 50c., pk. $2.25, bu. $12.00.

New Pea—Prizetaker. A fine new English sort, having invariably taken all the prizes for quality and productiveness wherever exhibited: hence its name, “Prizetaker.” Plant 2½ feet high, of a branching habit, and vigorous growth; pods long, round and well filled with large peas of very sweet and luxuriant quality; pods are produced in pairs, usually from sixty to eighty fine pods to a plant. Can be planted as early as our May Queen. Maturing in about forty days. Its immense productiveness and fine quality make it an excellent sort for meal crop for the family garden and market gardener. This grand new pea is almost a continuous yields; three full crops are always yielded by it; plants frequently yield 250 pods, and we have no hesitation in pronouncing it the most prolific and finest quality pea ever introduced among second early varieties. Once planted, always planted. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 55c., pk. $2.75, pk. $5.50, bu. $12.50.

Extra Early Gradus, also called “Prosperity” Pea. Our strain will be found much superior to that usually sold by other seedmen. Matures pods only a few days later than the small-podded round-seeded extra early; grows about three feet high. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 55c., pk. $3.50, bu. $12.50.

Little Marvel. The vines average fifteen inches in height and are heavily set with fine pods. The pods average two and one-half inches in length and well filled with six to seven quite large, deep green peas. Fully as early as Little Gem, American Wonder, or Nott’s Excelsior, while the pods are larger and the vines produce a much heavier crop. All who desire a fine early crop of the choicest quality of wrinkled peas will be delighted with LITTLE MARVEL. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 55c., pk. $1.25, bu. $12.50.

Tho’s Laxtonian. This is one of the largest podded of all the early dwarf varieties and a new sort of decided merit. The peas are vigorous, growing about 24 inches high, and produce a large crop of good-sized pods, averaging from 9 to 10 peas to the pod. The peas are of exquisite flavor and mature early. The pods are dark green and produce in great abundance. Many of our customers who have tried Laxtonian consider it superior to either Gradus or Thomas Laxton, and claim it to be the best of all the early English dwarf sorts. It is a great favorite with all English market gardeners. Large pkt. 15c., 2 pkts. 25c., pt. 30c., qt. 55c., pk. $1.25, bu. $12.50.

ALASKA, Early and prolific. Qt. 45c., pk. $2.75, bu. $18.00.

SUTTON’S EXCELSIOR. Qt. 60c., pk. $3.75, bu. $11.50.

TELEPHONE. Qt. 60c., 4 qts. $2.00, pk. $8.75, bu. $44.50.

DWARF TELEPHONE. Pt. 30c., qt. 60c., pk. $2.50, bu. $12.50.

LARGE PODDED ALASKA. Pt. 30c., qt. 15c., pk. $1.25, bu. $7.50.

EARLY MORNING STAR. A very early smooth pea, and quite hardy and productive. Pt. 30c., qt. 50c., pk. $3.00, bu. $18.00.

ALDERMAN A STANDARD LARGE PODDED MAIN CROP SORT

A large main crop pea, producing in 70 days long, straight, dark green pods 5 to 6 inches long, well filled with large peas of excellent flavor. The vines grow nearly 5 feet high, vigorous and exceedingly productive. Market gardeners are demanding the large podded, dark green colored sort, which retains its appearance after a distant shipment; the Alderman answers these requirements. A popular house and market sort. Pt. 30c., qt. 55c., pk. $3.25, bu. $12.50.

We will quote special low prices to buyers of ten bushels and upwards.

READ WHAT THEY SAY:

BEEN BUYING 20 YEARS.—“I have been buying my early peas from you for the past 20 years and never missed having the earliest and best-paying crop of peas in the county. I can also say the same of your tomatoes, nothing to equal them.”—MIDLE, Delphinia, N. J.

“McLean’s First of All Pea was the earliest of all extra peas with me last year. I planted 5 varieties and it was 1 day ahead of them all. I realized $205.00 from 2 acres.”—Frank Smith, Pensauken, N. J.

“From what I have seen I think Moore’s Royal Early Pea is a wonder for sure. I shall have delicious green peas when others are thinking of it.”—Jos. Beckman, White Marsh, Pa.
SECOND EARLY-MAIN CROP PEAS

Moore's Pride of the Market

This is one of the best of narrow peas. It is a large pea of English strain, growing 18 inches to 2 feet high. It has a robust, branching habit, and requires no sticks. Wonderfully productive. The pods are large, medium, and extremely handsome in appearance, and the variety is a popular one for market, and generally good for home use. The table quality is excellent. The size, shape, and beauty of the pea, large, dark green pods are shown in the illustration, and we commend it strongly to the attention of truckers, market gardeners and large or small pea growers in general who wish to offer attractive looking products to their customers. Will please all who plant it. Pkt. 15c., Qt. 60c., pk. $1.50, bu. $12.50.

Shropshire Hero

This splendid pea fully maintains its reputation as a choice table variety. It is a novelty of unusual beauty. Elated by our sales of the seed increase year by year. The peas are not shelled, but the pod is eaten like a snap bean. The peas are excellent in flavor, brittleness and succulence are unexcelled. The vines are very tall, reaching a height of 5 or 6 feet and requiring support. The full-grown pods are 4 to 7 inches long and 1½ inches broad, and are produced continuously for a long period, having great bearing capacity on account of their height. The pods are sometimes sliced for cooking, because of their size, and may be served with butter or white sauce, or broken and boiled like string beans and served with butter sauce they make a dish of surpassing deliciousness. They may be ready for the table in 10 or 15 minutes, and are good even when quite old. Excellent also for pickles. The sweetness and tender texture of edible-podded pea insure it a permanent place in the garden. Large pkt. 15c, 2 pkts. 25c., Qt. 50c., qt. 75c., 4 qts. $2.50.

Mammoth Melting Sugar

THE PERFECT SUGAR PEA

This splendid sugar pea fully maintains its reputation as a choice table variety. It is a novelty of unusual beauty. Elated by our sales of the seed increase year by year. The peas are not shelled, but the pod is eaten like a snap bean. The peas are excellent in flavor, brittleness and succulence are unexcelled. The vines are very tall, reaching a height of 5 or 6 feet and requiring support. The full-grown pods are 4 to 7 inches long and 1½ inches broad, and are produced continuously for a long period, having great bearing capacity on account of their height. The pods are sometimes sliced for cooking, because of their size, and may be served with butter or white sauce, or broken and boiled like string beans and served with butter sauce they make a dish of surpassing deliciousness. They may be ready for the table in 10 or 15 minutes, and are good even when quite old. Excellent also for pickles. The sweetness and tender texture of edible-podded pea insure it a permanent place in the garden. Large pkt. 15c, 2 pkts. 25c., Qt. 50c., qt. 75c., 4 qts. $2.50.

Moore's Marvelous

A Remarkably Popular Second Early Pea

From 30 to 50 per cent. more prolific than American Wonder, Nott's Excelor, Little Gem, Thomas Laxton or Gradus. One of the largest podded and earliest of all wrinkled Earlys.

This is one of the best of the wrinkled peas, and is today one of the most famous. It has made an inviolable reputation within the brief time that it has been on the market; in fact, it has sprung into universal popularity. It is about as early as the smooth varieties, and far superior to them in both quality and yield. It ranks with the very earliest of the wrinkled sorts. Pods are larger than Gradus and are numerous. The pods are usually to 4 inches high, and require no sticks, and are quite distinct from all other peas in habit of growth and appearance; the vines being unusually robust and stocky. The Moore's Marvelous pea habit, is of universal attention, and has everywhere made a splendid record for the size, shape, and quantity. Its sweetness is noteworthy, and it bears with a proufession that is truly remarkable. Its dwarf habit and earliness makes it one of the most profitable market peas ever introduced, and nothing superior to it is available for the family garden. Valuable for planting between other crops. Pkt. 15c., Qt. 65c., pk. $1.40.

MOORE'S BLUE BEAUTY

A New Second Early Pea Showing Remarkable Productiveness

It will surely delight market gardeners as well as private planters. The pods are large and thin. Very productive. Queen peas, twice as productive as Gradus and earlier. The seed can be planted as early as Moore's Royal Early. Both the seed and pods are of a pleasing deep green color, remain on plant a long time after being picked. White the seed is wrinkled, the peas have a rich and distinct flavor from all other sorts. Vines are vigorous; growth, about 2½ feet high, sets pods in large quantities, and is a producible yielder. Ten years testing show it to be the heaviest yielding second early pea grown. On account of its heavy cropping qualities we are able to offer it at a remarkably low price, confident of its success. Its price is a great investment and highly recommended.

NEW EARLY PILOT

A very heavy yielding early-crop pea, new English variety, growing about 2 feet high, bearing a great profusion of large dark green pods of exquisite quality. Maturing about same time as Gradus. Pkt. 30c., qt. 55c., 4 qts. $1.75. pkt. $2.35, bu. $12.00.

PRODIGIOUS OR PRINCE EDWARD

The Giant of the Pea Family

It is called Prodigious on account of its enormous size of 6 inches or more, and is considered one of the most profitable varieties for the trucker, and as soon as its merits become more largely known, it will create a tremendous demand for it from market gardeners all over the country. Everyone will be glad to get enough of this valuable sort for our customers.

There are few varieties of seed in this catalog that are better named than this one. Nothing more nearly expresses its one remarkable characteristic than its name Prodigious. When you consider that this variety will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with 11 to 12 large, dark green peas of finest flavor, the reader of this book must admit it is well named. For exhibition purposes it is simply unsurpassed. Exhibited at all the large shows in England, it won first prize, and it will create just as much excitement in America as it has there. The plant is of branching habit, growing about 6 feet in height, with dark green foliage. It is very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, most pods, Prodigious cannot be excelled as an exhibition sort, on account of its striking and very attractive appearance; and will also be in demand wherever there is a call for a pea of robust habit, fine quality and hardy constitution. Gardeners who do not know Prodigious should give it a trial. There are thousands of our customers who will be delighted to show their friends such enormous pods of peas, the largest, by far, they have ever seen, which in addition to their large size combine rich and succulent flavor. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 60c., 4 qts. $2.00, pkt. $3.25, bu. $15.90.
MOORE'S HOME GARDEN PEAS. If you want a long podded, extremely early, wrinkled dwarf pea, of the finest quality and productive habit, it is literally identical with Moore's new Home Garden pea. Of large, luscious peas, something growing less than the usual 2 feet tall, that covers itself with large pods of deliciously rich and tenderly flavored peas, then try Moore's New Home Garden, the prince of all early dwarf peas. This is a grand new blue dwarf wrinkled pea. It literally fills itself with large pods, ripening evenly and of excellent flavor. It is very early, topping in 48 days, 4,000 bushels.—Now that's a great many, but our market gardeners and private planters require more than that of Moore's New Home Garden Pea seed every year. They say there is no other pea just like it, hence its great demand. It's early, too, and of delicious quality. The distinct merits of this pea over our native varieties are its enormous earliness, combined with its abundant production of fine peas of delicious flavor. Its strong points are its delicious richness of flavor, its extreme earliness, its dwarf habit, needing no brushing, and its large-sized pod. One of its distinctive features is its unusually rapid habit of growth. It is of uniform size, so smooth and level in its growth that a row resembles a well-kept hedge. It is a magnificent variety for market gardeners to grow, as the pods are large, it fills up a bushel quickly and brings a very fine price in the market. Large pkt. 15c., 2 pkts. 25c., pt. 50c., qt. 60c., 4 qts. $2.00, pk. $3.75, bu. $14.00.

MOORE'S ROYAL EARLY

This popular new large-podded early pea of finest quality matures pods only two or thrje-three days later than the small-podded extra-early; will produce 25 per cent. larger crop, much better in flavor, and will be a pleasing revelation to all who plant it. It is the result of much careful expert work, of selection and reselection, grows about thirty inches high. It produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large, handsome, beautiful green peas of fine flavor. The peas remain tender and sweet for some time after they are large enough to eat. The illustration herewith was engraved from a photograph, being exactly natural size. It is wonderfully prolific. No pea grower for home garden or market should be without it. It is a money maker for all who plant it for early, second early, or fall crop. Large pkt. 15c., 2 pkts. 25c., pt. 55c., qt. 60c., 1 lb. $2.00, pk. $3.75, bu. $12.50.

MOORE'S NEW PEAS, MAY QUEEN

It is the most delicious dwarf English pea in the world for the cottage garden and unsurpassed as a fine market sort. This grand new English dwarf wrinkled pea is one of the very best peas we have ever grown. It is extremely early, growing 18 inches, and literally fills itself with large pods, all ripening evenly and of excellent flavor. It is very early, earlier than American Wonder—testing in forty-six days. When one looks for dwarf pea, this dwarf sort will be grown. No words of praise are too extravagant for this wonderful dwarf pea novelty. It is grand beyond description, of delicious flavor and heavy cropper. Its strong points are its delicious richness of flavor and dwarf habits. It is very hardy and flourishes everywhere. It is also a profitable variety for market gardeners, as the pods are large, it fills up a bushel quickly, and brings the highest price everywhere. Pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 60c., 4 qts. $2.00, pk. $3.75, bu. $13.00.

SUTTON'S PERFECTION

Of same season as Moore's Daisy, the pods are much larger and the vines which grow 30 feet long. The handsome, large, round pods are well filled with peas, seven to twelve to the pod; quality excellent, sweet and tender, even when the peas are large. Vines grow two feet high and carry a large crop. We are sure that all who try it will be delighted with both quantity and quality of the crop! Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 60c., 4 qts. $1.90, pk. $4.00, bu. $15.00.
We grow the Largest Assortment of DELICIOUS PEAS of any Seedsmen in America. You will get the World’s Best if you buy from us.

Moore’s Bountiful Big Pod Pea

This is a grand new acquisition among second early Peas. It gives us great pleasure to introduce this new English Big Podded Pea to our many customers. The illustration herewith shows the marvelous productiveness of this wonderful new variety. The vines are of strong growth, three feet high, and are of a remarkably branching habit. It is continuous and everlasting yielding; in this respect it closely resembles our famous Prize-taker. The magnificent large green pods often contain as many as twelve peas, which are of a most pleasing quality and possessing a delicate aroma, to highly appreciated by all epicures and admirers of this, the “Queen of Vegetables.” Our Bountiful Pea is far superior to any of its class, and is destined to occupy the front rank with all who want excellence in flavor, large pods, and maximum of yield. Very hard. Pt. 30c., qt. 60c., pk. $1.75, bu. $4.00.

A GREAT SUCCESS

Your new May Queen is a great success for quality and yield; in fact all your seeds do remarkably well with me.

PEDER PEDERSON,
Gardener to Capt. H. C. Flemming,
Somers Point.

MOORE’S DAISY

This is truly a gem for the family garden; unsurpassed for quality or productiveness, ten to twelve inches high, the earliest wrinkled sort known. The vine is literally covered with extra fine plump pods, containing from seven to nine green peas of superior flavor. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 60c., pk. $1.00, bu. $2.50.

IMPROVED STRATAGEM. The pods are long, broad and exceedingly fine quality, true stock, 2½ feet. Qt. 60c.; pt. 80c., pk. $1.25, bu. $4.00.

NEW GIANT PODDED MARROW. About two feet high, and bears handsome pods, filled with large, deep, green peas. Pt. 35c., qt. 60c.; pt. 80c., pk. $1.25, bu. $4.00.

NEW EARLY SUGAR MARROWFAT PEAS.

MOORE’S FILLBASKET

Introduced by us in 1888, this grand new Pea has been very much admired. The illustration herewith shows a pod engraved, exactly natural size. The vines are of strong, sturdy growth, 3½ to 5 feet high, and of a decidedly branching character and bear an enormous crop of magnificent large dark-green round pods, each containing eight to twelve peas, of remarkable size and very rich and savory flavor. It has been appropriately termed the “Fillbasket,” on account of the extraordinary quantity of large pods that it produces. We have had many letters of praise of its great productiveness, the extra large size of the pods, and the delicious quality of the peas. It is unquestionably the very best large podded Pea ever introduced. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 60c., pk. $1.00, pt. $2.50, bu. $5.50, bu. $13.50.

NOTT’S EXCELSIOR. An extra early, dwarf, wrinkled pod. Pods one-third longer than American Wonder. Pt. 15c., qt. 25c., pt. 40c., qt. 60c., pk. $1.50, bu. $4.50.

Large buyers of Peas will please write us for special prices, stating quantity wanted.

New Early Sugar Marrowfat Pea

In our annual trials of peas, numbering many hundreds of rows, this variety was conspicuous among them all for its astonishing profusion of pods, which are large and handsome and bountifully filled with dark green tender peas of the true delicious marrowfat flavor. In England, where we obtained our stock seed, it is extensively grown by the nobility, who prize the Sugar Marrowfat above all others of its class. It is the earliest of all marrowfats and will satisfy the most exacting who strive for the best quality. We recommend it to all who plant for home use or market; one of our best introductions. Height, two feet. Maturing about one week after our Lightning Extra Early. Large pkt. 15c., 2 pkts. 25c., pt. 35c., qt. 55c., 4 qts. $2.00, pk. $3.75, bu. $13.50.

YOUR NEW EARLY SUGAR MARROWFAT PEAS IS A REAL Dainty. Its delicious quality is a revelation to all who eat it.

JAMES SYLVESTER WORTHINGTON
Chestnut Hill, Pa.
**Potatoes**

Grown for seed in the far North. 10 to 12 bushels to the acre. 1 peck will plant about 250 hills. Michigan Grown Seed Potatoes.

Our seed potatoes have been carefully grown, especially for seed, on light, sandy loam, entirely free from all disease, in the extreme north of the State of Michigan, and will give the best possible results to all who plant them.

**Advantages of Changing Seed Potatoes...**

There is no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as the potato. They seem to take on new life and prosper wonderfully, provided the change is to well-selected stock, and the further north it is grown, the better. Our best customers will not plant their own raising of seed at all, but buy it every year. They can grow nearly double the crop on the same land that they can from their own raising, and the tubers are smoother, handsomer and of better quality and more salable in the markets. A good change of seed always pays. The yield is frequently doubled thereby.

**Fillbasket Extra Early**

Originated by crossing our famous Snowball and Quick Crop, The Fillbasket Potato soon proved itself to be a very popular and profitable sort for home use and shipping and has forced its way among our largest planters. Those who grow it for market find it to be twice as profitable as Early Rose, Hebron, Triumph or Early Ohio. It always commands a higher price than other sorts and besides it is an enormous cropper, as our photo illustration shows. It is, as its name would suggest, a remarkably quick grower, of the most approved shape—viz., a very smooth, full tuber, with no slim points nor projections to waste in preparing for the table, or waste in handling. Sufficiently elongated to make a good baker, it is not too much so to serve well boiled. It is an ideal general purpose potato. In color, it somewhat resembles the Prince Edward Island Rose. When cooked, the flesh is pure white, dry and flaky. ½ pk. 75c., pk. $1.25, ½ bu. $2.25, bu. $4.00, bbl. $9.00.

**Size of Seed Potato Pieces**

This is a subject that deserves considerable attention from potato growers. In general the results of experiments indicate that an increased production is secured by increasing the size of the seed pieces. As a general average of the tests made, the resulting yields were as follows:

<table>
<thead>
<tr>
<th>Size of Seed Pieces</th>
<th>Bu. per acre</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small seed pieces</td>
<td>174.0</td>
</tr>
<tr>
<td>Medium sized seed pieces</td>
<td>271.7</td>
</tr>
<tr>
<td>Large seed pieces</td>
<td>295.3</td>
</tr>
</tbody>
</table>

Thus the large seed pieces produced 73.0 per cent. greater crop than the small pieces and the medium-sized pieces out-yielded the small ones by 35 per cent.

**Quick Crop**

Very Profitable for Early Market.

It is several days ahead of the Early Rose, and is a special favorite with farmers and marketmen. Maturing early, brings highest prices, and the land can be used for other crops; does well on any soil suitable for potatoes. The tubers grow compact in the hill, are easily dug, very few small ones—nearly every one marketable size; few eyes which are even with the surface. Skin a delicate pink color. They keep firm until late in the spring. Many of our Southern growers plant this variety almost exclusively for early shipment North. With heavy manuring, close planting and good culture, a very large and profitable yield can be expected: 300 to 500 bushels per acre is not an unusual yield. Pk. $1.25, bu. $4.00, bbl. $9.00.

**Sutton's Early Monarch (New)**

Under ordinary cultivation, this variety has by actual test produced 46 bushels per acre.

This new early potato is now attracting wide attention. Its points of excellence, as claimed, are its earliness, wonderful productivity, vigor of growth, quality, smoothness and handsome shape and appearance. It receives its name from its originator, Mr. Sutton, a noted potato hybridizer. It is a pink or flesh colored potato of the shape indicated by the illustration. The shape is very uniform. It matures from early to second early, and in table quality is white, dry and mealy. It is as perfect in shape as the Snowball, and probably about one week later. The introducer says that the Early Monarch takes a leading place among the heavy cropping varieties, an unusual thing among first earlies.

Our own observations on Early Monarch are favorable, and we do not hesitate to commend it highly. As a variety for planting for second early or late crop, it is without an equal. The tops are comparatively short and stocky, and the tubers are all bunched together in the hill, and are of good size and quality. ½ pk. 75c., pk. $1.25, ½ bu. $2.25, bu. $4.00, bbl. $9.00.
Moore’s Early Snowball Potato

THIS AND MOORE’S FULLBASKET ARE THE TWO EARLIEST POTATOES IN CULTIVATION

They are fully a week in advance of any other kind in earliness and are the heaviest croppers.

Moore’s Snowball can always be marketed at least ten days before the top dies, as the new potatoes commence to grow before the tops are six inches high. Another great merit lies in its great keeping properties, remaining solidly fresh until the new crop is dug, and will often remain in the cellar without sprouting until June 1st. Hills of “new potatoes” of a fit size for table use can be dug in six weeks from the time of planting if weather for growing has been favorable, and the tops thoroughly ripened in from eight to nine weeks, with crop fully matured. Moore’s Early Snowball was produced from a seed ball taken from a vine of the Snowflake, growing between Early Rose and Early Ohio. Tubers are oblong, skin a beautiful pink color, flesh white; upright, strong vines, with tubers growing compactly in the hill. We have never tested a kind which possessed the desirable points of an extra early, large yielding, high quality potato like the Moore’s Early Snowball. Our grower informed us early last season, when all early crops were but half grown, that Moore’s Early Snowball and Fullbasket had set much more and that the tubers were double the size of any extra early varieties he had planted, and adds, “We should save seed for a larger planting next year.”

1 lb. 35c., 3 lbs. $1.00, by mail postpaid; ½ pk. 75c., pk. $1.25, ½ bu. $2.25, bu. $4.00, bbl. $9.00.

Moore’s New Early Bonanza Potato

The great drought resister. We mean just what we say about it being a great drought resister. It stands hot, dry weather better than any other sort. We have seen Early Rose, Hebrons, Irish Cobbler, Green Mountains, Ohio’s, etc., cease growth entirely and fail to produce even 10 per cent. of a crop in dry seasons, while Moore’s Early Bonanza vines stood up green and vigorous and produced a tremendous crop of beautiful potatoes. Thousands of market gardeners will bear us out in this statement. In growth the vine is dense and robust, but compact. This is favorable to close planting. It is also a magnificent main crop potato. There are many people who plant but one variety. To such we would not hesitate to recommend Moore’s Early Bonanza, on account of its being a splendid potato when early, a splendid potato when used in the summer or fall or winter. It is a perfect keeper—none better. There are rarely any small potatoes in a hill. Many of our customers say it is the way ahead of any other sort as an all round potato for early or late. It seems to be disease proof; neither scab nor blight has attacked it. A good thing, did you say? We should say so, my friend. It is here to stay, and we believe you are like us, in that you know a good thing when you see it and that you will plant it, and plant lots of it, too. Just one more word— you. It will pay you big to plant it, be it a rock or a hundred bushels.
**It Pays to Plant Good Northern Grown Carefully Selected Seed Potatoes**

New Early Harvest Potato

This exceedingly promising new potato was sent out for trial to some of our customers, under the name No. 97. The reports received were very flattering. The name, Early Harvest, is bestowed in honor of its originator, Clyde Somerst, a leading potato specialist of New York State. It is handsome, medium early, highly prolific and very desirable in every respect. In character, it is somewhat on the order of the Beauty of Hebron, but is the same shape as the Quick Crop. The vines are bountiful of fresh vitality and we recommend Early Harvest as a money maker. 1 pkg. 75c., pk. $1.25, bu. $3.75, bbl. $8.75.

Some of the blood of the M. & S. Early Snowball flows in its veins. The vines are bountiful of fresh vitality and we recommend Early Harvest as a money maker. 1 pkg. 75c., pk. $1.25, bu. $3.75, bbl. $8.75.

---

**Date of Potato Shipments**

Potatoes will be shipped at any date ordered during the winter, but at your own risk. Where no special instructions are given to the contrary, we will hold same until our judgment there is no danger from freezing, then ship promptly.

**Vermont Gold Coin**

The vines are strong, with exceptionally deep green foliage, making a robust healthy growth, where other sorts are cut down by blight. It will bring a higher price than any other sort. Flesh fine-grained, and of a pearly whiteness, and cooks dry and buoyant. Even when freshly dug it cooks dry and mealy. It has produced at the rate of 600 bushels per acre, which makes it a very profitable variety for the planter. 1 pkg. 75c., pk. $1.25, bbl. $3.75, bbl. $8.75.

**Royal Golden Russet**

Our customers write us that it is blight and scab proof. It has a vigorous constitution and has repeatedly proved itself of satisfying the most exacting requirements as to climate and soil. It has behind it a history of big crops and a wide reputation for dependability. It is uniformly uniform in size and in period of ripening. It is unexcelled for table quality, the flesh being mealy, floury and delightful in flavor. A high quality potato for high-class trade.

For market purposes its golden russet skin, brings fancy prices everywhere. As a shipper and long keeper, it is a superior type. Don’t fail to include this superior variety when making up your potato orders. As the russets have few eyes plenty of seed should be used. Yields of from 300 to 400 bushels per acre are not uncommon. A medium late variety, but adapted for both early and late planting. Price 1 pkg. 75c., pk. $1.25, bbl. $2.00, bbl. $3.50, bbl. $8.00.

**Great American Giant Potato**

A long late variety, giving extraordinary yields on either light or heavy soils, probably the greatest yielder of all varieties on sandy loams. It is a money maker, and the handsomest long white potato grown today. The potatoes are long, smooth, uniform and have few eyes. It is a good keeper, an excellent shipper and will outyield the Irish Cobbler Green Mountain two to one on all soils. It is a great favorite in the New York and Boston markets. High grade seed only. Price 1 pkg. 75c., pk. $1.25, bbl. $2.00, bbl. $3.75, bbl. $8.75.

**Red Sweet Potato**

An excellent short or chunky variety with pretty red skins and deep yellow flesh sweet and mealy. Very productive and a good keeper. Generally regarded as the best eating sort of all. Plants ready after May 1st, $1.00 per 100, by mail, postpaid, by express. 75c. per 100, $1.50 per 1000. Extra EARLY CAROLINA JERSEY “UP-RIVERS.” Each, per pkg. $1.25, bbl. $4.00, bbl. $8.00.

Plants of the above ready after May 1st. 75c. per 100, by mail, postpaid; by express $1.50 per 100, $4.50 per 1000. Extra Golden Sweet. It is better adapted for cultivation in the northern States than any other variety. Price, per pkg. 75c., bbl. $1.50, bbl. $3.00. Price per 100 ready after May 1st. 75c. per 100, by mail, postpaid; 75c. per 1000, $5.00 per 1000, by express.

**Knisel’s Red Queen Sweet Potato**

A marvel in vigor, health and freedom from disease.

---

**New Jersey Seed Sweet Potatoes**

New Jersey grown Sweet potatoes are everywhere acknowledged to be the best in quality, being much dryer and sweeter than those grown in the South and West, while their keeping and shipping qualities are always good and will always bring the highest market price. We make a specialty of seed sweet potatoes, growing our stock exclusively in New Jersey. We pack for shipment in boxes and barrels, with greatest care; but wish it distinctly understood that customers taking orders after we deliver in good condition to the express or railroad company here. We do not ship until about planting time unless specially ordered to do so. 500 plants furnished at 1.00 rate.

**EXTRA EARLY CAROLINA JERSEY “UP-RIVERS.” Each, per pkg. $1.25, bbl. $4.00, bbl. $8.00.**

Plants of the above ready after May 1st. 75c. per 100, by mail, postpaid; by express. 75c. per 100, $4.50 per 1000. Extra Golden Sweet. It is better adapted for cultivation in the northern States than any other variety. Price, per pkg. 75c., bbl. $1.50, bbl. $3.00. Price per 100 ready after May 1st. 75c. per 100, by mail, postpaid; 75c. per 1000, $5.00 per 1000, by express.

**Knisel’s Red Queen**

An excellent short or chunky variety with pretty red skins and deep yellow flesh sweet and mealy. Very productive and a good keeper. Generally regarded as the best eating sort of all. Plants ready after May 1st. $1.00 per 100, by mail, postpaid, by express. 75c. per 100, $1.50 per 1000. Extra Golden Sweet. It is better adapted for cultivation in the northern States than any other variety. Price, per pkg. 75c., bbl. $1.50, bbl. $3.00. Price per 100 ready after May 1st. 75c. per 100, by mail, postpaid; 75c. per 1000, $5.00 per 1000, by express.

**Save Your Potato Crop, Increase the Yield from 30 to 40%**

Every potato grower should care to test his potato seed before planting for the purpose of eradicating Potato Scab, Potato Wart and Potato Black Leg by the use of our Standard Formaldehyde Disinfectant.

Careful experiments show clearly that seed treated with the above will increase the yield of potatoes, as well as prevent damage to 40 per cent. over that not treated. Treatment is very simple and inexpensive. Immerse the seed two hours before cutting, using one pint of our Standard Formaldehyde Disinfectant to 30 gallons of water. Seed should then be removed and dried in a moderate light, and the solution can be used over again. The price of Standard Formaldehyde Potato Disinfectant, pt. 50c., 5-pint. bot. $2.50, 10-pint. bot. $4.75. Not available.
Pumpkins are now largely cultivated for market purposes, and are found to be very profitable. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields by themselves. They also make very profitable and healthy food for stock. We herewith illustrate some of the best market varieties.

**Large Cheese.** Of fine grain and excellent flavor. Pkt. 5c., oz. 10c., lb. 30c., lb. $1.00.

**Tennessee Sweet Potato.** Of medium size, bear shaped, color creamy white, tightly striped with green; flesh thick, creamy white, fine grained, dry, little and of excellent flavor. When cooked it has somewhat the appearance of sweet potatoes, but of more delicious taste. Pkt. 20c., lb. $1.00.

**Cashew.** Long yellow crookneck. Good keeper. Pkt. 10c., oz. 15c., lb. 40c., lb. $1.50.

**New Jersey Sweet Potato.** Very showy and attractive. Flesh is a rich yellow color, solid, fine grained, very thick, sweet and excellent for pies and baking. Cooks dry. Very hardy and productive. Extra good keeper. Very popular market sort. Bugs seldom bother it. Pkt. 10c., oz. 20c., lb. 50c., lb. $1.75.

**Genuine Mammoth, or True Chilian.** (Also called KING OF THE MAMMOTH.) It grows to an enormous size, three feet or more in diameter and one hundred to two hundred pounds or more in weight. Skin deep yellow; flesh very thick. Pkt. 10c., oz. 25c., lb. 50c., lb. $2.00.

**Winter Luxury Pumpkin.** Few, if any, pumpkins can equal the Winter Luxury for cooking—in fact, one of our growers who knows all varieties is emphatic in stating that "it is the best pumpkin grown for pies." The flesh is very thick, sweet and fine flavored, making the most delicious pies. Color a golden russet finely mottled. Flesh deep golden, sweet and tender. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.25.

**Japanese Pie Pumpkin.** The seed cavity is extremely small. The seeds are curiously sculptured in the manner of Chinese letters. It is a very productive variety, ripens early or medium early, keeps good, and weighs fifteen to twenty pounds. The flesh is a rich salmon color, unusually fine grained, and when cooked or stewed is almost as dry and mealy as a sweet potato. Pkt. 10c., oz. 20c., lb. 50c., lb. $1.75.

**Mammoth Golden Cashaw.** (New.) The flesh is a rich yellow color, solid, fine grained, very thick, sweet and excellent for pies, and equally good for baking. They are very hardy; bugs seldom bother them. Can be grown among the corn, and yield a much heavier crop than most other sorts. Pkt. 10c., oz. 20c., lb. 45c., lb. $1.50.

**Large Connecticut Yellow Field.** Easily grown alone or in the corn. Oz. 10c., lb. 30c., lb. 75c.

**New Boston Golden Sugar.** One of the best yellow pie pumpkins. They are round in shape and very slightly ribbed. The skin is of a rich golden-orange color, very beautiful. Flesh of extra fine flavor, cool, soft and tender. Much better producer. Just the right size to see in baskets. Makes excellent pies. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

**Mammoth Etampes Bright Red.** This giant variety also from France is quite celebrated and has been grown in this country to an enormous size. It is a bright, glossy red color. A splendid variety to grow for exhibition purposes. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

**Yankee Cow Pumpkin.** This valuable pumpkin will be found a great boon to farmers with dairies, large or small. It greatly increases the flow of milk, besides imparting that rich yellow color, and really adds to the flavor and color of the butter of all cows fed upon it. Twelve tons to the acre is not unusual yield. If laid be manured liberally a full crop can be grown among corn. Oz. 10c., lb. 30c., lb. $1.00.

**Thanksgiving Pie Pumpkin.** On account of the extra thickness the yield in pounds is double that of other kinds. The flesh is orange in color, fine grained, sweet and has the delicious pumpkin flavor essential to the making of first-class pumpkin pie. The name "Thanksgiving" was suggested by the almost universal custom of serving pumpkin pie at the Thanksgiving dinner. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

**New Persian Golden Giant.** Produces truly gigan tic globe-shaped fruits. The skin is of a beautiful rich salmon color, while the fine grained flesh is highly colored of a deep yellow, sweet flavored and very thick. The pumpkins attain an enormous size and will attract great attention when placed on exhibition. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.
**Radish**

**Early Giant White Turnip Radish**

The largest and the latest of the white turnip radishes. The roots grow to an immense size, often attaining in diameter 2 inches. The skin is white, the flesh white, pungent and crisp and of good flavor and keeps in good condition for a long time. A good market variety and suitable for winter sowing like carrots or turnips. Pkt. 10c., oz. 15c., 1 lb. 40c., lb. $1.50.

*Fred. Simon's Solid Ivory*

This is pronounced by many customerm. It is the only perfect round white grown. It is entirely distinct from any other white turnip variety. It is easily handled, short and rapid growth. Its globe turnip shape, short and very small.

*Moore's Scarlet Gem*

This variety is indeed a perfect gem. It is a pleasure to see it and all who eat it. Very short top, very early and suitable for growing under bush or open ground; color a beautiful scarlet; flesh white, crisp and of good flavor. It will mature; radishes in 3 weeks, which never become pithy, and we highly recommend it to all radish growers. Don't fail to include it in your order. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

**White English Summer**

A very desirable radish for summer use, remaining solid and crisp after spring sorts are over. Top of medium length. Much used in England. Very crisp and sweet. It is well adapted for sowing at any season of the year. It is a quick grower, has a small top; can be planted closer than most white summer sorts—and it finds ready sale. Pkt. 5c., oz. 15c., 1 lb. 10c., lb. $1.25, 5 lbs. $5.25.

*Moore's New Red Strawberry*

It is unquestionably the handsomest small red radish ever produced. The flesh is pearly white, which forms a strikingly beautiful contrast with the glowing crimson color of its skin and beautiful delicate green color of its small, short leaves. It is the earliest, handsomest, finest, juiciest, tenderest, sweetest and smallest radish ever grown. It is equally valuable for market gardeners or home use, either for forcing under glass or open ground culture. Will mature in 28 days. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

**Long Russian Radish**

Skin grayish white, 2 to 3 inches long, spindle shaped, flesh white, pungent and compact. Keeps well. The culture, handling and use of this variety are the same as for Black Spanish or China Rose. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

**New Pink Lady Finger**

They grow perfectly straight and smooth, and from four to six inches in length. Their attractive rosy pink colored skin is very thin, and the flesh crisp and brittle, and of delightfully mild pungent flavor; it has a clean, crisp, transparent appearance, top short, stands a long time before going to seed. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

**New White Icicle**

The flavor of this new variety is very mild, and it is invaluable for slicing. The top is quite short, flesh very crisp, tender, juicy and is very attractive when washed. It matures in about thirty-seven days from the time of sowing the seed and remains in prime condition for eating for fully two weeks. For the collage, garden or market purposes we consider it a great addition. Pkt. 10c., oz. 15c., 1 lb. 40c., lb. $1.25.

**Early Scarlet Globe**

It is grown very largely to supply the enormous demand in Philadelphia, New York, Boston and other markets where its brilliant color and attractive shape have secured for it a prominent place. Our strain of this important variety looks better in the bunch and holds the color longer than any other. Our stock is not equalled specially for the most critical trade, some growers buying as much as 500 pounds annually for forcing purposes. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

**Bright Red Forcing Turnip Radish**

This is unquestionably one of the best red forcing varieties for growing in cold frames and not beds; also very desirable for outdoor planting. It is a brilliant scarlet color, with very short and small leaves, tender, crisp, and in quality all that could be desired. Will mature in twenty-eight days, and can be grown very thickly in the row; unlike other sorts it sells well throughout the season. It does not become spongy nor pibby quickly. You will be pleased with it. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

**Chinese Celestial Winter**

Seed from Tonkin, China. The finest and the largest of the White Chinese Radishes. The roots grow to a very large size, averaging about 15 to 18 inches in length and have a diameter of 5 inches. They grow mostly above the ground. The skin is pure white and the flesh always crisp, mild and juicy. It is a profitable radish to grow as it sells readily and is relished by all. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.
NEW CALIFORNIA CHERRY RADISH

This strikingly beautiful variety is from California, where it is known as the "Cherry Radish." It is an excellent sort to follow our delicious strawberry radish, and it causes no delight in every garden. We are so fortunate to plant it, and hope every one of our customers will decide. This delicious radish is excellent for all purposes, on account of its earliness, crispness, and great beauty. It makes a fine garnish for any table. It sells readily and quickly at good prices in any market and makes an exquisite sort for the family garden. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.25.

MOORE'S NEW SCARLET BALL. This is a very distinct and highly desirable new radish of our own introduction and one which we recommend to every grower of radishes. Shape perfect, very small, very tender, and tender, and will stand long before going to seed than any other white sort; equally desirable for the home garden, and as a market sort it will be found invaluable. Pkt. 5c., oz. 20c., 1 lb. 50c., lb. $1.00.

FELTON'S SELECTED WHITE BOX. Very small tap, early, solid, good shape; fine for sash or open ground. Felton's own stock. Pkt. 5c., oz. 10c., 1 lb. 30c., lb. $1.00.

IMPROVED WHITE STRASBURG. Our stock is much superior to that ordinarily sold. Pkt. 10c., oz. 15c., 1 lb. 40c., lb. $1.50.

RED CHARTIER or SHEPHERD. Pkt. 10c., oz. 10c., 1 lb. 30c., lb. $1.00.

CRIMSON GIANT. Extra fine stock. Oz. 20c., 1 lb. 50c., lb. $1.50.

SCARLET TURNIP WHITE TIPPED. Pkt. 5c., oz. 15c., 1 lb. 45c., lb. $1.00.

FRENCH BREAKFAST. True, imported. Pkt. 5c., oz. 15c., 1 lb. 35c., lb. $1.25.

PERFECTION CHINA ROSE WINTER. Extra fine quality. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

WHITE CHINA. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.25.

PARISIAN BLACK SPANISH. Fine. Very black skin; pure white flesh without core. Early, good keeper. No market gardener should plant any other. Positively the best type for market. Pkt. 10c., oz. 15c., 1 lb. 40c., lb. $1.50.

ROUND BLACK SPANISH. Very choice. Home grown. Pkt. 5c., oz. 15c., 1 lb. 45c., lb. $1.25.

WHITE SWAN'S EGG. This is a wonderfully good sort for late summer and autumn and winter use, and it gives us pleasure to recommend it to all our customers. Seed should not be sown before July as it has the sweetest of all radishes. We, however, particularly recommend it as the best of all white winter radishes from seed sown early in August. The skin and flesh are both snow-white, crisp, brittle, and of best quality. It is very tender, and if eaten a few weeks after it is ready for marketing they remain in edible condition fully three weeks. Top short, fleshy, mild and crisp; exceedingly well adapted for successive sowing in the open ground. Pleases everybody. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

NEW SWEDISH BUTTER RADISH. Every one having one or more milks cows should plant this valuable radish. We know of no root crop that will insate as good health or prevent disease in milk cows like this. It is a great milk and butter producer; both the tops and roots are greedily eaten. Flesh white and compact. Acts as a fine stimulant and causes perfect digestion, thus increasing the yield and quality of the milk. The roots attain a length of 15 inches by 6 inches in diameter. The yield per acre is double that of rutabagas or turnips. Can be stored like mangel beets or turnips during winter. Sow 3 to 4 pounds per acre in rows 2 feet apart, from July 15th to August 1st. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.
**Rhubarb or Pie Plant**

**Giant Extra Early Paragon.** In growth it resembles the Victoria, and is quite as large and productive as that well-known variety, but the Rhubarb is more upright in habit, and in the open ground comes earlier into use. Another and still more important merit is the beautiful color - a rich, bright red, and this characteristic remains after cooking, even when the roots have been forced in absolute darkness. The sticks are large and exceedingly tender, and have a delicious flavor. Altogether this fine variety possesses a combination of qualities which will make it a necessity with every progressive market gardener. Just as desirable for the family garden. It is an enormous yielder and sells at “top-notch” prices. One of our customers took $125.00 from one acre of this sort.

**Extra strong roots 15c., 2 for 25c., doz. $1.25. 100 lb., $8.00. Add 5c. per 100.** Add 5c. each if to go by mail.

**MYATT’S VICTORIA.** A very large, thick, red-stalked late variety of fine quality. Pkt. 10c., oz. 25c., 1 lb. 60c., 10 lb. $1.50.

Large roots of Victoria. Doz. $1.00, 100 $6.50, per 1000 $25.00. Seedings, 100 $5.00, 1,000 $45.00. Add 5c. each if to go by mail.

Rhubarb Roots are a great specialty with us and we can readily supply 100 or 10,000. Write us for prices, stating quantity wanted.

**True Essex Rape**

**True Dwarf Essex Rape**

Valuable for Cattle, Sheep and Hogs

This is a highly valuable forage and should be fed by all who grow any kind of live stock for food purposes. Under favorable conditions it is ready for pasturing sheep or cattle within six weeks from time of sowing, and on an average 1 acre will carry twelve to fifteen sheep or hogs six weeks to two months. When on the rape they should at times have access to salt, but water is not necessary. In the Northern States it should be sown from April to end of August for fall pasturing, but as it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pastures. In the latitude of Philadelphia it should be sown in April, or in July or August. Its fattening properties are probably twice as good as those of clover, and for sheep the feeding value of rape excels all other plants we have tried. At the Michigan Experiment Station, 128 lambs were pastured for eight weeks on 15 acres of rape, sown in July, and showed a gain of 2,800 lbs., at the rate of 3 lbs. per sheep each week. The growth is enormous and makes excellent cattle food for all kinds of poultry. To secure the best results the rape should be sown in drills, 4 lbs. per acre broadcast, or 2 to 3 lbs. per acre in drills. 1 lb. by mail, postpaid, 35c., pkt. 10c., oz. 25c., 1 lb. 60c., 10 lbs. $2.00, 50 lbs. $7.50.

**Salsify**

**Moore’s Giant White Russian**

This is the largest, smoothest and most profitable in cultivation. It is pure white in color, three times larger than the ordinary Salsify, of very superior quality, and the leaves and flesh very fine grained, tender and of more pronounced and agreeable oyster-like flavor. Invaluable to market gardeners. The tops remain in good condition until late in the following spring. The seed should not be sown as early as other varieties. This variety was sent to us by the American Consul at St. Petersburg, Russia, where it is grown on all other sorts.

**Improved Mammoth Sandwich Island.** Our improved strain is remarkably fine and superior to any other strain. Pkt. 10c., oz. 25c., lb. 75c., lb. 2.50.

**Spinach**

**New Amsterdam Prolific Long Standing.** The most abundant cropper: the longest lasting: the finest quality, without a doubt of all other long-standing sorts; the best spinach in the world today for the amateur or market gardener. This variety is distinguished for its exceedingly dark-green colored, early leaves, of robust growth, and for its remarkably long standing qualities, remaining two to three weeks later than all other long-standing sorts. It is very hardy and will withstand the severest winter, of rapid growth and is adapted to snow and cold. The market demand for this variety is unprecedented. 1 lb., 50c., 8 oz., $1.00, 4 oz., $1.50.

**American Round Seeded Savoy or Blonddale.** Oz. 10c., 1 lb. 25c., lb. 75c., 2 lbs. $2.75, 10 lbs. $8.00.

**New Hardy Winter.** The best for all fall sowing as well as early spring; of a handsome dark green color, producing more and larger beautiful curled thick leaves than any other. Will yield double the bulk and remain firm and delicious long after other sorts. The best and most profitable curled variety to grow. Oz. 15c., 1 lb. 90c., lb. 5.00, 10 lbs. $15.00.

**Victoria Long Standing.** English grown. 1 lb. 35c., 8 oz. 85c., 5 lbs. $3.25.

**New Zealand Spinach.** The most delicious Spinach during the hot months of the year, or in dry arid localities where the ordinary Spinach will not grow. Imported seed only. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. 1.50.

**Paris Market or Perpetual.** A most excellent variety for early spring, summer and autumn sowing; very tender and productive; excellent for private gardens; does not run to seed and very hardy. Oz. 15c., 1 lb. 35c., 8 oz. 85c., 5 lbs. $3.25.

**Moore’s Wonderful Hog Feed Squash.**

You will be astonished at the profitable results you will get from this feed. The feed yield is simply enormous and its heating and feeding properties are beyond belief. It makes the growing of hogs on a large or small scale positively profitable beyond belief. It makes the cheapest hog feed you can possibly get. Hogs eat readily, remain healthy, and gain perfectly on a diet composed of this feed. It is the cheapest and best hog feed you can get. Pkt. 10c., oz. 25c., 1 lb. 65c., one pound sufficient for one acre $3.00.

**Sorrel**

**Large Leaved French.** Cultivated for its acidity and much used in salads. Pkt. 5c., oz. 20c., 1 lb. 60c., 1 lb. 2.50.

New Giant Thick-Leafed Winter Spinach.
The ideal early Patty Pan. The most profitable early squash for both home market and shipping.

The productiveness of this variety is truly astonishing; the yield is truly enormous; it is not uncommon to count eighteen or twenty beautiful green, tender fruits on a vine at one time. Sixty-one squashes have been counted from a single hill. It is a true bush variety of unusually compact growth. The fruits are smaller than the Dow's Extra Early which produced eighty years ago and which proved so popular to all who grew it. The color is a beautiful pea green. The earliness of Moore's Cluster is no less remarkable. The seed cavity is unusually small; the flavor rich, delicate flavor and delicious quality is not foamed in any other sort. It is fully ten days earlier than the Long Island Mammoth and are of good marketable size and bring high prices. The squashes cook well and the flavor is delicious. It forms no hard shell until nearly ripe, which is another great improvement over other varieties of this type. Color a beautiful green. Entirely free from any yellow cast. Usually solid and heavy, which greatly enhances their value for shipping long distances. Pkt. 5¢., oz. 25c., 1 lb. 75c., lb. $2.50.

Dow's Extra Early Patty Pan. It is enormously productive. The squashes mature fully a week earlier than the Long Island Mammoth and are of good marketable size and bring high prices. The squashes cook well and the flavor is delicious. It forms no hard shell until nearly ripe, which is another great improvement over other varieties of this type. Color a beautiful green. Entirely free from any yellow cast. Usually solid and heavy, which greatly enhances their value for shipping long distances. Pkt. 5¢., oz. 25c., 1 lb. 75c., lb. $2.50.

LONG ISLAND MAMMOTH WHITE BUSH. True. Fruits are round and light green in white. Pkt. 15¢., lb. 60c., lb. $1.50.

CHICAGO WARTED HUBBARD. Of large size, and very dark olive green color. A good keeper. Pkt. 10¢., oz. 20c., 1 lb. 50¢., lb. $1.50.

PIE SQUASH. Flesh is yellow, very thick and of fine quality. A ready seller on market. Pkt. 10c., oz. 25c., lb. 60c., lb. $1.25.

ENGLISH WHITE MARROW. This is indeed a table dressing productive, excellent quality. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $1.50.

Henderson's Delicata. For both summer and winter use. Wonderfully prolific. It is ready almost as soon as the early summer sorts; tender and flavorful, and remains in perfect condition as long as any keeping variety. Its flavor when cooked has been compared to the Sweet Potato, others liken it to roasted chestnuts, but all agree that it is delicious. The fruit is ten inches long and wide, and when ripe are deep yellow, irregularly striped and marked with deep red, of live green color. The flesh is thick, of fine texture, and pale yellow in color. It is unequalled for baking—the shape and size make it fine for this purpose. None is better for pies. When boiled it is dry, granular and mealy. Pkt. 15c., oz. 30c., lb. 50c., lb. $1.00.

Dunlap's Prolific Early Golden Marrow. This new Marrow Squash is certainly a valuable acquisition; for, while it is remarkably productive, no variety can compete with it for earliness; in fact, being about twelve days earlier than any variety of the Boston Marrow, and for this reason can be planted a week later than any other variety of marrow. Its color is most attractive, a brilliant orange-red. A good keeper. Pkt. 10c., oz. 15c., lb. 50c., lb. $1.50.

French Coconut. For both summer and winter use, most delicious of all squashes grown; dry, sweet, rich and wonderfully solid and productive and the best keeper of all. When fully matured and taken off the vine before frost it is no uncommon thing for them to keep one year in good condition. Pkt. 5c., oz. 10c., lb. 30c., lb. $1.00.

EARLY LUSCIOUS GOLDEN CUSTARD BUSH. A true bush, handsome scarlet variety, of a beautiful rich golden color and excellent table qualities; wonderfully productive and the best yellow "Patty Pan" sort for home use or shipping. Pkt. 10c., oz. 15c., lb. 50c., lb. $1.50.

GOLDEN WARTED HUBBARD. Fine winter variety. Pkt. 5c., oz. 15c., 1 lb. 50c., lb. $1.50.

GIANT GOLDEN SUMMER CROOK NECK. Bright yellow, warty; big and all summer. Pkt. 10c., oz. 15c., lb. 45c., lb. $1.50.

NEW EGG PLANT BUSH SQUASH. Beautiful cream-colored fruit, of medium size, and can be cooked in any manner of dish; very productive, and the best yellow Patty Pan sort for home use or shipping. Pkt. 10c., oz. 20c., lb. 50c., lb. $1.50.

ENGLISH WHITE MARROW. Sharp dry and sweet. Pkt. 5c., oz. 10c., 1 lb. 50c., lb. $1.50.
TOMATO

The growing of high-grade Tomato Seed is a leading and important specialty with us and we probably distribute more seed to CRITICAL MARKET GARDENERS and SELECT CANNING ESTABLISHMENTS than any other three seedsmen in the United States.

REMEMBER, THE MAIN THING IN MAKING A GOOD CROP OF TOMATOES IS TO GET YOUR SEED FROM US. BUY THE BEST

THE MOST VALUABLE
Extra Early
Red Tomato
Ever Introduced

Moore's King of the Earlies

Moore's New Extra Early June Pink

Blight Resisting Stock

We have here the grandest large extra early smooth tomato of the age for market gardeners, private gardeners and shippers, no matter whether you plant one dozen or one million plants for your first picking. It is just the large extra early tomato every one has been looking for, as it is the tomato you need. It is the tomato above all other extra early tomatoes. It is an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem-setter" and as there is no remarkable absence of leaves the fruit ripens early and almost "all at once." The tomato that will bring you wealth and fame. Each and every vine is a perfect mass of large-size fruit, as our illustration shows. It is a very compact grower and consequently can be planted one-third closer than any other early seed. If you grow early tomatoes, don't miss planting it. It will be both pleasure and PROFIT to you. It is the earliest large, smooth tomato ever introduced. Price, extra selected seed, pkt. 15c., 2 for 25c., 1 oz. 75c., 1 lb. $2.00, 10 lb. $25.00.

CROWN SETTING SEED, carefully selected for size, shape, smoothness, colorfulness and heavy yield. Pkt. 25c., 1 oz. $1.00, 1 oz. $3.00, 1 lb. $14.00.

Moore's New Extra Early June Pink

Better in quality, more handsome in appearance and immensely more productive than any other extra early pink-flamed variety. The vines are one solid mass of beautiful, large-sized, smooth fruit, which always sells for fancy prices in every market. We have been developing and improving this remarkably valuable new extra early variety for the past eight years and now offer it to our many thousands of customers throughout the world as being the earliest, most productive and most profitable extra pink tomato in existence.

First pickings of ripe tomatoes last season sold for $1.50 per crate wholesale. The crown sets often consist of thirty beautiful large fruits. Moreover, it is exceptionally hardy. The fruit is deep, very smooth, solid and meaty, and entirely without core. It is a great money-maker for all who grow for early marketed shippers we assure our customers that it will carry fully as well as our Moore's Royal Pink or Moore's Old Blue-Stemmed Duke of York. That, you know, is saying a great deal. Every one of our customers who has had it pronounced it free from blight. Fine for the South and will make big money for the man who grows tomatoes for early market, no matter where he may be located. Ask your neighbor about it; he may be planting it. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, 10 lb. $15.00.
THE MOORE SEED CO., PHILA., WHOLESALE CATALOGUE FOR MARKET GARDENERS AND FLORISTS

REMEMBER, THE MAIN THING IN MAKING A GOOD CROP OF TOMATOES IS TO GET YOUR SEED FROM US. BUY THE BEST

MOORE'S WONDERFUL EARLY TOMATO

Introduced by The Moore Seed Co. Thousands say it is the Most Valuable Large Early and Best Flavored Bright Red Tomato for the Market Gardener Ever Introduced. The Only Tomato Adapted for Early, Second Early or Late Crop. Yields 50 Tons per Acre.

Since we introduced this most excellent variety it has brought joy, gladness, satisfaction, and hundreds of thousands of dollars to the homes of market gardeners and others who have purchased their seed from us. It ripens evenly to the stem, has very few seeds, while the productivity is simply astounding, it having frequently produced 1½ bushels of beautiful ripe fruit per plant. It not only bears early, but continues to bear ripe fruit until frost, and unlike most other varieties, the size is held up well until the last picking. It is no experiment, but was based on a solid basis of firmly established merit. It is well adapted to all sections of the country. If you would have a “good thing,” don’t fail to plant it. It is of especial value to tomato growers in the state of Maine, New Hampshire, Vermont, New York, Michigan, Minnesota, Wisconsin, North and South Dakota, Idaho and Washington, and all localities where the growing season is short, as it will withstand more frost and will mature beautiful large fruit early where no other sort will. The plants are of strong, robust growth, have abundant foliage and we never knew it to show blight in our seed fields. Specimen fruits weighing one pound are not uncommon. It is singularly well adapted to growing in the Dominion of Canada, as well as throughout the United States, North, South East and West, and every market gardener, no matter where located, will find it a sure money maker. The home gardener and large canner will find it equally valuable and satisfactory. The meat is unusually firm, sweet and bright red, and carries well. Only from 3 to 6 days later than Moore's other varieties. It will always command the highest price on any market. Pure, selected seed only. Pkt. 15c., 2 for 25c., oz. 50c., lb. $1.75, lb. $6.00.

MOORE'S NEW EARLY ROYAL PINK TOMATO

MOORE'S NEW CORELESS TOMATO. All markets requiring a bright, rich, red sort will be pleased with the Moore's New Coreless. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the stem when plants are trained to stakes. Tomatoes and canes per ton is all important. All of the fruits are of marketable size, and many of them are quite large, twelve to fifteen ounces. A grand, good slicing variety; the seed cells being surrounded by bright red, heavy, meaty and delicious flesh, which is slightly more acid than the Livingston's Globe. The strong outside and lumpy walls of flesh of the Moore's New Coreless render it a very firm fruit and one of the best for long distance handling and shipping, but it is entirely free from hard green core. Its color is that bright, rich red so desirable to packers of high-grade goods, and more important than ever now, since the law forbids the use of coloring matter. Every canner, market gardener or lover of good tomatoes should plant this grand variety this year. Pkt. 15c., 5 for 25c., oz. 35c., lb. $1.25, lb. $4.50.

MOORE'S WONDERFUL EARLY TOMATOES IS WORTH ITS WEIGHT IN GOLD.

Moore's New Coreless Tomato. All markets requiring a bright, rich, red sort will be pleased with the Moore's New Coreless. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the stem when plants are trained to stakes. Tomatoes and canes per ton is all important. All of the fruits are of marketable size, and many of them are quite large, twelve to fifteen ounces. A grand, good slicing variety; the seed cells being surrounded by bright red, heavy, meaty and delicious flesh, which is slightly more acid than the Livingston's Globe. The strong outside and lumpy walls of flesh of the Moore's New Coreless render it a very firm fruit and one of the best for long distance handling and shipping, but it is entirely free from hard green core. Its color is that bright, rich red so desirable to packers of high-grade goods, and more important than ever now, since the law forbids the use of coloring matter. Every canner, market gardener or lover of good tomatoes should plant this grand variety this year. Pkt. 15c., 5 for 25c., oz. 35c., lb. $1.25, lb. $4.50.

MOORE'S NEW EARLY ROYAL PINK TOMATO

A truly wonderful yielder—being of large size and wonderfully prolific, as our illustration shows—and continues to yield beautiful large fruit longer than the Globe, Acme, or Beauty. Very distinct in shape, firm fleshed and delicious flavor. It is a very beautiful variety; in quality there is nothing more to be desired in a pink tomato. It has a great future; it has already become a popular variety with all tomato growers who have tried it. Every market gardener, large or small, is delighted with it. It is smooth as an apple, color up nice, continues in bearing condition longer than any other pink variety, and meets with ready sale everywhere. Even New England, Tennessee or other Southern tomato grower should plant Moore's New Early Royal Pink Tomato. It matures enormous crops of No. 1 fruits only a few days later than our Moore's King of the Early. Beautiful large, smooth, solid pink-skinned fruit, which in variable soils above the market price. The texture is extra firm, thus making it a first-class long-distance shipper. It outclasses Livingston's Globe on every point, being one-third larger, earlier, yielding 50 per cent, heavier crops and, unlike the former, will carry thousands of miles in perfect condition. Pkt. 10c., 3 for 25c., 1 oz. 60c., ½ lb. $1.50, lb. $6.00.

MAKES HIM RICH. I must thank you for the fine seed you sent me of your Moore's Wonderful Early Tomato. I have sold $600.00 from one acre. I felt rich when I sold them all at $1.00 per basket.

JONATHAN WILKINS, Seattle, Wash.
**MOORE’S DEPENDABLE TOMATO SEED**
NORTHERN GROWN, FREE FROM BLIGHT, AND EVERYWHERE KNOWN AS THE MOST CAREFULLY SELECTED, THE MOST CAREFULLY GROWN, AND THE MOST CAREFULLY SAVED

Thousands of the most critical market gardeners throughout the United States have for years found our tomato seeds the most dependable as well as the most profitable to grow—the best for home use or shipping. Careful tomato growers use our tomato seed—the best is always the cheapest.

**CHALK’S EARLY PROSPERITY TOMATO**

This is a highly valuable new variety—is in a class all by itself. It originated with James Chalk, one of the foremost and most successful market gardeners, and a noted expert tomato grower of Pennsylvania, who has devoted forty years of his life to the hybridizing, selection and development of improved varieties of the tomato and it was he who gave to the world the famous Chalk’s Jewel tomato, which was introduced by us to the tomato growers of America in the year 1899, and which has since brought in many millions of dollars to the pockets of the wise and the growers of America.

Mr. Chalk wishes to announce to us the tomato growers of America that his new EARLY PROSPERITY tomato will, if possible, prove even more valuable than his justly famous Chalk’s Jewel. Side by side Chalk’s Early Prosperity and our most valuable three times as many marketable tomatoes as Earnlana, Earliest of All, Early Freedom or Bonny Best. It is truly a wonder to gardeners, free from the ordinary yellder, solid, firm, large size and unusually attractive. Satisfaction, profit and prosperity assured to all who plant it, either for the home garden, for market or long distance shipping. It is a brand new sort, free of all disease. Stock seed grown by James Chalk. Pkt. 15c., 2 pks. 30c., oz. 60c., 1 lb. $2.00, 1 lb. $7.00.

**Bonny Best Early**
A Good Second Early Red Tomato

This variety is earlier than Chalk’s Early Jewel, and within two or three days as early as Earnlana. It is a vigorous grower, enormously prolific, with larger foliage than the Earnlana. In color it is a beautiful scarlet red; setting its fruit in clusters of five or more at close intervals. It’s greatest characteristic is its uniformity of size and smoothness in shape. Extra selected seed. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. $1.50, 1 lb. $5.50.

**Langdon’s Earliana Tomato**
(Crown Saved Seed)

This is the result of several years’ very careful selection from the Sparks Earliana and grown near the Canadian border, in a short, cool season, which is well calculated to produce early, firmness, hardiness and smoothness, great vigor and productivity. Our seed is very carefully selected from the finest crown settings, and from the largest, earliest, heavy, smooth fruits. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. $1.50, 1 lb. $5.50.

**MOORE’S BEEFSTEAK. A Notably Fine New Variety.**

It’s one of the grandest tomatoes ever introduced, color rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, fine flavor. It commences to ripen a short time after our Moore’s Wonderful Early. A leading feature of this superb variety is that it ripens its fruit more uniformly together than any known kind, whilst its profusion of clusters, averaging eight and ten large evenly-formed clusters each, makes it conspicuously handsome. Fruit large, thick, heavy and remarkably free from cracking, yielding heavily until killed by frost. Invaluable as an exhibition variety for private growers and market purposes. Highly suitable for small gardens owing to its very compact growth. Excellent market variety or for canning purposes. It withstands drought and dry weather to a remarkable degree: for this reason, if no other, it should have a tremendous planting all over the United States. Pkt. 10c., oz. 40c., 1 lb. $1.25, 1 lb. $4.00.

**Every Tomato**

**Moore’s Famous Kelly Red Tomato**

It has many distinct and desirable qualities which place it at once in the front rank as a desirable addition to the many valuable sorts already offered by us, and which are planted by many thousands of tomato growers throughout the United States, and foreign countries as well. In offering to our customers, know and understand that is with the assurance that it is entirely distinct from any sort previously introduced. The color is a beautiful, bright, glossy, purple-scarlet shade of red. It is the largest and heaviest of all the pack of the world-famous Moore Triumph. Twenty tons of fine marketable tomatoes per acre is not unusual. Our motto is: “If not the largest and most successful New Jersey tomato packer says: “It is better than Matchless, shows no blight, a good drought Resister, all packers fancy No. 1. I prefer to the Moore’s Kelly Red to all other seeded or packing whole for or for catsup. Waste is remarkably small and I never knew it to crack.” For the amateur, long-distance grower, or home market grower, it is equally valuable. Its good market qualities have already made it famous from Maine to Florida. It has many good qualities that make it highly desirable. Every grower should try to out, and you should be one of them. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. $1.75, 1 lb. $6.00.
SUGGESTS EVERYWHERE
From California to Maine.
From Canada to Mexico.

MOORE'S SUPREME EARLY
A Marvelous New Tomato in a Class All by Itself.
In introducing this most wonderful early and valuable variety to the
tomato-growing public, our Mr. Moore has given it the name of Supreme,
for the reason that it embodies all the desirable qualities produced in early
tomatoes "up to date," and is in a class by itself. It possesses all the
highest, greatest and most excellent qualities yet attained in early tomatoes to a
Supreme degree combined in this one sort. Plant it and you will agree with us.
It is a beautiful large size, very early, red skinned variety, and as such is supreme
in earliness, yield, beauty, and fine quality, and what is still more valuable, it com-
mands outside prices on any market. Our Moore's Supreme Early is miles ahead
of any other of its class. It is not excelled for market or home garden. To the
tomato grower it is "all fruit." Abundant, delicious, sweet fruit, with few leaves, and of compact habit. It is an uncommon thing to pick
beautiful large solid ripe fruit sixty days from setting; it is also very hardy. No
tomato grower should miss planting liberally of this notable new early variety.
Pkt. 10c., 3 pkts. 25c., 7 pkts. 50c., oz. 45c. $1 lb. $1.25, lb. $4.50.
It has come to stay.

MOORE'S EARLY ABUNDANCE TOMATO
A valuable second early variety of great merit; and as its name indicates is an
early bearing prolific fruiting tomato. The flavor is very delicate and agreeable.
Colors beautiful, glossy reddish purple. Fruit extra large in size, very symmetrical
in shape, remarkably solid, smooth and meaty as a beefsteak. The size is fully
maintained until the end of the season. It is a superb good shipper and fine
keeper. Adapted for every locality, and very especially for southern growers,
owing to the fact that it carries well long distances, and we never knew it to
develop any blight no matter where grown. Its beautiful shape, color and
delicious quality always insure the highest market price. Pkt. 10c., 3 pkts.
25c., oz. 45c. $1 lb. $1.25, lb. $4.50.

MOORE'S NEW IMPROVED GLOBE
Seed Grown From Blight Proof Stock
Color a fine glossy rose, tinged with purple. Very early. The fruit is of a much
larger size than the Livingston Globe, which is a decided advantage. Enormously
productive; no fruit too small for market. It has already become a big leader with
many prominent and successful tomato growers in all parts of the country. It has
never shown any tendency to blight with us. A fine shipper. Being smooth and of
large size, it always brings fancy prices and will invariably sell for double that of
Cline's Pink and treble that of Earliana, Mauils Early Acme, Fordhook, Freedom,
and other old sorts. Pkt. 10c., 3 for 25c., oz. 45c., $1 lb. $1.25, lb. $4.50.

MOORE'S NEW GOLDFINDER
"Does Not Sun Scald Nor Blight.
A new tomato with many desirable qualities and quite distinct from all other sorts.
It is distinct in color, size, shape and color of fruit, the foliage being dense and of
a dark green color. The fruit is of a pleasing shade of red, medium early and is set well
up among the dense foliage which prevents "scalding, sun cracks," etc. David Myers,
Esq., Northfield, N. J., writes:—Your Moore's Goldfinder Tomato pleased me might-
ily. Not a single tomato sun scalded, while I lost one-half my Earlianas and Earnean
from this cause. I averaged twenty cents more per basket for them than either Par-
gon or Stony. The yield astonished me. The branches were still with fruit.
Not a single plant blighted. Pkt. 10c., oz. 45c., $1 lb. $1.25, lb. $4.50.

HORNER'S EXTRA EARLY PROLIFIC
An extra early red variety, quite smooth and solid. As its name indicates, it is ex-
tremely prolific. It originated with Mr. J. W. Horner, a large and very successful
tomato grower of Moorestown, N. J., also of Miami, Fla., where hundreds of acres of
this highly prized variety are successfully grown every season for northern markets.
We have greatly improved this variety in size, solidity and smoothness, and in this
respect our strain is superior to that sent out by the originator. This variety has n畦
Mr. Horner at the rate of 3,000,000 per acre. Pkt. 10c., 3 pkts. 25c., oz. 50c.,
$1 lb. $1.50, lb. $5.00.
Moore's Wonderful Tomatoes
Are Worth Many Millions of Dollars to Tomato Growers

MOORE’S Big Victor
EXTRA EARLY

“There’s Big Money in it for Early Tomato Growers”

Introduced by us in 1903
We have a big reputation for growing good tomato seed, and for having the best varieties. A word from us—MOORE’S BIG VICTOR EXTRA EARLY TOMATO is a brand new and distinct variety never before offered to the public, and was produced at great cost. This valuable market variety was developed from a chance seedling found growing in a field of our Moore’s King of the Earlies. It is the earliest large fruited red variety, and the largest Extra early red variety ever produced. Its yield is enormous, every vine being a great mass of large size red fruit of the same setting type. Single clusters of 25 to 30 tomatoes are not uncommon. It is truly a wonderfully productive sort. It invariably brings the highest market prices. This wonderful variety is actually earlier and larger than our Moore’s King of the Earlies, and fully as smooth—but as a large early tomato grower remarked to us—give me earliness and large size, and the tomato will sell even if it be not smooth. He was right. Every tomato grower should plant it. Our word for it— will make many dollars, if he don’t. Pkt. 10c., 5 pkts. 25c., oz. 50c., $1.50, lb. $3.00, postpaid.

Moore’s New Prolific Stake Tomato
A distinct variety of the color of Moore’s Wonderful Early and is one of the most valuable additions to the tomato family. It is large, early, thick, heavy and solid and one of the most handsome varieties in cultivation and unsurpassed in quality. The form is perfect, uniform, large and attractive, and a very heavy cropper, alike valuable for the market gardener or amateur to plant. It is very desirable where neatness and the economy of space is desired in the home garden. The usual method to set one strong plant to a stake 5 to 7 feet high, tying the plant up with wool or other strong, soft twine, and pruning quite freely as the vine advances in growth. By this method plants may be set much closer than in the ordinary way. For fine, large specimen of high color and solid, an attractive appearance generally, grow the clusters of the fruit in paper sacks as is commonly practiced by grape growers. These paper sacks or bags should be removed when the tomatoes are about three-fourths grown. Pkt. 10c., 3 pkts. 25c., oz. 50c., $1.50.

Small-Fruited Tomatoes
Excellent for Preserves, Pickles and Pies

Red Grape.........Pkt. 10c.
Red Currant.........Pkt. 5c.
Red Cherry.........Pkt. 10c.
Red Pear-Shaped.....Pkt. 10c.
MIXED SMALL TOMATOES—The above nine varieties, Pkt. 10c., oz. 50c., $1.50.

John Baer Tomato (New)
Produces large, smooth, solid fruits of an attractive red color, yielding an abundant crop about one week later than our Moore’s King of the Earlies. Ripens evenly and well up to the stem, very few seeds and of good flavor and size. 24 fruits fill a six-carrier basket. Foliage light and habit of plant open and not inclined to run to vines even when manured heavily. A very heavy yielding one crop sort. Fruit not as large as our Moore’s Wonderful Early. Our seed is carefully selected from crown fruits and grown from the originator’s stock which we have greatly improved. Pkt. 10c., 3 pkts. 25c., oz. 50c., $1.50, lb. $3.00, postpaid.

Moore’s Magnus Improved
We have been growing this variety for our customers for upwards of twenty years. Many thousands of our customers grow it every year. It stands in the front rank among purple or pink fruited sorts. Fruit large, deep; good keeper and shipper; fine quality, delicious flavor and heavy yield. Also good for long distance shipping, home market or family use. Very distinct and commands good prices. Pkt. 10c., 3 for 25c., oz. 50c., $1.15, lb. $4.00.
Moore's Triumph Tomato

The Greatest Second Early and Late Tomato ever offered to the American tomato grower. Planted last year by over 60,000 of the best gardeners and shippers in America, who all unanimously endorse it as the best ever introduced.

Our illustration gives a very correct idea of the size and quality of this new variety. We introduced this grand tomato to our gardening friends fifteen years ago, and since then scores of seedsmen have tried without success to offer one as good. Words cannot adequately describe its many admirable qualities for the market gardener, canner, or private grower. We can truthfully say, however, that it is the finest medium early or late tomato ever introduced, a truly remarkable, handsomely large, very large, smooth, bright, glossy red variety of the finest quality, ripens clear to the stem; wonderfully productive and very good; does not crack; sets on sight. Its size and flavor may lead some to believe that its fruit is few in number, yet the fact is, it is even more productive than any of the standard sorts now in cultivation. It is unquestionably the heaviest known. The tomatoes are borne in immense clusters of four to eight fruits, and occasionally ten large fruits have been found in a single cluster. It is solidity and neatness it has no equal, while in flavor quality none surpasses. While it has been a most excellent sort for medium early, it is the best in the world for a late crop. As a canner it "holds up" perfect condition longer than any other large, F. D. A. sort. The large, wide, beautiful, firm and resistive are produced throughout the season until killed by frost. Every grower should grow it for his home packs.

Pkt. 10c., 3 pkts. 25c., oz. 60c., 1 lb. $1.75, 5 lb. $6.00.

Moore's Old Blue Stemmed "Duke of York"

Of Special Value to Florida Growers and all Long Distance Shippers

Introduced by us. One of the grandest tomatoes recently introduced. Color rich glossy scarlet, similar to our Moore's Royal Early Pink, splendid crops somewhere in globular, flesh very firm, large size, fine flavor. A leading feature of this superb variety is that it ripens its fruit more uniformly than any known kind, whilst its profusion of clusters, averaging eight and ten large evenly-formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is the strong, healthy grower, and not subject to rust or blight, is an enormous cropper, and produces until the vines are killed by frost, holding its size exceedingly well up to the last picking. Quality the very best, very solid and meaty. It's in every way a desirable variety for market gardeners, as the firm fruit appearance always insures an extra price. As a long distance grower it stands foremost of all other sorts. The walls of the fruit are unusually thick and dense. Its uniform ripening qualities and ability to "stand up" well after arrival, is a great favorite with the thousands of growers in Texas, Florida, Porto Rico, Cuba, Isle of Pines and the Bahamas. We are headquarters for introduction of this important variety. An excellent sort for late summer and fall. Plants should be "set out" earlier than other late sorts.

Pkt. 10c., 3 for 25c., oz. 60c., 1 lb. $1.25, 5 lb. $5.00.

Moore's New Extra Early Giant Fructed Acme

The Handsomest and Earliest Type of Acme Tomato

Positively the earliest and largest Acme tomato ever introduced. Extremely valuable to market gardeners and shippers. Just what you have long wanted—a large fructed, early, smooth, solid tomato with a pink or purple skin. Herebefore all pink skinned tomatoes, such as the Acme, Dwarf Champion, Beauty, Imperial and Advance, have been too small in size to make them salable or profitable for the market gardener or shippers to grow. By repeated crossing and skillful selection we have produced our New Early Giant Fructed Acme which is many years earlier, much larger and vastly more productive than its old prototype, on account of its beautiful appearance and fine quality, sells more readily and fetches higher price than any similar sort. This variety appeals pre-eminently to all those who grow tomatoes for profit. It possesses all the qualities that go to make up a perfect tomato, viz., fairness, large size, quality, yield, appearance, solidity, fruit, "beefy, meaty" thick, solid and almost seedless. Now, what more could you wish? We predict an enormous demand for our Early Giant Fructed Acme, when its many good qualities once become known. It is adapted to all sections of the United States, and more particularly to those who ship for distances. We advise every one to plant it. Pkt. 10c., 3 pkts. 25c., oz. 40c., ½ lb. $1.25, lb. $4.00.
Greater Baltimore Tomato. A second early and main crop tomato of much merit; the originator claims it to be better than the stone. It ripens evenly to the stem and is entirely free from ridges, cracks, and blight. Quite smooth, well formed and deep from stem to blossom. Fruits in large clusters at every second joint, which are short and sturdy. Of brilliant red color, vines vigorous, compact and healthy, a heavy yielder, cropping until heavy frost, and owing to its firmness and solidly is an excellent shipper. It matures after Moore's Wonderful Early and like Moore's Triumph tomato it is a great favorite with many canners. Pkt. 10c., 3 pkts. 25c., oz. 50c., $1.25, lb. $4.50, postpaid.

Red Rock. A wonderful main crop variety, producing large, solid, bright red tomatoes free from an excess of water, as smooth as an apple, or superior texture and flavor, an enormous cropper and an excellent shipper. The skin is a vigorous grower which protects the fruit from sun and dry. Very good for home or market use and for canning it is unexcelled. Pkt. 10c., oz. 35c., lb. $1.25, lb. $4.00.

The Matchless. The illustration gives a fair idea of its size and smoothness. The color is a rich, cardinal red, and ripens second early to late. The skin is not tough that it is a splendid keeper and shipper, and is not liable to crack in wet weather. Unsurpassed for market or for table. The plant is a strong grower, and very productive. The fruit is free from core, and the seed spaces are small. The leaves are of a rich, dark green color, and very luxuriant, indicating great vigor, and giving the plant ability to produce fruit of the largest size throughout the entire season. Pkt 10c., oz. 35c., lb. $1.00, lb. $3.50.

Lump of Gold. New. Very valuable and highly prized for preserving. Color a bright golden yellow, size twice as large as our Golden Pix or Yellow Plum varieties; enormously productive and outdist all other yellow preserving sorts. Pkt. 15c., 2 pkts. 25c., oz. 75c., lb. $2.50.

Japanese Tree Tomato. Dwarf and compact, tree-like in growth the plants the vines are killed by frost, holding its size exceedingly well until the last picking. Pkt. 25c., 3 pkts. 50c., oz. $2.50, oz. $5.50.
MOORE'S NEW PHILADELPHIA. It is one of the most wonderful tomatoes of the day. It has required many years of intelligent selection and crossing to produce this wonderfully large and exquisite variety. It is the largest of all the good tomatoes. You will certainly be very pleasantly astonished if you plant it. It will be a revelation in size, beauty and quality, and you might truly say a joy forever. The beauty and quality of the fruits make it an easy seller in all markets. Many market gardeners tell us it brings double prices. The flesh is a clear deep red, remarkably solid and heavy. Many specimens measure 21 inches in circumference and are correspondingly thick. We urge every grower of tomatoes who reads this to plant it and tell his neighbors also. Pkt. 10c., 3 for 25c., oz. 50c., lb. $1.75.

IMPROVED REDFIELD BEAUTY. We have greatly improved this sort over that originally sent out, in earliness, productivity and carrying qualities. The size of the fruit is also larger. Color dark crimson to purple. Our customers in the Gulf States, where this variety is principally planted, will find our improved strain the best they ever had. Pkt. 10c., oz. 50c., lb. $1.00, lb. $2.50, 10 lbs. $25.00, postpaid.

LIVINGSTON'S GLOBE. Very distinct in shape, firm fleshed and of delicate flavor. Introduced in 1895. It is an extra good all-around sort, of a distinct globe shape. In time of ripening we class it with the second earliest. The fruits are of large size, and a good marketable size is retained throughout the season. It is always smooth, of firm flesh, and few seeds; ripens evenly; color a fine glossy rose, tinged with purple. Our seed is the best possible quality. Pkt. 10c., 3 pkts., 25c., oz. 50c., lb. $1.25, lb. $4.00.

CHALK'S EARLY JEWEL TOMATO. 1890. A good large second-early red tomato. This seed can only be had from us. Very early large-sized red variety, well adapted to all localities; selected seed only. Seed stock grown by James Chalk. Pkt. 10c., oz. 50c., lb. $1.25, lb. $1.00.

PONDERONA. Henderson's. A very large fruited, solid pink variety. Pkt. 10c., 3 pkts., 25c., oz. 50c., lb. $1.00.

GOLDEN GAGE. This is a variety of pre-eminent merit. It is a golden wonder, it is the most productive yellow sort, the grandest and most luscious quality. It should be in every market gardener's field and city garden. It is solid, smooth, large size, ripens early, and is the most beautiful yellow variety ever sent out. Fruits are sometimes tinged with red at the blossom end. No one excels it for eating raw or slicing. The handsome golden yellow slices make a beautiful contrast in a dish with red sorts. Makes delicious rich preserves. It is a beauty and the best of all the yellow sorts. Pkt. 10c., oz. 45c., lb. $1.40, lb. $4.50.

IMPROVED EARLY DWARF CHAMPION OR DWARF STONE Tomatoes. This belongs to the potato-leaved class of tomatoes; it is of rapid vigorous growth, with strong heavy stalks, which stand up well unless, which is often the case, they are pulled down with the first frost. It begins blooming when only six or seven inches high, attains a height of from two and a half to three feet and sets its fruit—a rare habit in any tomato—very generously from the first bloom. The fruit is of substantial size, of a bright glossy red color and is produced in clusters of from four to five tomatoes and ripens after Moore's material. This is the fruit, round, slightly flattened, ripening clear to the stem, perfectly smooth. It has very few seeds; the meat is thick and firm and of a most excellent flavor. It is a great favorite in the Northern States on account of its compact habits and upright growth. Pkt. 10c., 3 pkts., 25c., oz. 50c., lb. $2.50.

SELECTED EARLY PARAGON. Flesh solid, well covered and flavored. Ripens between the early and late varieties. Color of skin glossy deep red. Very choice stock. Pkt. oz. 25c., lb. 50c., lb. $2.50.

GOLDEN FIG. It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is pre-eminent the best of all the small yellow sorts for market. Pkt. 10c., 3 for 50c., oz. 50c., lb. $1.00, lb. $3.00.

THE TRUCKER'S FAVORITE. Color purplish red; very solid, firm flesh, excellent for general indoor cultivation. Pkt. oz. 25c., 3 pkts., oz. 40c., lb. $1.25, lb. $4.00.

GOLDEN STRAWBERRY WINTER CHERRY TOMATO. This distinct bush ever-blooming tomato is unsurpassed for preserving and pies. Dried in sugar, as raisins or figs, or to use in fruit cake, they are inexorably. They have a strawberry flavor, and produce fruit in great abundance. For sauces they are excellent, and for pies nothing can equal them in flavor and taste. They are delicious as preserves, and when dried its sugar so much better than many of the large varieties, and many of the large varieties that are used for baking and puddings. They are also used raw, can be used to eat raw as fruit. Pkt. 10c., oz. 40c., oz. 75c., lb. $1.25.

FORCING or GREENHOUSE TOMATOES

MOORE'S FIRST EARLIEST OF ALL. Unquestionably the earliest red forcing tomato in cultivation; fruit smooth, of medium size and very productive. Pkt. 10c., oz. 25c., lb. $1.00.

SUTTON'S PERFECTION. A superb tomato, combining great productiveness with excellence of form and flavor, and colored a rich bright crimson; flesh solid, almost free from seeds, and of an agreeable piquant flavor. One of the finest tomatoes for forcing and general indoor cultivation. In favorable seasons enormous crops may be grown out of doors. Pkt. 25c., 3 for 60c., oz. 75c.

KARL BRAY. An excellent Scotch variety of medium size, of pleasing pink color, and very sweet. A truly superb variety. Pkt. 35c., oz. 75c.

PALLAS. Greenhouse grown seed, a medium size red, and very productive variety. Pkt. 20c., 6 for $1.00, oz. $2.50.

FORCING GOLDFINDER. Beautiful and productive, glossy red, medium size, very solid, few seeds. Compact bush, thoroughly endorsed by many good judges to be the best of all for forcing. Pkt. 50c.

MOORE'S BIG CROP. This variety has proved a marvelous bearer of fruit and extremely early. There is no tomato which should become so widely grown as this under glass for home use or market; it is bound to give the utmost satisfaction to all, long a deep rich crimson color. The skin is firm and flowing without thick and the fruitfulness of the plant perfectly astonishing. Pkt. 50c., large pkt. $1.00.
Life is too short to experiment with unknown or cheap tomato seed. You should realize that in tomato growing the result is everything; the first cost of seed is so small that you can well afford to pay a little extra and get the best.

Delaware Beauty. Vine compact, deep green, blight resistant, thick stemmed, extraordinarily productive.

One week later than Moore's Wonderful, one week earlier than Red Rock, and two weeks earlier than Stone.

Fruit smooth all over, almost entirely free from splits, a most distinguishing quality, very uniform in size and showy. Of a habit of simultaneously coloring all over the fruit. Crown end, no depression whatsoever at stem end, unusually full on top—a most desirable quality, absolutely no waste.

Its habit of ripening a week ahead of the Moore's Wonderful and two weeks ahead of Stone is most desirable. A productive sort has long been looked for to come in ahead of these two late varieties. Canners especially are asked to observe this most profitable character.

Pkt. 10c., 25c., 1 lb. $1.50, 10 lb. $5.50.

Livingston’s Manifold. It is said to produce as well as the Stone, and to ripen earlier. It sets its fruit in clusters. In size it is quite uniform and smaller than Stone. Fruit solid, of a pleasing red color and ripens a few days later than our Moore’s Wonderful Early, which see. We have a nice supply stock and recommend it to our customers. Pkt. 10c., 3 pkts. 25c., oz. 75c., 1 lb. $2.00, 10 lb. $7.50.

Moore’s Selected Stone. We herewith offer our many thousands of tomato growers, and particularly market gardeners, and tomato canners, both large and small, a greatly improved type over the old Stone as offered previously to 1918. It has taken years of careful, painstaking care and intelligent effort to bring it up to its present present high standard of perfection. Vine is more compact, productiveness greatly increased, a brighter red color, better keeper, better shipper, fewer seeds, nearly all core eliminated, firmer and more solid meaty fruit, earlier and more uniform in ripening, fruit produced in clusters of six, seven or more with a range of weight from 8 to 12 oz. Smaller cavity at stem end. In short, all the faults of the old Stone have been entirely eliminated by our long and careful selection and re-selection of stock seed. If you plant Stone tomato be sure to get our Moore’s Selected Stone. Pkt. 10c., oz. 40c., 1 lb. $1.25, 10 lb. $4.00.

New Glory. This tomato is an early or second crop sort and a most wonderful yeilder, entirely free from cracks or ridges; color a beautiful bright red and in many respects resembles our Moore’s Wonderful Early. Good mild flavor and very few seeds. The vines are short jointed, vigorous, healthy and bear continuously large clusters of fine large fruit and decidedly disease resistant. It is a shy seeder and a most excellent variety for the family garden or market grower and we recommend all our customers to plant it liberally. Best stock, seed direct from the originator. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.25, 10 lb. $4.50.

HERBS

BASIL, SWEET. Pkt. 5c., oz. 20c., 1 lb. 40c., 1 lb. $1.50.
DILL. American. Much superior to the imported. Pkt. 5c., oz. 20c., 1 lb. 60c., 1 lb. $2.00.
TARRAGON. Strong Plants, 25c.; by mail, 40c.
FENNEL, MAMMOTH. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. $2.50.
BORAGOE. Blue flowered. Oz. 15c., 1 lb. 40c., 1 lb. $1.50.
Marjoram, Sweet. American. Best for market. Pkt. 10c., oz. 40c., 1 lb. $1.25, 1 lb. $4.50.
ROQUETTE. (Ruchetta.) Young leaves used as a salad, have a flavor of horse radish; can be cut repeatedly in spring and summer. Pkt. 10c., oz. 40c., 1 lb. 45c., 1 lb. $1.50.
SAGE. Pkt. 10c., oz. 30c., 1 lb. 75c., 1 lb. $2.50.
SUMMER SAVORY. Pkt. 10c., oz. 20c., 1 lb. 60c., 1 lb. $2.00.
Thyme. American. Of upright habit, broadleaved. Very productive, highly flavored and hardy. Best for market purposes. Pkt. 10c., oz. 40c., 1 lb. $1.00, 10 lb. $3.50.
Perfection Red Top Market White Globe. Private market gardener's stock. It is the sweetest, tenderest, handsomest-looking purple top white globe turnip we ever grew. Our illustration, drawn from nature, shows its smooth, regular form, and rich, purple-colored top. The best early variety grown and the most profitable market sort. Of large size and very rapid growth; fine, juicy quality. It keeps well. Pkt. 10c., oz. 25c., 1 lb. 60c., lb. 2.00.

M. & S. Teltow Golden. Very popular as a market sort. Of medium size, short top and very rapid growth. Globe-shaped bulbs, with deep yellow flesh, very tender, stringless and of delicious flavor. The top of the bulb is of a beautiful light green, while the middle and lower part is of a beautiful rich golden-yellow color. An excellent keeper, remaining solid a long time. Excellent fall and winter sort. Every turnip grower should have at least one on hand. Sells on sight. Pkt. 10c., oz. 20c., 1 lb. 50c., lb. 1.50.

YELLO W, or AMBER GLOBE. Pkt. 5c., oz. 10c., 1 lb. 25c., lb. 55c.

AMERICAN GREEN TOP ABERDEEN. Very productive. Good table variety. Pkt. 5c., oz. 10c., 1 lb. 25c., lb. 55c.

EXTRA EARLY PURPLE TOP MILAN. Pkt. 10c.

EXTRA EARLY WHITE MILAN. Pkt. 10c.

GOLDEN BALL, or ORANGE JELLY. Pkt. 5c., oz. 10c., 1 lb. 25c., lb. 55c.

COW HORN TURNIP. Pkt. 5c., oz. 20c., 1 lb. 45c., lb. 1.25.

SOUTHERN SEVEN TOP. Used only for greens. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. 75c.

JERSEY WINTER WHITE EGG. This variety is grown in large quantities for the Philadelphia market and is very popular. Flesh firm, white, sweet and of most excellent quality, the best winter turnip ever raised in this country. A strong cold will not hurt it but will tend to open the top a great part of the winter. Fine for home use and very profitable for market. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. 50c., lb. 1.50.

Carter’s Model Purple Top Yellow Ruta Baga. A perfect sort equal to it in point of tenderness, sweetness, juiciness, and nourish­ment. Our choicest stock grows entirely without neck and very small top and tap-root. Very quick growth, good globular shape, excellent table quality and best market variety. It is thoroughly fixed in type and entirely distinct from ordinary varieties which are used for feeding or feeding stock. It has short leaves, grows clean and smooth as a turnip. The flesh is remarkably fine grain and delicious in flavor. Will mature in fifty days from planting. We pronounce this the best and most desirable Ruta Baga grown in this country, all who grow for market, as it will bring much higher prices than any other sort. No market gardener should plant any other kind. All who plant it praise it. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. 50c., lb. 1.50.

LONG ISLAND PURPLE TOP YELLOW RUTA BAGA. Pkt. 15c., 1 lb. 40c., lb. 1.25.

WHITE BEAUTY RUTA BAGA. Good market sort. Pkt. 10c., 3 pks. 25c., oz. 50c., 1 lb. 50c., lb. 1.50.

Danish Golden Milk Turnip. At the present price of grain for feeding stock the profits of dairying and stock-fattening is very much reduced, and the feeding of roots alone offers the solution of profitably conducting many farm industries. The farmer realizes the immense value of roots of various kinds for feeding his dairy, as well as all other stock he may have. It is an experience that degree of prosperity he has so long waited for. It is the growing and feeding of root crops alone that makes the English, Danish and other European dairymen so prosperous. The dairy can be made to pay big profits if a judicious system of root crops is followed. Our Danish Golden Milk Turnip, which we have brought from Denmark, is the best of its class and is the turnip principally grown in that country for stock-feeding purposes; it is unequalled in form and quality as well as superior in quality in a manner that will astonish the most skeptical. The roots are of immense size, of a rich golden yellow color, very solid and of rapid growth and a perfect keeper. In point of productivity it is only necessary for us to say that seventy tons have been produced on one acre of ground, while from thirty-five to forty tons is no uncommon yield. Can be sown from April to July 10th, broadcast, or drilled; we recommend the latter. We advise several sowings be made during the period above mentioned, the last for late fall and winter use. It is also a good sort for table use. Of course, it should be fed in conjunction with other food, and in this way it will enable any dairymen to reduce his feed bills twenty-five per cent., and will increase his milk supply from twenty to thirty per cent. A trial will convince. Two pounds per acre. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. 1.50.

Gold Nugget. A most distinct variety of early maturity. The flat roots average two and a half to three inches in diameter and the skin is a rich deep orange-yellow, very smooth and entirely free from small pores. The firm solid flesh is fine grained, crisp, light orange-yellow in color, and has a flavor which is more satisfactory than any of the early white-fleshed sorts. Especially recommended for planting in the home garden, as no other turnip has so sweet a flavor. Very profitable for the market gardener. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. 2.00, postpaid.
Moore's Superior Farm Seeds

Save Money by Growing Your Own Pasture, Hay, Straw and Grain.

Holland Rye Grass

The uncrowned king of grasses for all soils. This quick and best grass for pasture, the quickest and most productive for hay.

It is a grass for all countries, the Eastern, the Southern and the South-East, the grass for New Jersey, Pennsylvania, Maryland, Virginia, and the Southern States. It is the best for the entire South. Yes, for each and every state of the South; in fact, any and everywhere where you are apt to have long stretches of dry or wet soils, one must not think that it does not do well on soil where it will not grow, because it is adapted to any soil and moisture, for on such soils its magnificent, luxuriant growth comes in to fill the place, equally as nourishing as Timothy or Orchard Grass.

The experimental farm at Cheltenham, Victoria, Australia, says: "We have grown Holland Rye Grass successfully, and we think it is the coming grass. It is green from the middle of March to about November.

It is the great grass for all climates. It will grow on all kinds of soil, even on yellow sand, and is equally good for pasturing, curing into hay or cutting green. All kinds of stock eat it readily, and it is very rich in nutritive value. This is the best grass that has yet been tried at this station. When properly sown it catches well, giving immense crops the first year; and if properly taken care of, it may be expected to raise an ample supply of seed on well prepared ground as early as possible in the spring. From two to two and one-half bushels should be sown to the acre, depending somewhat upon the season and condition of the soil. The abundant forage is of excellent quality and, under ordinary circumstances, a large amount of hay may be obtained, in addition to a good yield of stock. Thus far the grass has endured drought in the South perfectly and has never winter killed. On our own fields, where we have now for three years, and Holland Rye Grass attains a height of six or seven feet.

When we were in Europe it was most positively impressed with the future of this grass. In Holland and Denmark where same is at home, they cut it three times for hay, and it is not an unusual thing to get three tons of extremely nutritious hay per acre; in addition to this, good pasture late in fall. As a quick pasture for dairy cattle it has no equal. Now, what it can do in Europe we are sure it can do even in a greater measure here in America, for we have soils that are peculiarly adapted to it. We have grown it in a small way mixed with Giant White Clover, for both pasture and hay with highly gratifying results. There is not an agricultural college anywhere that has tested same but endorses it emphatically.

We consider it the best grass for all soils, but, by all means buy our imported seed. Culture is the same as in sowing Orchard, Perennial Rye or Kentucky blue or Red Top. You should sow early in the spring, not sowing less than 50 lbs. per acre—40 lbs. is better. Sow plenty of seed at first sowing and you will get a big, heavy, splendid start at once that will last for years. Don't buy hay, you can grow it much better and cheaper. Scenic, clean, heavy seed, postpaid, 1b. 15c., 3 lbs. $1.25 by express or freight. 1b. 35c., 10 lbs. $2.50, 50 lbs. $11.00, 100 lbs. $20.00.

EARLIEST RUSSIAN MILLET

The earliest and most valuable of all the millets. It is considered equal, and some say superior, to Timothy Hay. It has numerous succulent leaves which furnish an abundance of rich green fodder for stock to live feet and make a high grade of hay, and its kernel has been shown to produce fifty fine strong stalks, just the size that are in great demand and eagerly bought by cattle, and it is not for common use, but as it is very early, it is equally valuable for a hay crop.

EARLIEST RUSSIAN MILLET is positively the most remarkable, leafy, bushy, vigorous, earliest millet in the market, a farmer who obtained a bushel last year, and from the same cropped 35 tons of hay, and bad lots of seed besides, said: "It is surely worth its weight in gold to get a start with. Every farmer will be delighted, and pleased, and astonished, and profits, by sowing our Earliest Russian Millet. It will make a magnificent crop of hay if sown immediately after your corn or Rye, or Wheat is cut, as it will ripen in from 80 to 90 days. Sow from 25 to 50 pounds per acre. 1b. 10 lbs. $1.50, 25 lbs. $3.00, 50 lbs. $5.50, 100 lbs. $16.00.

Mennonite Prolific Giant Spring Rye

Distinct and Valuable

Most productive sort. Distinct from the winter rye, grain of fine quality and more productive than any other rye grown in any latitude and is now being largely sown in the Middle States in place of oats, being a much more profitable crop on account of its producing about four times the straw and also a catch crop where winter grain has failed. The straw stands stiff, 7 to 8 feet high, produces 35 to 50 bushels of grain per acre; as it does not require so much moisture as the winter rye, a farmer can cut the Mennonite Spring Rye Straw per acre is double that of winter rye, and is worth more than that of oats and its straw combined.

If we could introduce here one tenth of the letters that we get from farmers thanking us for introducing to them our Prolific Giant Spring Rye, it would do your heart good to reflect how many farmers are raising wheat, oats, corn, grasses, etc., and know that there is no other better. We now make it a great deal of money out of our Mennonite Prolific Spring Rye. This rye is grown on our farms in Pennsylvania, and New Jersey and is a heavy, hardy, filling order, but this year have a couple of thousand hushes more, and we hope that orders will be sent in early so as not to disappoint anybody.

This magnificent rye is of recent introduction, and it has proven to many of our farmers, a better money-maker, a sturdier, better filling corn, and yielded from 10 to 30 bushels per acre more. It is a magnificent sort.

As a Catch Crop, and found it splendid. It gave us a yield of over 40 bushels per acre. It is one of the very best things to sow for a catch crop, as it always gives good yields. Price of our Mennonite Prolific Spring Rye: Ph. 90c., b. $3.25, 25 b. $6.50. Large buyers will be quoted special prices on application.
Sudan Grass

A New Forage Crop of Immense Value to the Farmers of the United States

SUDAN GRASS AND ITS VALUE

Hoard's Dairyman says that possibly no other crop ever introduced into the United States became so generally popular in so short a time as Sudan Grass. It has been in this country only a little more than 8 years, and if it has ever made any progress it is largely due to its keeping its feelings to itself. Its friends are many, not only in Texas, where the great bulk of the crop is grown, but practically every other state in the Union, and when fed to various kinds of live stock it is relished by all. The enthusiasm of those who have seen it spreads like wild fire, and it is not a wonder when it is stated that for Sudan Grass it is simply because he has not seen the crop grown or has not been able to secure the seed.

IT GIVES a highly profitable yield of palatable, nutritious hay. It is adapted to practically every soil type and climate condition to be found in the United States southern tier of states. It has been appreciated in the Middle and Southern States because it is an annual grass crop which may be rotated with corn, cotton or other crops in a manner such as clover.

IT IS appreciated because of its wonderful drought resistance and consequently heavy yielding qualities under semi-arid conditions. It is appreciated in many parts where types of soil and other conditions are not favorable for timothy and clover crops. It is also destined to be grown in timothy growing sections, for the reason that a more profitable yield can be obtained by such a crop than under timothy of the same season. In the Western States under irrigation it is outstanding alfalfa.

THE YIELD of seed varies from 200 to 1200 pounds to the acre. It is regarded as the most valuable hay grass ever grown in this country; it is extremely bushy and attains a height of from 5 to 8 feet and furnishes an endless amount of magnificently and highly nutritious hay, and of from 5 to 9 tons per acre is not unusual. We recommend it for trial and give the unqualified endorsement.

ANOTHER POINT which speaks well for Sudan grass, is that when grown for seed and the seed threshed off. Work horses, milch cows and dairy cattle eat it readily. Sudan grass is very tender and palatable, and has a sweetish taste and pleasant odor which cause it to be relished by all kinds of farm stock, and very especially dairy cows.

DAIRYMEN ARE PROUD of Sudan Grass because they feel that it means more for the dairy business in the United States than has been done in behalf of the industry for many years, and we therefore commend this crop to every milk producer in the United States, south of the northern tier of states.

SUDAN GRASS AND LEGUME MIXTURES

The suitability of Sudan grass for growing in mixtures with cowpeas, soy beans, and other legumes is at once apparent, for several reasons. Sudan grass is an annual and thus is at all times a variable type; it produces a root and seed crop the same year, unlike timothy. It produces forage and seed in the same field, which is a decided advantage for the dairyman who desires to have a plenty of legumes in his forage crop. A mixture of Sudan grass and soy beans can give a yield of 4 to 12 tons of cured nutritious hay per acre.

SEEDING Sudan Grass should not be planted until the soil has become warm in the spring. It can be sown any time during the summer as a catch crop as long as 40 to 50 days intervene before a hard freeze occurs. Sow seed in rows 12 or 18 inches apart and cultivated corn, or it can be drilled with a grain drill or sown broadcast by hand. If sown thickly, use from 10 to 15 pounds of seed per acre; this gives an excellent stand because of its wonderful stooling habit, one seed producing from 20 to 300 stems of ears and it has a record of 500 stems from a single seed. A well mixed seed is best. At the Arlington Farm, Virginia, the mixture of Sudan grass and cowpeas has given yields of 434 pounds of cured nutritious hay per acre.

HARVESTING It can be cut by a mowers and curb readily the following season, and is thus a good horse hay. It is one of the most valuable forage crops in the world. Sudan grass is a self-sown crop and is ready for cutting in 12 to 14 weeks after full bloom. After cutting it renews itself promptly. In about 40 days another cutting is ready. In 1924 our cuttings were secured in Texas. Ordinarily two or three cuttings may be had in the central United States.

PRICE OF PURE Northern Grown Seed: 1 lb. 50c., postpaid; 10 lb. $2.50, 50 lb. $10.00, 100 lb. $20.00.

BILION DOLLAR GRASS

A Remarkable Grower and Quick Producer

It is truly the most marvelous grass the most luxuriant stover that has ever been seen. Just imagine a field sown to BILLION DOLLAR GRASS, yielding from 30 to 50,000 pounds of as rich, green fodder as the world has ever seen. If you sow early this grass will quickly spring up again and give you another yield that will astonish the country. The grass can be cut for hay; then the field will give you pasture for all fall long, and the hay, sheep and cattle can eat it greedily.

It will produce a hay crop in from six to ten weeks anywhere, and if sown in the latter part of April will be ready to cut the middle of July for hay, attaining the height of exceeding to the richness of the soil from 5 to 7½ feet. It is preeminently the grass to sow if you are going to be short on hay for your horses, cattle and sheep. Few, Williams, of the United States Department of Agriculture, says: "Already widely grown as hay crop, it deserves more general use for soil ing and is valuable for feeding to dairy stock and sheep. If you wish to feed your cattle a fine hay, and have strong, rich ground, sow at the rate of 25 pounds per acre.

FAMOUS BILLION DOLLAR GRASS

FOR HAY—Cut just when in bloom—rather sooner than later, as it makes better hay without the seed heads than with them. The hay is then healthier and of finer quality. In curing, we treat as we would a rich field of clover. 1 lb. 10c. postpaid, 1 lb. by freight or express 25c., 10 lbs. $2.00, 25 lbs. $3.00, 50 lbs. $6.50, 100 lbs. $12.00.
An Agricultural Wonder
Best in the World.

New Zealand Oats

It will Pay You Big to Change Your Seed Oats This Year

It will pay you to sell your common Oats and sow these improved varieties this year while the seed is so cheap. In our field the New Zealand Oats yielded about 100 bushels to the acre, and the Lincoln varieties, while neighboring fields of other varieties under similar conditions yielded only 40 to 50 bushels. The increased yield on a few acres will cover entire cost of seed for your farm.

New Zealand Oats

Progressive farmers who have grown them pronounce them to be the most valuable ever grown in America. It contains more new blood, hence more vigor and producing qualities than any other Oat we know of. New Zealand Oats not only produce a yield over other sorts, but with careful attention the farmer can raise a second crop.

GROW WONDERFUL ARABIAN CORN

FOR Poultry

Can be planted and thrives anywhere in the United States and is the cheapest food for poultry. Stalks grow four feet high and produce numerous heads of grain 4 to 5 inches long. The yield of grain is simply enormous, averaging about one pound when fully ripe. It can be used as an egg producer and for stock feed. It is a wonderful health producer for all poultry and pigeons. One acre will feed a cow or dry. 5 pounds will plant an acre. Unaffected by drought or dry summer. Now in 3 foot rows. Pkt. 10c. (1 lb. 50c., postpaid), 10 lb. $5.00.
MOORE'S FAMOUS BLACK NORWAY OATS

Seed Stock Imported Direct from Bergen, Norway

Few farmers are aware of the fact that the best black oats in the world is produced among the Fjords of Norway facing the Arctic Ocean. It is here that the black oat is cultivated to its greatest perfection as to yield, weight, quality and freedom from disease. Our stock seed was obtained direct from Mr. Hanso Hjort, who has devoted two decades to developing his favorite strain of "Hjort's Frei Braun." Mr. Hjort has, on carefully prepared land, raised as high as 31 1/2 bushels (by weight) per acre of his truly wonderful oats. Our own and other tests the past season showed a yield of over 200 bushels per acre. Any farmer can secure the same enormous yield under the same conditions. An acre of ordinary land on your farm that will only produce 55 bushels of common oats will readily yield 100 bushels of our Famous Black Norway Oats.

We do not feel backward in pushing this Famous Black Norway Oats, because we have seen such marvelous yields of this variety the past summer that we know any farmer can make lots of money sowing it. There is nothing like it in earthiness in any other kind of black oats that we know of. Our crop was ripe and stacked before any of our neighbors. The wonderful yield of this remarkable oats, as well as its resistance to the elements, is very largely due to its wonderful stooling habits. We have seen single kernels produce 102 strong, healthy stalks. Every farmer knows that when an oat stands, its yield is increased in proportion. Take an oat that does not stand and it cannot produce as heavily. Many samples of this seed often weigh 55 pounds per measured bushel.

OTHER REASONS WHY YOU SHOULD PLANT IT

First—Drought Proof. It matures so early that the crop can be gathered before dry summer weather sets in. No sort we ever heard of so completely and thoroughly withstands the dry weather.

Second—Feeding Quality. No variety equals it in superior feed quality. All kinds of stock prefer eating it to any other.

Third—Profit that Interests You. It makes farming profitable in every state and territory in the United States. Your neighbors will want it if they see or hear of it. They will pay you an extra price for it.

Fourth—The Last Forty Bushels. It is the last 40 bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre, and this gave you 70 bushels, the last 40 bushels would be the profit; but if this gave you 150 bushels, it is very easy to figure out great profits on 100 acres or more. Try it and convince your neighbors.

Fifth—Many More Reasons. It comes from a country where rust does not exist. The low price we sell it for ought to induce every farmer to plant it. Its wonderful stiff straw holds it up like a wall where the wind and rain beat other sorts flat. Yield, which is enormous, some say 70, 120, 150, and others 200 bushels per acre.

If we had more room we would tell you more

PRICE OF
Moore's Famous Black Norway Oats

Large plats, 15c., 1b. 50c., 3 lbs. $1.25, postpaid; by freight or express, pk. $1.75, 10 lbs. $15.00, 20 lbs. $35.00, 25 lbs. $40.00.

215 BUSHELS PER ACRE

Moore's Famous White Norway is an exact counterpart of the Black Norway—and price the same.

LARGE OATS YIELDS

The Bureau of Crop Estimates conducts an annual inquiry as to the largest yields per acre of various crops produced on single fields or plots in different parts of the United States. Many reports are received, the endeavor being to publish none whose approximate accuracy has not been verified and verified for, at least by the farmer producing the crop.

For the year 1916, the largest reported yield of oats thus far so verified are as follows (bushels of 32 pounds):

142 bushels per acre from 3 acres in Eagle county, Colo.; 127 bushels per acre from 3 acres in Grand county, Colo.; 126 bushels per acre from 22 acres in Clackamas county, Ore., and 120 bushels per acre from 9 acres in Lemhi county, Idaho. Reports from other sources show as much as 250 bushels of 32 pounds each per acre.
GIANT RUSSIAN POULTRY CABBAGE

Specimen heads have been grown to weigh 50 pounds. This is probably the best discontent winter food for poultry in the world and equally good for the warmer months when poultry of any kind is closely confined. It is a wonderful egg and health producer and has a delicate pleasant flavor to the flesh. Ducks, geese, turkeys and chickens eat it with great relish. 50,000 pounds per acre is not unusual in some cases. It is much more cold than ordinary cabbage. Every poultry grower should plant this wonderful cabbage for winter use. It can be kept during winter as well as ordinary cabbage. It is a money-maker for all poultrymen who feed it. Cultivate same as other cabbage.

HOLT'S MAMMOTH SAGE

The plants are of strong growth, attain a height of 1 foot, the heads are round and spread so that a single plant covers a space 3 feet in diameter. They are perfectly hardy, and make a still larger growth in the second season. Our illustration shows a leaf of natural size. The outer leaves above the ground, are strong with flavor, of unusual substance and of superior quality. It does not seed.

Price, 1 oz., 6c.; 1 oz., 25c., 1 lb., 50c.; 5 lbs., 25c. per lb., postpaid.

GOOD THINGS FOR THE POULTRY KEEPER

NEW CHINESE WINTER EGG BEET

Thrives on any soil and anywhere in the United States, and is the most valuable winter egg producing poultry feed for sale known. It is especially valuable for feeding to the chickens that are confined to small enclosures and to such small poulties as are raised the year round. The culture is simple, same as for ordinary field or garden beets. Both the roots and tops are eaten with great relish by all the chicken the whole year round. It will be found a wonderful egg producer the year round as well as the cheapest and most valuable winter food. It will enable you to cut your grain rations in one-half. Four pounds will plant an acre. The roots can be preserved during the winter under a layer of sand, turpents or potatoes. Culture same as for garden beets, and the yield per acre may easily exceed 1,000 bushels. The leaves are a pale golden yellow and it is the most productive and most profitable feeding all the beets. It is likewise an excellent crop for the kitchen garden. Plant same time as field corn. It is not a strong beet, but a very healthy, strong, and it will fit you best. Feed it freely and keep your chickens in perfect losing vigor and health. Pkt. 5c., 1 oz., 15c., 1 lb., 35c., 1 lb. $1.25.

BELGIAN POULTRY BEETS

The cheapest and best form of green food for poultry. Will thrive on any soil and require the same care as other beets. The heads are greedily eaten by all kinds of poultry. In Belgium, where the production of the finest flavored bouquet is produced it forms a large part of the daily ration. It also keeps the birds in a well fed condition. Green foliage should always be fed in connection with grain and meat. Fed low, it can be cut in half or less by feeding this wonderful forage.

The meat of all poultry fed on this beet top is remarkably sweet and tender, while the egg yield is greatly increased. If you grow poultry for pleasure or profit, and no matter whether your flock be large or small, it will pay you big to grow liberally of this wonderful plant. Sow in rows 2½ feet apart, thin to 6 inches in the row. Cut tops off 5 inches above the ground. The beet will sprout again and produce several crops in succession. Pkt. 10c., 1 oz., 15c., 1 lb., 40c., 1 lb., $1.50, by mail postpaid.

GREAT GERMAN HOG PASTURE SEED

The celebrated high priced world renowned hams grown in Westphalia, Germany, are principally produced from hogs fed on this celebrated pasture mixture, which is made up of annual varieties of grains and grass, at a very low cost. Hogs can be turned into it in about six weeks from time of sowing and such hog eating you never saw for growing hogs or brood sows. It is used as pasture and the hay is used as hay like pasture in the same manner. Sow 35 to 40 lbs. per acre. 25 lbs., $3.00; 50 lbs., $5.50; 100 lbs., $12.00.

HIGH GRADE TOBACCO SEED

CULTURE.—A very clean piece of land is best for the tobacco plant bed, hence it is customary to burn a piece of land in the woods for same. This destroys grass, weeds and insects, adds fertility through the action of the wood ashes, and leaves the ground in good order. When large enough and weather is settled (about June), set the plants out in highly manured or fertilized soil in 3½ ft. rows, 3 ft. between the plants.

SELECT VARIETIES

IMPROVED HESTER.—For wrappers, cutters, fillers or cigars. It has a finely long leaf of medium width, and cures bright. Adapts itself over a wider range of soils and climates than any other variety. Pkt. 10c., oz., 50c.; 1 lb., $1.75.

Havana Imported Aboajo.—The finest, silkiest and highest flavored Havana tobacco grown. To produce it to perfection the land should be rich and comparatively fresh. Best imported seeds. Pkt. 10c., oz., 75c.; 1 lb., $2.50.

Persian Rose Muscavelle.—Introduced from the gardens of the Shah of Persia. A rich, waxy tobacco. Pkt. 10c., oz., 75c.; 1 lb., $1.50.

STERLING.—One of the earliest to ripen and one of the best for all purposes. Pkt. 10c., oz., 50c.; 1 lb., $1.25.

SWEET, or LITTLE ORONOKO.—Makes the finest fillers and the best natural chewing leaf. Cures a rich red; long and narrow leaf, tough and waxy. Best adapted to rich red and clay soils. Pkt. 10c., oz., 40c.; 1 lb., $1.25.
NEW SMELTED NEW STRAWBERRIES

We are greatly pleased to offer our customers some new strawberries of real merit, an improvement over many kinds being offered by other dealers and growers. We are able to show a large number of varieties and have successfully grown all the best kinds found in the United States and Europe. We have not many, but they are peculiarly adapted to the area in which we are located, and we have found that the best and most profitable results have been obtained from the above kinds. We have selected some of the best of these kinds and are prepared to recommend them highly. The strawberries we offer are those that have given us the best results and are the strangest and most productive of the kind. We offer them for sale at prices ranging from $1.00 to $2.50 per pound, and we have found that they are the best and most profitable kind of strawberries we have ever grown.

If you are looking for a strawberry that will produce large and heavy berries, and that will be productive in all parts of the country, we recommend the following varieties: 

**Pine Apple**

This is a new variety that has been introduced recently. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**Corsican**

This is a variety that has been grown in the United States for many years. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**Lupton's Supreme**

This is a variety that has been grown in the United States for many years. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**Early Jersey Giant**

This is a variety that has been grown in the United States for many years. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**Americus-Bisexual**

This is a variety that has been grown in the United States for many years. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**Progressive-Bisexual**

This is a variety that has been grown in the United States for many years. It is a strong grower and produces large and heavy berries. It is very productive and is recommended for all parts of the country. The price is $1.00 per pound.

**New Fall-Bearing Strawberries**

A new departure in this, the most delicate of fruits. The Fall-Bearing strawberry is a decided success and is making a great hit with the amateur and a sure source of big profit for the professional grower. The strawberries are strong, solid, and hardy, and are the best kind of strawberries we have ever grown.

If you are looking for a strawberry that will produce large and heavy berries, and that will be productive in all parts of the country, we recommend the following varieties: 

**Pine Apple**

**New Fall-Bearing Strawberries**

A new departure in this, the most delicate of fruits. The Fall-Bearing strawberry is a decided success and is making a great hit with the amateur and a sure source of big profit for the professional grower.
Moore's Earliest of All Strawberries

The most valuable production of the age. The most wonderful and remarkable large berry ever introduced. Absolutely the earliest large strawberry in existence. Immense size, prodigious yield, delicious flavor. Plant strong, luxuriant and healthy. Flow- ers bi-sexual.

Has Produced 16,000 Quarts to the Acre

Every market gardener who plants it largely is insured handsome profits. On account of its beauty and fruits, it is the best of all strawberry varieties for the home garden. It always commands the very highest market prices. The chief advantage it has is due to its hardness; the buds form late in the fall, and remain unaffected by frost even in the most severe early spring frosts—a remarkable thing. The fruit is produced before the leaves in the spring, and are not affected by any frost during winter, no matter how severe. This valuable variety does remarkably well on poor, thin land, while on heavy soil the yield is simply prodigious. In its vigor it usually commences bearing about May 5th to 9th, and continues producing large, full-budded, well-shaped berries of delicious flavor long after all other varieties are exhausted. The plant is a good grower, with dark green foliage and nearly rust-proof, extraordinarily productive even in light soil; the fruit is borne on long stems of large size and of a most brilliant scarlet color. The flavor is slightly tart, but very good; a grand berry for the private garden, where it gives a color and general excellence making it a fine dessert fruit. It is especially adapted for long distance shipping and we especially recommend it to southern growers. Every berry grower, north, south, east or west, should plant it.

Warfield Prize

(Bi-sexual; early to late)

Regarded by the great strawberry growers as the best variety for general use, for either the family or for market. In the New York market it commands a higher price than any other, owing to its uniform size, delicious flavor and handsome appearance. In a two-acre plot of it, we could not find a malformed berry; every one was perfect and as even in size and form as if turned out of a mold. It ripens uniformly, not a green tip is ever to be found on it; the color when ripe is a glossy crimson scarlet. It is medium in size, juicy and sold to the center and of a delightful flavor; in fact, this is one of its excellencies, and is the cause of its having been in demand by the finest hotels and private families in New York since the fruit was first sold there. It is an all-season berry, ripening early and bearing late, perfecting its fruit to the last berry of the season. It is an abundant bearer, yielding as much per plant as the most prolific, and on account of its prolonged fruiting is more valuable than those which perfect their crop in a shorter period. After a close study of it for the past two years, we are convinced that it has no rival as a good all-around strawberry for the family or market—one that is certain to give satisfaction. 

Kevitt's Jubilee (New)

(Bi-sexual; Mid-season to late)

A tall, luxuriant grower, with large, dark green foliage, free from rust or disease, very prolific, enduring extremes of heat or cold. It will grow on any soil the same as the Crescent. The fruit is produced in great abundance on tall, stout stems which stand up from 6 to 8 inches the entire season, holding its load of berries from the ground so they do not get dirty, rotten or scalded. It is beautifully colored, being of a dark, glossy red, which alone will make it an ornament for any table. They are so beautiful in appearance that the moment they are put on the market they will sell for the highest price. The flavor is delicious and very sweet; being one of the sweetest strawberries, it can be called the honey strawberry; while the color and aromatic flavor, resembling that of the wild strawberry, makes it one of the most delicious of berries.

Lucky Boy (New)

(Bi-sexual; late)

This new variety is indeed a wonder. It will not succeed upon thin sandy soil, but requires loam or clay-loam; and demands high culture. The berries are very large and beautiful, with smooth, even surface and prominent seeds. The color is bright lively crimson, and the prevailing form is heart-shaped with pointed tip, though some are oval and comb form. Flesh firm, quality very good. Plants vigorous and healthy with large foliage but multiply sparsely. Each market one has the rime-ear of strawberry hang and will give it high culture, it is always exceedingly profitable. A number of growers in the vicinity of Philadelphia have made small fortunes from it in the past two years. The berries, which were largely sold in New York City, have been so fine, it has been given the name of "Pride of New York" in the markets there. We have a large stock of beautiful plants of this remarkable fine late strawberry. Doz. $1.00, 25 $1.25, 100 $4.00, 250 $7.00, 1000 $12.50, postpaid.

Guarantee—We guarantee our plants true to name, well-rooted and from new beds that have never fruited; if they prove not to be so, we will replace them free of charge. While we do not claim to raise better plants than anyone else on earth, we do claim that we raise them better than some, and as good as the others.
Small Fruits

There is only one way possible to succeed in fruit growing, and that is to plant the right varieties. It does not matter how good your market is, or how well your soil is adapted to fruit, or how hard you work, you are bound to fail unless you plant varieties that will produce the kind of fruit you want in paying quantities. We have gone over the long lists of varieties year after year, adding to and discarding until we have a list that cannot fail to do well. We have worked the problem out and we are sure we can help you. We have laid the foundation for success for hundreds of our customers. We want to lay the corner stone in the foundation of a successful career—fruit growing. You can succeed. We will help you—with advice, good plants and the right varieties. We are at your service. This year our plants are very fine and our stock is large, as is possible we advise on all the plants to be shipped by express. Note, our plants are first-class, full of flavor, and worth double the price of many on the market. Besides, they are the varieties that will make you Money.

Blackberries

DICKEL'S EARLY HARVEST. The earliest blackberry to ripen. Exceedingly hard and of great merit. Fruit jet black, glossy, deliciously sweet and fine flavor. Size a trifle smaller than the Blackcap. Has a record of extreme earliness and great productivity. Our plants are fine and true to name. Genuine stock is very scarce. Each 20c., doz. $2.00, 100 $12.00.

KENOYER, No. 1. A prodigious bearer of very showy fruit, of the best quality, as a rule in season from mid-June to early August. A very fine variety. Each 20c., doz. $2.50, 100 $12.50.

BLACK DIAMOND. The fruit is jet black and firm, and will not break when frozen. It produces a large amount of fruit after it has been picked. It has an exceptionally fine flavor, spicy and melting. The berry is about the size of the Kenoyer or Eldorado, an abundant bearer, frequently perfecting as many as 2,000 berries on one vine and frequently as many as nine quarts have been gathered from a single vine. OUTLASTS ANY OTHER. Most Blackberries decline in productivity after the fourth or fifth year. The Black Diamond will bear well for twenty years. I have a field of Black Diamonds now in its fifth year, bearing its best crop thus far, and are all strong, healthy, vines. Each 20c., doz. $1.75, 100 $5.75, 1,000 $40.00.

ELDORADO. This early delicacy is highly recommended by growers and experiment stations everywhere. It is an abounding berry of large size, fruiting in numerous pendulous large clusters, with few dots. Color black, flesh deep crimson, flavor sweet and distinct, rich quality. One of the finest. Each 20c., doz. $1.50, 100 $4.50.

RATHBUN. Large, an intense jet black, very glossy, never turns red. Small seeds, extra fine quality, with a peculiar rich aroma. Yields abundantly, and ripens early. Forms a compact bunch, 2 to 3 feet high. Has 4 to 6 fruiting canes per foot high. Each 20c., 100 $4.50, 1,000 $40.00.

WARD WONDER. An early fancy. Good, medium, and melting. Average yield 200 bushels per acre. Canes very hard. Cunes 4 to 5 feet high. A grand profitable variety. Each 20c., doz. $1.75, 100 $5.00, 1,000 $40.00.

AMBROSIA. Lucious large fruit, very rich quality. Very early, yields uniformly. Per 100 doz. $3.00, per 100 $30.00. As a money maker it cannot be exceeded. Each 25c., doz. $2.50, 100 $10.00.

PRIMOS DEWBERRY (NEW). Ten days earlier than Lucretia. Uniformly large, glossy black, finest quality, sweet and of unequalled excellence. Cannot be outdone in quality and size uniform. Each 25c., doz. $4.50, 100 $45.00, 1,000 $330.00.

RASPBERRIES

(King's Haymaker. This valuable new raspberry is certainly the greatest acquisition of years in raspberries of its class. From actual figures, Haymaker returned a net profit of over $300.00 per acre last year. Growers cabled money from it. The Haymaker is a purple-cupped, Kinnear Cardinal or Old-fashioned type. It was grown in its first spring. Haymaker is a leader. Our stock is genuine. Each 25c., doz. $2.50, 100 $10.00.)

MOORE'S RUBY. Pronounced by beginner to be the best-berried variety to grow for profit. Color a beautiful bright red. Ripens with the earliest and continues picking a long season. Exceedingly firm and of good flavor. Often sells for 20c. per quart. Each 25c., doz. $2.50, 100 $8.50.

KEVITT'S BRILLIANT CRIMSON. The berries are very large and in a sense a berry like the New Cross and a great market variety. Every grower should have it. Each 25c., doz. $3.50, 100 $20.00.

ST. REGIS EVERBEARING. Berries from June until October. Raspberries for four months! That's what you get when you plant St. Regis—the new everbearing raspberry. Moreover, they are of the very highest grade—indubitably brilliant crimson color. In firmness, in flavor, a shipper. Stocked in all soils and even in cold heavy clay. Price per 20c., doz. 1.50, postpaid; 100 $5.00, 1,000 $40.00 by express.

GOOSEBERRIES

Extra Strong Two-year-old Transplanted Stock.

DIXON'S PEARL. Large size, immensely productive. Each 25c., doz. $2.50, 100 $17.50.

WHITE GRAPE. The finest and handsomest fruit in the market. Some call it a new variety. Each 20c., doz. $2.25, 100 $16.00.

HOUGHTON. Berries medium. Color, pale red. Each 15c., doz. $1.00, 100 $8.00.

RED JACKET. The fruit is large, and of fine quality. Each 25c., doz. $2.50, 100 $25.00.

CURRANTS

Single and dozen postpaid.

"PERFECTION." Beautiful bright red. Fruit larger than the Fay. Bunch large and full. Each 50c., doz. $5.00, 100 $25.00.

WHITH "PERFECTION." Beautiful bright red. Fruit larger than the Fay. Bunch large and full. Each 50c., doz. $5.00, 100 $25.00.

BLACK NAPLES. The best black. Each 40c., doz. $4.00, 100 $25.00.

FAY'S PROPHET. Each 40c., doz. $4.00.

MOORE'S NEW RED CROSS. Beautifully bright red, fine large bunch berry, unusually large. Each 50c., doz. $5.00, 100 $30.00.
Moore Seed Company's Select List of Extra Quality Flower Seeds

QUALITY—PRICES. Do not confound our high quality Flower Seeds with the usual imported grades sent out by other houses, which are grown cheap, sold cheap, and are in every way expensive to the buyer. Our seeds are cultivated with a view of obtaining the highest possible mark of perfection and to supply a class of people who want nothing but the very best. We have made the price as low as possible consistent with the high quality of all the seeds herein offered.

We give very close attention to our Flower Seed Department, and we have gone to much trouble and expense to improve the leading specialties, such as

ASTERS, CINERARIAS, CYCLAMEN, MIGNONETTE, PANSY, PHLOX, PETUNIA, PRIMULAS, CALCEOLARIAS, STOCKS, VERBENAS, ZINNIAS and many other classes, and they are now grown by the most critical florists in the country.

Purchasers will find our superb mixtures of the above to be of unexceptional merit, which cannot be obtained elsewhere.

A TRIAL ORDER will convince anyone of the high quality and superiority of our varieties. Florists, especially, will derive great benefit from buying their flower seeds from us.

We allow Florists and Market Gardeners a discount of 33½ per cent. on seeds quoted by the packet. Trade packets, ounces and pounds are net. We do not furnish ½ trade packets except where noted. Fractions of an ounce are furnished at a slight advance over the ounce price.

ABUTILON

15 Magnificent New Giant Flowering Hybrids, Mixed. Handsome varieties only, comprising many flowers—over 3½ inches across. Saved from a splendid collection. Seedlings bloom in six months. Pkt. 25e., trade pkt. 50c.

ACHLEA

25 Giant Pearl. White; blooms all summer. Excellent for summer cut flowers; flowers first sown if sown early. Early good stock. 15c., trade pkt. 50c., oz. $2.50.

ACRINUM (Everlasting Flowering)

31 Double White. White and Red; for pots. Trade pkt. 15c., oz. 40c.

AGERATUM

62 Little Blue Star. (Cope's Improved) Light blue with golden eye; mat forming, free and constant bloomer. Pkt. 10c., trade pkt. 50c., oz. 80c.

ALYSSUM

63 Blue Gem. Beautiful, large dark blue flowers; profuse bloomers; good for pot culture; 6 ft. Pkt. 10c., trade pkt. 25c., oz. $1.00.

64 White Gem. White flowers, profuse, for pot culture; 6 ft. Pkt. 5c., trade pkt. 15c., oz. $1.00.

65 Dwarf Blue. 8 in. Pkt. 5c., trade pkt. 15c., oz. 60c.

ANTIRRHINUM

70 Maritimum. White trailing; 8 in. Pkt. 5c., trade pkt. 10c., oz. 20c., 1 lb. 60c.

71 Carpet of Snow. (Dwarf Bouquet.) Pure white; grows only 2 to 3 inches high and flowers profusely in fact. It is a perfect carpet of snow throughout the season. We have counted as many as 300 heads of show white flowers open on one plant at one time. The best sort for pot culture (see cut). Pkt. 10c., trade pkt. 30c., oz. $1.50.

72 Little Gem. (Tom Thumb.) White; 4 in. Pkt. 5c., trade pkt. 15c., oz. 50c., 1 lb. $1.50.

73 Saxatile Companum. (Basket of Gold.) Beautiful golden-yellow; 1 ft. Pkt. 5c., trade pkt. 20c., oz. $1.00.

74 "Blue Queen." Distinct new variety of the annual Sweet Alyssum with pure blue flowers. The plants are of dwarf compact, upright growth, similar to our Carpet of Snow and resemble, when in full bloom, a flax Candytuft. Equally as useful as usual pot culture, culture-bedding or bedding as the other white flowering dwarf varieties. A very attractive and salable sort. Pkt. 10c., trade pkt. 25c., oz. 75c.

ANTIRRHINUM (Continued)

119 Sutton's Giant, Double Yellow. Flowers of a brilliant golden yellow and eclipse all others in size. Pkt. 10c., trade pkt. 30c.

120 Semi-Dwarf, Mixed. 15 in. Pkt. 5c., trade pkt. 25c., oz. 75c.

121 Veracanea Hybrids, Dwarf Mixed. Remarkably gorgeous colors in endless variety; surprisingly beautiful; unsurpassed for pots; 10 in. Pkt. 10c., trade pkt. 25c., oz. $1.50.

122 Sutton's Giant, Gems, Mixed. Comprising only large-flowered, most rare and choicest novelties and most brilliant colors of the famous hybridizer. Pkt. 10c., trade pkt. 30c., oz. $2.00.

ANTIRRHINUM SPECIAL LARGE FLOWERING GREENHOUSE VARIETIES

Magnificent large showy flowers on extra long spikes.

124 Crosswick's Pink. Delicate soft creamy pink. Pkt. 15c., oz. 25c.

125 Crosswick's White. Pure white, superb flower; immense blooms, Pkt. 15c., oz. 25c.

126 Crosswick's Yellow. Magnificent orange. Pkt. 15c., oz. 25c.

127 Silver Pink. (New.) Delicate pink on white ground, long spikes, flowers of purest p r e m u m . Pkt. 15c., trade pkt. 50c.

128 Scarlet Plane. A self brilliant fiery scarlet; a most striking color. Pkt. 15c., trade pkt. 50c.

129 Gold Crest. Soft rose pink, tinged red salmon, with golden omegelope. Pkt. 15c., trade pkt. 50c.

1-Packet each 6 Special Greenhouse varieties, $1.00.

ASPARIAGUS

146 Pupinum Numus. Pkt. 10c., 50c. per 100 seeds, $3.50 per 1,000 seeds, 5,000 seeds $16.00, 10,000 seeds $28.00. Special prices will be quoted on large lots of 50,000 and upwards.

147 Sprengeri. Pkt. 10c., 25c. per 250 seeds, 75c. per 1,000 seeds, $3.00 per 5,000 seeds, $2.50 per 10,000 seeds.

148 Hatcheri. (Improved Type.) Of very dense, symmetrical, rapid growth. Beautiful fronds, much longer, and more lasting than a Phormium. Most excellent for pott or cutting. Pkt. 25c., 100 seeds $1.00, 500 seeds $3.25, 1,000 seeds $6.00.

ARCTOTIS

140 Grandis (Blue-Eyed African Daisy). This remarkable novelty is of easy growth, and quickly forms a bush two to three feet across with distinct silver-white, deeply cut foliage. Each plant produces an immense number of daisy-like flowers which measure two and a half to three inches across, and are silver-white, with a sky-blue eye surrounded by a narrow yellow zone. The under part of the petals is of bicolor, Hardy perennial, fine for cutting. Pkt. 10c., trade pkt. 35c.

ARHARIA

20 Gigantea (Giant Rose Sea Pink). Produces large globe-shaped flowers of a light rose color. Fine for borders and valleys, and as a cut flower. Very free after cutting; thrives in any well-enriched soil, Hardy perennial, blooming first season if sown early. Pkt. 10c., 3 pkts. 25c., trade pkt. 25c., oz. $1.00.

Asparagus Pupinum Hatcheri
MOORE’S FINE ASTERS FOR FLORISTS

Are Unsurpassed in Quality, Size and Color

All our Aster seed is grown by specialists of well-known renown, and florists and amateurs can rely upon getting better varieties and colors and higher quality and greater perfection in form and substance from us than from any other seed establishment in America.

We call particular attention to our Japanese Mammoth Flowers, chosen from all 8 dwarf types as being the finest sorts yet introduced of their kind. We also offer various other types of special fine Asters for florists not found in other catalogues.

All Asters require very rich, light soil, and in hot dry weather should be mulched with well rotted manure, and frequently supplied with manure water.

### Japanese Mammoth Flowered Branching Aster

PEONY-FLOWERED PERFECTION (Moore’s Improved)

A beautiful incurved type. Blooms are large, profuse and handsome, fine for bedding or pots, 18 to 20 inches high.

- **White Swan**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Perfection Rose**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Azure Blue**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Purple Cloak**, Pkt. 10c., trade pkt. 40c., oz. $2.50.
- **Dark Blood Red**, Pkt. 10c., trade pkt. 30c., oz. $2.50.
- **Superb Mixed**, Comprising all the above and many other showy sorts. Pkt. 10c., trade pkt. 30c., oz. $2.00.

GIANT LATE-FLOWERING BRANCHING ASTERS

Superior to any other class of late-flowering branching Aster, lengthening the Aster season until frost. The flowers are large, 4 inches across, are very double, of purest color, and borne on long stems. Strong flowers, 18 inches to 2 feet high, sound for cutting.

- **White**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Lavender or Light Blue**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Crimson**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Shell Pink**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Dark Blue**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Deep Rose**, Pkt. 10c., trade pkt. 30c., oz. $1.50.
- **Superb Mixed**, Six colors. Pkt. 10c., trade pkt. 25c., oz. $1.00.
- **Improved Victoria Asters**

- **White**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Rose**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Shell Pink**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Light Blue**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Dark Blue**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Superb Mixed**, Six colors. Pkt. 10c., trade pkt. 25c., oz. $1.00.

SUTTON’S GIANT COMET BRANCHING ASTERS

Flowers of immense size, often 12 inches high, with numerous medium size, very double flowers on long stems, which gives them an added value for cutting.

- **Salmon Pink**, Extra Fine. Pkt. 15c., trade pkt. 50c., oz. $2.50.
- **Snow White**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Bright Rose**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Deep Blue**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Crimson**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Superb Mixed**, Comprising the above and many other beautiful sorts. Pkt. 10c., trade pkt. 30c., oz. $2.50.

MOORE’S EARLY JUNE ASTER (Extra Early Wonder)

Highly valuable on account of their extreme earliness, blooming in June. Plants about 12 inches high, with numerous medium size, very double flowers on long stems. Valuable for cutting.

- **Snowflake**, Pure white. Pkt. 10c., trade pkt. 50c., oz. $2.50.
- **Rose Pink**, Pkt. 10c., trade pkt. 50c., oz. $2.50.
American Invincible Asters

DIAMOND ASTERS

The plant is of fine pyramidal shape and is one mass of bloom of the Ball or Jewel type, and keeps a long time fresh, producing from twenty to thirty large, beautifully-formed flowers of good size on each plant. Excellent type for funeral, decorative or small design work. Excellent for pots. 15 to 18 inches high.

244 Dark Salmon. Mottled with white. Pkt. 15c., trade pkt. 50c.

250 Perfection Rose. Pkt. 10c., trade pkt. 35c., oz. 35c.

251 Pure White. Very fine. Pkt. 10c., trade pkt. 35c., oz. 50c.

257 Lavender. Azure. Pkt. 10c., trade pkt. 35c., oz. 50c.

245 Dusty Blue. Rich rose. Pkt. 10c., trade pkt. 35c., oz. 50c.

252 A Crimson. Pkt. 10c., trade pkt. 35c.

252-B Superb Mixed. Pkt. 10c., trade pkt. 40c., oz. 2.50.

ENCHANTRESS ASTER

Its vigorous, upright habit of growth, the profusion of good, strong, flowering stems, together with the size and loose, graceful effect of the branching type of flower make this variety a very desirable acquisition. The beautiful, double pink flowers have the delicate shade of the Pink Enchantress Carnation. Unlike many other pink Asters, this variety holds its soft, delicate color for a long time without fading. The broad, flat petals give a soft effect which is extremely pleasing.

263 Enchantress White. Pkt. 15c., trade pkt. 40c., oz. 2.50.

260 Enchantress Pink. Pkt. 15c., trade pkt. 40c., oz. 2.50.

262 Enchantress Lilac. Pkt. 15c., trade pkt. 40c., oz. 2.50.

AMERICAN INVINCIBLE ASTERS

This valuable class is a wonderful achievement in Asters, a superior race in every way. The plants are of very healthy, robust, branching growth, about two feet high, producing, on long stems, massive, perfectly-formed flowers of perfect form and faultless outline, and exceedingly double, the very centre. The flowers are the most beautifully formed of all large Asters. The petals are of thick durable substance, and, in consequence, the flowers last long in perfection. These Asters are wonderfully prolific. When grown in masses in garden borders, or grouped in beds, their decorative effect is unapproachably gay and entrancing. When well grouped the flowers of our Invincible Asters average $1 \frac{1}{2}$ inches across; 4-inch flowers are quite common.

254 Snow White. Pkt. 10c., trade pkt. 40c., oz. 3.00.

255 Brilliant Rose. Pkt. 10c., trade pkt. 40c., oz. 3.00.

256 Shell Pink. Pkt. 10c., trade pkt. 40c., oz. 3.00.

257 Dark Scarlet. Pkt. 10c., trade pkt. 40c., oz. 3.00.

258 Light Lavender. Mauve. Pkt. 10c., trade pkt. 40c., oz. 3.00.

259 Dark Blue. Pkt. 10c., trade pkt. 40c., oz. 3.00.

260 Mixed. About fourteen beautiful sorts. Pkt. 10c., trade pkt. 40c., oz. 2.75.

OTHER NEW ASTERS OF RECENT INTRODUCTION

307 Red Sensation. Late branching type of rich, garnet-red color. Pkt. 10c., trade pkt. 50c., oz. 2.50.

309 Daybreak. Blooms about August; of symmetrical growth; about 18 inches high. Delicate pink shade. Pkt. 10c., trade pkt. 50c., oz. 2.50.

310 Purity. Same as Daybreak, but pure white. Pkt. 10c., trade pkt. 50c., oz. 2.50.

311 Peerless Pink. Good, strong grower, flowers four to five in diameter, of a rich, showy shell pink color. Pkt. 10c., trade pkt. 50c., oz. 2.50.

312 Lavender Gem. Comet type, with pretty large flowers of a pleasing shade of lavender. Pkt. 15c., trade pkt. 50c., oz. 3.00.

313 Violet King. A very free grower and abundant bloomer of a striking dark violet color. Pkt. 10c., trade pkt. 30c., oz. 1.25.

MOORE’S WHITE SENSATION ASTER

This is a new giant Aster in all its parts. Very large, perfect double flowers, often 6 inches in diameter, borne on long, stiff stems. We can heartily recommend it for any kind of decorative floral work. Stands shipping well.

292 Pkt. 15c., trade pkt. 50c., oz. 3.00.

MOORE’S KING ASTERS

This remarkable new Aster will attract the attention of everyone acquainted with good Asters. The flowers are large, many 5 inches across, full-centered. The plant belongs to the upright class. Stems are long and very free from side shoots. In the field this summer there were any number of plants from which one could have cut six to twelve marketable flowers with stems 14 to 20 inches long. It is an extra good shipping variety, and is sure to win favor among commercial florists.

307 Crimson King. Pkt. 15c., trade pkt. 50c., oz. 2.50.

308 White Snow White. Pkt. 15c., trade pkt. 50c., oz. 2.50.

309 Rose. Brilliant Rose. Pkt. 15c., trade pkt. 50c., oz. 2.50.

310 Lavender. Effective shade. Pkt. 15c., trade pkt. 50c., oz. 2.50.

327 Mixed. Upwards of fifteen handsome sorts. Pkt. 15c., trade pkt. 40c., oz. 2.00.

One pkt. each number, 40c.

SUPERIOR TO ALL OTHERS

I must praise your Asters, have been growing them for five years, the flowers are magnificent and your varieties superior to all others.

JOHN B. SHIPLEY, Florist,
Bakersville, N. J.
BALSAM

Florist’s Perfection, Double White. Flowers very large, of good substance and keep fresh long. Pkt. 10c., trade pkt. 25c., oz. $1.00.

Goliath, Mixed. (New.) 4 feet high. Fine for groups. Pkt. 15c., trade pkt. 35c.

Rose Flowered, Extra Double Mixed. Comprising about fifteen beautiful varieties. Pkt. 5c., trade pkt. 15c., oz. 50c.

Perfection Camellia Flowered, Superb Mixed. Comprising about fourteen choice sorts. Pkt. 10c., trade pkt. 25c., oz. $1.00.

BEGONIA

Gracillia Magnifica

Semperflorens Luminosa. (True ever-blooming type.) Magnificent brilliant scarlet. Pkt. 25c., ½ trade pkt. 30c., trade pkt. 50c.

Vernon Grandiflora, Dwarf. Pkt. 15c., trade pkt. 30c., oz. $2.50.

Gracillia Magnifica. This splendid new variety is of a very sturdy even habit. The plant grows about 10 inches high and forms a freely branching bush about 10 or 12 inches across. Its great characteristic feature consists in its uncommonly large flowers, which measure about 1½ inches across, and of a limpid rose shading to a beautiful carmine towards the centre, a color of exquisite beauty. The flowers are borne on strong, short stalks, and appear extremely early, and make a very free and continuous display above the fresh green foliage which is sometimes slightly tinged with a light brown. In freedom of bloom it excels the well known R. G. de Lorraine. It is a superb plant for bedding and pot culture, and will most certainly become a great favorite with all florists.

Grows readily from seed. A grand winter bloomer, and an easy grower. Pkt. 5c., ½ trade pkt. 60c., trade pkt. $1.00.

BELLIS PERENNIS (Double Daisy)

Florists will find our types of Double Daisies unusually satisfactory for cutting.

Daisy—Giant Snowflake

Giant Red. Unusually large, glowing red flowers on long stems. Pkt. 15c., trade pkt. 50c., ½ oz. $1.50.

Giant Snowflake. Unusually large, pure white, on long stems. Pkt. 15c., trade pkt. 50c., oz. $3.00.

Double Queen. Mixed colors. Pkt. 15c., trade pkt. 50c., oz. $3.00.

Moore’s Giant Double Mixed. Very large, densely double beautiful white and red flowers. Extra quality, on long stems. Pkt. 25c., trade pkt. 50c., 1 oz. $1.00, oz. $3.50.

Double Mixed. Fine colors, good type, extra quality. Pkt. 10c., trade pkt. 30c., oz. $1.50.

BRACHYCOME (Swan River Daisy)

Mixed. White, red and blue. Pkt. 5c., trade pkt. 20c., oz. 75c.

SPECIOSA MAJOR. Best blue for all purposes, especially valuable for winter and early spring flowering. Pkt. 10c., trade pkt. 50c.

BRIDGEND. Blue and white. Pkt. 5c., trade pkt. 15c., oz. 50c.

CALCEOLARIA

Hybrida Grandiflora Pulmonaria. Pkt. 35c., ½ trade pkt. 60c., trade pkt. $1.00.

Imperialis Robusta Grandiflora. Large, brilliant, self-colored and beautifully marked tigered flowers, mixed. Finest class for florists or exhibition purposes. An unrivaled strain. Pkt. 50c., ½ trade pkt. $1.00.

Golden Rain. New, large rich golden yellow flowers, produced in wonderful profusion. Pkt. 10c., trade pkt. 50c., oz. 50c.

BEGONIA

Royal, Mixed. Shrubbery; 2 ft. Pkt. 50c., ½ trade pkt. 60c., trade pkt. $1.00.

CALENDULA (Pot Marigold)

Gorgeous. Large, deep yellow. Pkt. 10c., trade pkt. 20c., oz. 50c.

Meteor. Pkt. 5c., oz. 12c., 1 lb. 50c.

Admiration. Lemon, large flower. Pkt. 5c., trade pkt. 10c., oz. 30c.

Royal Golden. Bright yellow, dark center. Very showy, fine for cutting. Pkt. 10c., trade pkt. 15c., oz. 75c.

Mixed. Best double sorts. Pkt. 5c., oz. 10c., 1 lb. 50c.

CALLIOPSIS

Pure Gold. Large velvety flowers. Pkt. 5c., trade pkt. 15c., oz. 10c.

Mixed. All colors. Pkt. 5c., trade pkt. 10c., oz. 20c.

CANDYTUFT

Giant White Perfection. Best white for cutting. Numerous, magnificent, large spikes. Pkt. 10c., trade pkt. 25c., oz. 50c.

White Fragrant. Scented. Pkt. 5c., oz. 10c., 1 lb. 25c.

Empress. White. Pkt. 5c., trade pkt. 15c., oz. 40c., 1 lb. $1.25.

Lavender. Delicate shade. Pkt. 5c., trade pkt. 10c., oz. 25c., 1 lb. 75c.

Carmine. Brilliant. Pkt. 5c., trade pkt. 10c., oz. 25c., 1 lb. 75c.

Mixed. Many shades. Pkt. 5c., trade pkt. 10c., oz. 20c.

CANNA

Finest Novelties, Mixed. Oz. 20c., 1 lb. 75c.

CANDYTUFT—Giant White Perfection

CANARY BIRD VINE

Peregrinum. Yellow flowers with ornamental foliage. A good winter bloomer in the greenhouse. It is one of the most beautiful of all climbers, its elegant foliage adding so much to the beauty of the blossoms: 10 ft. Pkt. 5c., trade pkt. 15c., oz. 50c.
### Carnation

Profitable for outdoor culture blooming four months from time of sowing.

MOORE’S GIANT PERFECTION CYCLAMEN

Moore’s Giant is a magnificent strain of cyclamen with flowers of enormous size and substance, and have gained a national reputation of the highest merit. The leaves are of proportionate size and beautifully marked with gray spots. It may be grown in any place (spring and autumn to be preferred) in pots or pans, in peaty loam and sand, covering the soil scarcely a quarter of an inch, placing a warm glass or a small greenhouses, keeping the soil moist but well drained. The seed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant them into small pots, transferring to larger pots as the plants develop. An average of 50° is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease.

Victoria Marginitum Cyclamen

756 Giant White Swan. The most profuse blooming white Cyclamen in cultivation; a grand thing. Pkt. 50c., 100 seeds, $1.50, 1,000 seeds $12.50.
757 Giant Clemson Queen. A bold, well-formed flower. Pkt. 50c., 100 seeds $1.50, 1,000 seeds $12.00.
758 Giant Queen Marguerite. These giant blooms are a snowy white with a silvery blue eye, of a lovely and delicate hue. A highly beautiful and attractive combination of color. Pkt. 50c., 100 seeds, $1.75, 1,000 seeds $15.00.
759 Giant Daybreak Rose. Exquisite, soft, rosy pink with dark claret bases, splendid trusses of bloom. Pkt. 50c., 100 seeds $1.50, 1,000 seeds $12.50.
760 Giant Salmon Pink. A beautiful, large, salmon red flower of compact habit and robust growth. Pkt. 50c., 100 seeds $1.75, 1,000 seeds $15.00.
761 Giant Victorian Marginalia. Pronounced the most remarkable Cyclamen extant; of vigorous growth and a wonderful free bloomer and of most enchanting appearance. Pkt. 50c., 100 seeds $2.00, 1,000 seeds $17.50.
762 Giant Suncray. (Picturatum.) New, very large flowers, free bloomer. Beautiful dark lavender rose with blood red eye. Extra Pkt. 50c., 100 seeds, $1.50, 1,000 seeds $15.00.
763 Giant Rose Pink. Finely shaped very showy. Pkt. 35c., 100 seeds, $1.75, 1,000 seeds $14.50.
764 Giant Kermesina Compactum. Deep cherry color. Handsome and distinct. Pkt. 50c., 100 seeds $1.50, 1,000 seeds $12.00.
765 Giant Rosy Morn. Clear, satiny white petals with dark claret base. Pkt. 35c., 100 seeds, $1.50, 1,000 seeds $12.00.
766 Giant Salmon Scarlet. A gorgeously colored variety resembling the Grenadin Carnation. Pkt. 50c., 100 seeds $1.75, 1,000 seeds $15.00.
767 Giant Queen Alexander. A fine rosy blue color; great bloomer. Pkt. 35c., 100 seeds $1.50, 1,000 seeds $12.00.
768 Giant Lemonia. Fine Mixed. The Lemonia Cyclamen ranks among the most interesting and remarkable novelties of the year. In color they are partly pure white, white with clear red eye, clear red, and many other beautiful tints. Flowers are produced on stolts, erect stems of good substance, with the stamina and pistils pointing upward and are of abundant and luxuriant growth. No Cyclamen grower can afford to be without this wonderfully handsome and valuable novelty. Pkt. 50c., 100 seeds $2.00.
769 Giant Erected. A very handsome, pretty type, contrasting conspicuously when mingled with a collection of other classes. Flowers are very lasting. Pkt. 50c., 100 seeds $1.75, 1,000 seeds $15.00.
770 Giant Butterfly. Truly charming, one of the most striking among Boras’ flowers. Colors are superbly varied and beautifully harmonized; the beauty of the variations in color is truly captivating. Blossoms are singularly beautifully fringed and are produced on long, slender stalks and are most excellent for high class bouquets, while the entire plant makes a magnificent table decoration. Of spotless purity, great substance, excellent form and freely produced. Foilage elegantly masked. Only the best colors in our mixture. Pkt. 50c., 100 seeds $1.75, 1,000 seeds $15.00.
771 Mrs. Buckston. This type has beautifully frilled petals of truly giant size, of a handsome, rich, delicate salmon color; fine grower and wonderfully free bloomer. A grand acquisition. Pkt. 50c., 100 seeds $1.75.

CYCLAMEN PERSICUM GIGANTEUM

Our stock of this class is saved by one of the foremost English growers. A White, Pure. Pkt. 25c., 100 seeds $1.50, 1,000 seeds $12.00.
B White with Carmine Eye. Pkt. 25c., 100 seeds $1.50, 1,000 seeds $12.00.
C Rose. Pkt. 25c., 100 seeds $1.50, 1,000 seeds $12.00.
D Blood Red. Pkt. 25c., 100 seeds $1.50, 1,000 seeds $12.00.
E Salmon Pink. Pkt. 35c., 100 seeds $1.50, 1,000 seeds $12.00.
F Finest Mixed. Pkt. 25c., 100 seeds $1.25, 1,000 seeds $10.00.

CYPHERUS

785 Alternifolia. Umbrella plant. Pkt. 10c., trade pkt. 30c.

DAHLIA

791 Tom Thumb. Extra double. Bouquet of Liliputian, seed saved from brightest colors only; 2 ft., will bloom the first year if sown in February or March. Excellent for cutting. Pkt. 10c., trade pkt. 30c.
792 Superb Mixed. Comprising about 30 beautiful sorts from all classes. Pkt. 35c., trade pkt. 30c.

DIANTHUS (Pinks)

LARGE FLOWERING DOUBLE ANNUAL VARIETIES

Dianthus Double White (Snowdrift)
DIANTHUS—Continued

540 Heddeewig Dianthus Grandiflora, mixed. (Japanese Royal Pink.) Beautiful, large flowers in handsome variety, including all the most brilliant flowering kinds. Very showy. Excellent for cutting. Pkt. 10c., trade pkt. 30c., oz. $1.50.

541 Lucnites, Fl. Pt. mixed. (Double fringed and striped Japan Pink.) Large, showy, various-colored flowers, handsomely fringed and beautifully striped. Pkt. 5c., trade pkt. 35c., oz. $1.75.

542 Heddeewig, Fl. Pt. mixed. (Double China Pink.) Pkt. 5c., trade pkt. 10c., oz. 20c.

544 Snowdrift. Finely fringed, large pure white blooms, from 3 to 4 inches across, free bloomer; superb for masses or cutting. Pkt. 10c., trade pkt. 50c.

545 Dazzling. R. Double Mixed, beautifully fringed, superb orange scarlet. Dazzling flowers, a great favorite. Pkt. 10c., trade pkt. 50c.

546 Marvelous. Wonderfully fringed. Large flowers in a splendid variety of colors, handsomely fringed and beautifully striped. Pkt. 35c., oz. $1.25.

547 Brilliant Salmon Rose. Charming, finely fringed, large double flowers. Pkt. 10c., trade pkt. 35c., oz. $1.25.

548 Collection. 1 pkt. each 8 double varieties 40c.

LARGE FLOWERED SINGLE ANNUAL VARIETIES

549 Fairy Queen. Beautiful white flowers with rich salmon centre. Pkt. 10c., trade pkt. 25c., oz. $2.00.

Punctatus Laciniatus

581 Punctatus Laciniatus. The flowers of this novelty show a most charming display of extremely peculiar markings; intensely dotted and lined, rather leoparded and tigered, blood red, dark salmon, and whatever the coloration may be, whether light or dark, these markings vary in such a lovely display of shades and colors that scarcely two similar flowers may be found. Excellent for cutting. Pkt. 10c., trade pkt. 30c., oz. $1.50.

582 Queen of Holland. Pearly white. Large flower. Pkt. 5c., trade pkt. 25c.

583 Salmon Queen. Very attractive. Flowers large, elegantly fringed, a very lovely brilliant shade. Extra. Pkt. 10c., trade pkt. 20c., oz. 50c.

584 Vesuvius. Dazzling orange scarlet. Splendid, nicely fringed flowers, very effective. Pkt. 10c., trade pkt. 25c.

585 Brilliant Fringed Mixed. (New French Hybrids.) Intense colors, extra superb mixed tall varieties, valuable for cutting, wondrously charming. Pkt. 10c., trade pkt. 20c., oz. 50c.

586 Collection. 1 pkt. each single variety 35c.

HARDY PERENNIAL CLOVE PINKS

Bloom for a long period during early spring and summer. A very desirable acquisition for cutting, potting or selling in clumps. Very showy in beds or borders. Astonishingly floriferous and exhale a delightfully clove like fragrance; can be potted while in full bloom.

PRIMULAS

1824 All our varieties are of a distinct and beautiful type and are grown by the best German and English specialists from prime strains only, unsurpassed for variety, large size and brilliancy of colors, and great substance of flower, averaging from 4 to 6 inches in circumference. This is our leading specialty. The cheap grades are not kept by us, as we find no demand for them. The “Chinese Primrose” is a great favorite for the house or conservatory. Sow in March, April and May.

CHINESE GIANT FLOWERING ZENGERED

1825 Giant Alba Magnifica. Large, beautiful pure white, with citron eye; compact; light green foliage. Pkt. 5c., trade pkt. 75c.

LIBERTY

GENTLEMEN—Seeds received all in good condition and thank you very much for the extra seed you kindly gave me.

J. HALL

STONHAM, MASS.
Remedies for Insects and Fungus

Ant Extirpator Powder. Very effective for destroying ants in gardens and lawns. For small ants, 5c. per lb.; for large, 50c. per lb.

Arsenate of Lead. (Dry Powdered) Specially Prepared Brand. DryArsinate of Lead is preferred by many to the liquid form, as it is a good rose-bug remedy. Dilute 2 lbs. to 50 gals. of water. 1 lb., 65c.; 5 lbs., $2.50; 25-lb. pkg., $12.00; 50 lbs., $23.00; 100 lbs., $45.00.

Arsenate of Lead. (Paste). For all insects. The best sealing moth, rose and other fly repellent. 1 lb., 45c.; 5 lbs., $2.00; 10 lbs., $3.50; 25 lbs., $6.50; 50 lbs., $12.50; 100 lbs., $24.00. Special price on large quantities.

Borate of Potash. Soluble and highly effective. Excellent spray for black aphids and sucking insects of all kinds; dilute 1 part from 100 to 1,000 parts of water, according to treatment. 1 oz., 1 lb., 50c.; 1-oz. bottle; 1 lb., $1.00; 2 lbs. for 10 lbs. at $13.75.

Pyrox (Bower's). A combined insecticide and fungicide for all leaf-eating insects and diseases. It is a paste that may be used throughout the year and needs only to be mixed with cold water (one pound to five gallons of water). Per lb., 45c.; $1.75 per 5 lbs.; $10.00; 25 lbs., $62.50; 50 lbs., $13.50; 100 lbs., $25.00.

Hyperzine. Purifier and BleiUi Killar. Instantly kills all bad odors and leaves none. It destroys the odor germs, leaves everything pure and clean. A gallon diluted costs only 1c. to 1c., according to strength required. It is a powerful non-poisonous deodorant and disinfectant which prevents diseases by killing the germs that cause malodorous conditions. It is recommended to housewives, cheese maker, household use, the sick room, milking machine user, etc. It is a clear, transparent solution and entirely odorless. 50 lbs., $15.75.

Bordeaux Fungicide Mixture, Leggett's Dry. Is acknowledged to be the best fungicide and is more extensively used every year. It is especially recommended for the spraying of fruit trees, cucumbers, melons, leaf spot, leaf blight, mildews, black knot, rot, and all fungous diseases. 1 lb., 5-5 lbs., phr., $1.50; 50-lb. drums, $12.00. 100-lb. barrel $24.00.

Bordeaux Mixture and Paris Green Dry Compound. This compound treatment is very successful during ten years past. It keeps the bugs and prevents blight. Defends plants against flea and beetles and all manner of insects. Price, 1 lb., 56c.; 3-lb. box, $2.50.

Bordeaux Mixture for Liquid Form. By simply adding water and stirring it is ready for use. 1 qt., 40c.; 5 qt., $1.50; 1 gal., $3.50; 5-gal. mixing bottle, 1 gal. will make one barrel liquid. Full instructions with each cat.

Bordeaux Dust. A non-poisonous, insect-killing powder that is in high esteem for spraying top growth and sprays. It gives an excellent control of flea beetles, potato and tomato cucumbers, etc. It is applied with a duster, bellows or powder-gun, at the rate of about 1 lb. per acre when spraying. 3 lbs., 50c.; 2 lbs., $1.00; 12 lbs., $1.75; 100 lbs., $8.00.

Bug Death Sprayer, each, 30c.

Cutworm Killer. A poisonous compound, alluring and palatable, as well as destructive to all cut worms. Easy to apply; full directions with each package.

Dalmation or Persian Powder. Pure. 1/4 lb. 30c.; 1/2 lb. 55c.; 1 lb. 80c., 10 lb. $1.00.

Fly Knocker. Conkey's. The best fly repellent. 1 gal., $1.25.

Formaldehyde is successfully employed as a preventive of such fungous diseases as fruit blights, leaf blight, etc. It is used against cabbage, roses, etc. The dilution for most purposes is 1 lb. (1 pint) to 15 or 20 gallons of water, and 1 gallon of water to 2 gallons of this solution is required for each 100 sq. ft. of surface. Price, 1 pt., 5c.; 1 gallon, 1 lb., $1.00; 25 lbs., $2.50; 50 cans, $10.50; 10 gal., $90.00.

Lime Sulphur Solution. Standard Strength. For destroying San Jose scale and other scale insects, 1 lb., $3.00; 5 lbs., $12.00; 50 lbs., $50.00; 100 lbs., $90.00.

Necco Fume. Tobacco paper insecticide. This is the strongest vegetation fumigant and does not injure blossoms, and furnishes the easiest method for fumigating. 1 lb., 25c.; 5 lbs., $1.25; 144 sheets, $3.00; 288 sheets, $5.50; postpaid to any address.

Nicotine Liquid. A highly refined solution of "free" nicotine, guarantied under the National Insecticide Act to contain 40 per cent. of nicotine. Greatly reduces the amount of nicotine in one solution and makes it a cheaper and safer water. This water furnishes an effective remedy against Green Aphids and Thrips and for other Kirkmode pests. Price, 1 lb. $1.25; 25 lbs., $31.25.

Necco-Fume. "Nicco-Fume" Liquid thus has the advantage of being employed both for spraying and for fumigating. Each package contains 1 lb., $2.25; 4 lbs., $7.75; 8 lbs., $14.50.

Vaporous Insect Fumigants with lamp, 60c.

Sulco-V. B will control San Jose and other scale insects, and many species of plant lice and fungus diseases.

Ant Exterminator Powder. Very effective for destroying ants in gardens and lawns. For small ants, 5c. per lb.; for large, 50c. per lb.
Hot-Water Incubator

Advantages of Hot-Water Heating

In the first place, the heat is more steady. It does not become so intense at any time as to "cook" the eggs. When you turn out the lamp to fill and check the heat, it is maintained in the egg chamber without the slightest variation. Suppose you should forget to fill it for a day, you would simply lose one day in the hatching, and it would go out. The hatch would be safe for hours as the tank would keep the eggs warm meanwhile. With the hot-water system you can lead and hold the heat, so to speak, where you want it. The tank and the henter are made of the best quality of cold rolled and heat treated copper.

Best of all Hot-Water Heat is the right kind of heat for hatching, because there is not that drying out that is the case in all hot-air machines. It is unnecessary under any ordinary conditions to supply moisture in the spring. As the circulation of water through the pipes neither adds nor takes away moisture, just supplies the air to the eggs naturally, like the mother hen does. Hot-water heat is admittedly the best for your house, so it must be the best for your incubator.

Look at it carefully and we will briefly go over the features that put the Queen in the class next and make it the best hot-water incubator. Queen incubator cases are made of California redwood, with double walls, filled between with wool felt.

The Inner size Double, the inner one being glass. Extra care is given to the fitting of these doors. In the Queen incubator I use two layers of corrugated straw-board between wooden walls, which makes it truly doubly sure. A dead air space is a non-conductor of heat, and is used wherever a good insulating wall is wanted.

The best thing about the Queen regularity is that it absolutely regulates the temperature to a nicety. The tank is not built and the carelessness of its adjustment is not equaled anywhere.

It was once thought impossible to regulate the heat of an incubator within a degree. The Queen has done this, though the temperature outside may vary fifty degrees. It is the only regulator built able to make such a record. Full instructions with each machine.

You can depend on a Queen incubator for two things—economy and reliability under sudden changes. Both are outside.

A well insulated incubator costs only a fraction to run as against one that has poor insulation. The common kind is losing heat rapidly and needs two or three times the heat it should have in order to keep up the necessary temperature.

Ranch Size Queen. Of late years there has been an insistent demand for large size hatchers. This comes principally from large poultry farms and ranches, but still a great many inquiries come from those wishing to hatch all their chickens in one or two settings. The first of these inquiries started us to working out the several years of careful tests we can offer in full confidence our No. 22 350 size Queen to those wishing large units.

Queen incubators are furnished complete with automatic heat regulators, jacketed copper boiler and radiator, galvanized steel lamp bowl with steel chimney and heavy brass burner with removable gauge, adjustable metal shelf, best mercury thermometer, funnel, egg tester, egg trays, chair, lamp and power connections, so you can quickly set up and run the Queen for big results and also gives a large amount of information, useful to the chicken raiser.

Queen incubators are built complete at the factory and do not require a mechanic to set them up, ready for business.

Queens Brooders are equal to Queen incubators in merit. The same care and expert workmanship that made the Queen incubator the sure, reliable machine that it is, were put into the Queen brooder. I ask you to investigate and convince yourself of this fact.

It might be proper to say here that an outdoor brooder will work indoors as well as out. Also, an indoor brooder is all right for outdoor use when the weather is not stormy.

Wants three more

1293 9th Street, Brooklyn, New York, November 21.

Well, I have tried out one of your Queen incubators, and let me state that it has been a grand success. Out of 125 fertile eggs placed in one of your 180-egg incubators it hatched out 117 fine, healthy chicks. In January I will give you an order for three more incubators.

Respectfully, Henry T. Martin.

Everybody pleased with the Queen.

I thought I must let you know what success I have had with the Queen incubator (26-egg) I bought of you last spring. I have had four good hatches, the first averaged 86 per cent., the next two 92 per cent. and the last 80 per cent., so you may know I am well pleased with the Queen.

Howard H. Stricker, R. S.

Queen brooders raised nearly all the chicks for Watt M. Perrin, of Sargent, Neb.

"I bought an incubator and two brooders last fall from your agent here and I find they are certainly a value. I hatched between 90 and 86 per cent. of all fertile eggs and missed nearly all the chicks—even more than hens can raise. I cannot recommend your incubators and brooders too much."

Did not know he had an incubator

Smithfield, Pa., March 20.

I promised to write my success with the Queen. I think the Queen incubator is just fine and it will do all that you say for it is certainly. I had no trouble with it at all—it is so easy to run that I never had a cock or a hen in the incubator at all.

William Pastore.

Capon tools

The same amount of feed will raise each

8 lb. capon,$2.25; by parcel post, $2.50.

4 lb. rooster, $1.75.

The formed caponizing set, in velvet case, $5.00, postpaid.

The miles caponizing set, in velvet case, $5.50, postpaid.

It pays to buy the best

We have all that we know to be good in high grade poultry supplies—the largest collection—the best selection—the best attention. Come see us.

**Thermometers**

**Colored Celluloid “Key-Ring” Poultry Leg Bands**

**IMPROVED CHAMPION LEG BAND**

**Prices, 12 for 20c: 25 for 50c; 100 for $1.25; 500 for $5.00, postpaid.**

**The Victor Band**

In Colors With Numbers

Made in celluloid and aluminum, adjustable for any breed. Entirely new and different from others. Large printed numbers, bright and clear colors.

RED, BLUE, WHITE, YELLOW and GREEN

We believe it to be one of the most practical and durable bands that has ever been offered to the poultryman. Trappersmen promptly see the advantages of a band of this kind.

**Prices, prepaid by mail: 12 for 50c: 25 for $1.00; 50 for $2.00; 100 for $4.00; 200 for $7.50.**

**Angular Progressive Poultry Killing Knife**

Every poultry raiser should have one of our Killing Knives. They are made of finely tempered instrument steel, with nickel handles; will last a lifetime. Costs 95c., by mail, securely packed.

**Pilling Fowl Catcher**

Sent postpaid, 30 cents

**Poultry Markers**

These will be found very useful for marking poultry, which is done in the web of the foot. 

**Gap Worn Extractor**

(For Hair in a silver handle. 15c. postpaid 18c.)

German. Made of German Silver. 50c. each 20c. Hallowell. Silver wire and horse hair, each 10c., doz. $1.00

Metz Gap Worn Extractor consists of a horse hair in a specially constructed glass tube. Very effective and cannot hurt the chick’s windpipe. Price, 40c. each.

**Philadelphia Gap Worn Extractor**

(For Hair in a silver handle. 15c. postpaid 18c.)

Poultry Marker

Poultry Marker

Lanterns

Duplex

Poultry Marker

Poultry Marker

Lanterns

Duplex will make two size holes, each 30c.

Philadelphia, either large or small hole, each 30c.

Lanterns, either large or small hole, each 30c.
PERFECTION HOT BED AND GARDEN SEED DRILL. Will pay for itself in a very short time, because it does seed by sowing accurately. Sowing by hand wastes seed.

It is very easy to operate and drills uniformly any size of seed from the smallest up to peas and beans. It will drill a 5-cent package of seed just as accurately as a pound.

The index is in plain view and easily read. The shoe is adjustable for any depth desired, and the cover remains free. It is set up ready for use.

The Perfection Hot Bed opens the furrow, sows the seed, and covers, up all in one operation.

This Seeder is inexpensive, and with ordinary care will last a life time. It can be attached to Nos. 1, 2, 3, 5, and 20. The hopper holds one pint. Parcel post weight, seven pounds.

Price, with handle, $5.50; without handle, $5.00.

No. 14—GUARANTEED STANDARD HILL AND DRILL SEEDER. It opens the furrow, sows the seed, covers, rolls down and marks the next row all in one operation. It is changed from hill planting to drilling by slightly moving one part only.

It will plant seed in hills four, six, eight and twenty-four inches apart, or will drill a continuous row, as desired. The index is in plain view and very easily adjusted. A special adjustable shoe will open a clean furrow and the covers remain free.

A concave roller wheel completes the job.

Parcel post weight, 38 pounds. Price, $13.50.

No. 1—GUARANTEED DOUBLE WHEEL CULTIVATOR. (The Peer of All Wheel Cultivators.) This is the very best Cultivator that nearly a hundred years of making experience can produce.

It has dust-proof, machineboring, with adjustment for wear. The wheels run true.

It has solid forged tool steel attachments, oil tempered and polished. Not a rivet or weld in them.

Has 14-inch steel, oval spoke wheels, two scuffle hoes, four cultivator teeth, two plow and steel error. The Perfection Hot Bed Seeder may be easily attached by means of a special attachment plate.

Parcel post weight, 36 pounds. Price, $14.00.

No. 5—GUARANTEED GARDEN FAIRY CULTIVATOR. (Efficient, Inexpensive, Easy to Operate.) For raising all kinds of crops, but a trifle more than a hoe. It will cultivate rows from six to twelve inches apart.

The five cultivator teeth may be adjusted in many ways, as each tooth is bolted on separately. They are forged from high-grade tool steel.

It has 14-inch steel, oval-spoke wheel. Parcel post weight, 15 pounds. Price, $8.00.

No. 20—GUARANTEED HIGH WHEEL CULTIVATOR. The most efficient and popular high wheel cultivator made. It has a 24-inch wheel, which runs on a bushing, is well balanced and easy to control. The adjustment is made by one wing on the wrench is needed. Attachments furnished: Double point shovelf, turning plow with horse, sideboard, complete rake and sweep. The Perfection Hot Bed Drill may be easily attached to the place of work. Parcel post weight, 22 pounds. Price, $8.00.

BLOOD, BONE AND ANIMAL MEAL (Dried). For indoor culture of ornamental foliage flowering plants, like roses, carnations and other extremely valuable as a vegetable fertilizer. Its chief element being nitrogen.

5 lbs., $1.00; 10 lbs., $1.90; 50 lbs., $5.00; 100 lbs., $10.00; 200 lbs., $25.00; 500 lbs., $55.00; 1,000 lbs., $75.00.

DIAMOND BRAND NEW RAW BONE FLOUR. This is ground very fine, decomposes more rapidly in the soil than the coarser grades, and is, therefore, more rapidly utilized. Highly recommended for greenhouse and vegetable garden use. Will not produce mould in the soil. Price, 1-lb., pkgs., 75c.; 5-lb., pkgs., 90c.; 10-lb., $1.00; 25-lb., bag, $5.00; 50-lb., bag, $9.25; 100-lb., bag, $18.50; 2,000-lb., bag, $55.00.

PURE PULVERIZED SHEEP MANURE (Genuine Sheep's Head Brand). Strengthened and mixed of all kinds ofKeratin Animal parts. It will make things grow. A pure natural and nutritious manure. Immediate and lasting in effect. Excellent for mixing with the soil for greenhouse plants. In the vegetable garden it is applied with a rapid, steady growth until maturity; it makes a rich Liquid Manure. This brand is superior to all others.

Prices: 5 lbs., $1.00; 10 lbs., $1.50; 25 lbs., $5.00; 50 lbs., $15.00; 100 lbs., $25.00; 200 lbs., $50.00.

POUDRE E (Chili Powder). Apply 1,000 lbs. per acre. Exclusively used for garden, lawns, in making compost and, in fact, wherever a good, quick acting fertilizer is wanted. It is odorless and easily handled. Applied as a fertilizer to garden crops. Price: 1-lb., $0.75; 10 lbs., $6.00; 25 lbs., $12.50; 50 lbs., $20.00; 100 lbs., $35.00.

MIFORME OF SODA (Chillian High Grade). Lb. tin, 25c.: 5 lbs., $1.50; 10 lbs., $3.15; 25 lbs., $5.25; 50 lbs., $8.00.

SPECIAL MARL, POTATO AND VEGETABLE FERTILIZER (1 Per Cent. Potash). It is especially valuable to market gardeners and we recommend it for a fertilizer for all vegetable and plant crops. Price: 5-lb., $1.00; 10 lbs., $2.50; 200 lbs., $4.50.

HORSE MANURE. We supply at short notice, strictly first-class short or long horse manure. For horse manure producers. 200 lbs., $8.25; 1,000 lbs., $25.00; 2,000 lbs., $45.00.

MAG-O-TITE. Insures a good crop of Radishes, Cabbage, Cauliflower, Turnips, Onions, Kale and Strawberries. A sure earth worm destructor and a great fertilizer combined. HOW "MAG-O-TITE" AGENS

"Mag-O-Tite" acts as a preventive by repelling the Fly which lays her eggs from which the Maggots are hatched and it also destroys Maggots which are already in the soil. While intended primarily as a remedy for Root Maggots, it has proved very effective in combating Maggots of all kinds. Price: 2-lb. bag, 50c.; 5-lb. bag, $1.50.

SAFE YOUR CROPS Destroy the Root Maggots, Earth Worms and Other Pests. WANTED BY MAIL.
THE SAXMAYER VEGETABLE TYER

A Great Money-Saving Machine for the Market Gardener

Hundreds in use by leading and progressive growers throughout the United States. You should be one of them.

This tying machine is indispensable to every vegetable grower where quantities of vegetables are to be tied. It is a wonderful money saver, a time saver, a labor saver. It takes the hard work out of tying and makes the work pleasant, easy and economical. It not only greatly facilitates your work, but will reduce your cost of tying nearly 75 per cent. It will reduce your tie bill from 30 to 300 per cent. It requires no skilled or high-priced labor to operate it. A girl or boy 10 years old can easily tie twenty-five bundles of scallions per minute with this wonderful labor-saving machine. While with rubarb it is easily possible to make 40 ties per minute. The tying machines can be operated anywhere in a building or in the open field where the crops are growing. It does away with sore fingers and midnight hours. In short, it makes work a pleasure, enables you to get up "your load" easier, quicker and with much less expense. Makes your truck growing more profitable. Ties more neatly and uniformly than by hand. Will use two-ply, three-ply or four-ply cotton string with equal facility. By changing the knoter bill it will tie a No. 13 tape.

DESCRIPTION OF LARGE SIZE TYER

The machine somewhat resembles, and is but little larger than, a sewing machine, requires less power to run, and may be operated by foot treadle or driven by belt with a small electric motor or gas engine. It may be kept in constant motion and automatically ties and releases each bundle only when it is placed in position for tying. It works so easily that a child can do more work with it than a number of grown persons could do by hand in the same time. The operator sits comfortably at the machine and does his work in perfect ease.

The framework and side plates are made of metal of substantial and ornamental design. The tying mechanism is of bronze, which will last a lifetime and will not rust.

With ordinary use and proper care, with the exception of a few minor parts, the machine will last for many years.

The sole is made of galvanized iron. The back part is depressable, supported by adjustable springs, and holds the cradle when being tied. The cradle automatically advances itself to the next bundle.

The machine ties any kind of bunch vegetables except the large dozen bunches of celery.

Price of Large Size Tyer, $90.00 f. o. b. Philadelphia.

The machine will speedily pay for itself. When used to full capacity it will easily effect a saving of 25,000 per year in labor.

DESCRIPTION OF SMALL SIZE TYER

It has the same tying mechanism as the large model and will tie every class of vegetables just the same as it and as well. It cannot be operated by motor power like the large machine. It is just a little less rapid in its operation compared with the larger machine. Many of these small machines are in daily use and are proving wonderful money savers and a valuable asset to every grower's farm. Price, $45.00.

McWhorter Hand Fertilizer Distributor

Adapted to the needs of every truck farmer or market gardener.

It handles commercial fertilizers in the most thorough and reliable manner.

It distributes the fertilizer in a narrow, dense, growing crop, as a top-dresser or as a broadcaster in any way that may be desired, from a narrow stream up to a uniform spread or over two feet without removing a bolt. We pronounce it the best hand fertilizer drill ever made. We have all repairs for this drill. Price, $22.00.

“ACME” Pulverizing Harrow, Clod Crusher and Leveler

A harrow that should be on every farm. Lowest priced riding harrow manufactured. Lightest in draft, most easily handled. An invaluable tool for every market gardener or farmer. No implement will put the soil in as good condition as quickly.

You Must Spray to Save your Trees, Fruits and Crops

**"AUTO SPRAY" No. 1**

**A SELF-OPERATING OR AUTOMATIC SPRAYER**

A practical machine for spraying potatoes, tobacco, small fruits, vineyards, greenhouses, poultry houses, etc. Also excellent for whitewashing and disinfecting buildings, etc.

"Auto-Spray" No. 1 is the strongest, most useful and most generally used of all spray pumps. It will do all that any spray pump can do, and in many cases, will do the work quicker and better. It has supplied the bucket and knapsack sprayers, which require constant pumping, and is positively indestructible. It has absolutely all defects taken out of leaving the factory.

No work to operate the "Auto-Spray." The user simply holds the nozzle after connecting the air with a few strokes of plunger. Nearly 200,000 of these sprayers are now being used with extreme satisfaction.

We recommend the brass tank as cooling better than galvanized, and it is practically indestructible.

When used we furnish brass extension pipes in two-foot lengths for spraying trees. The usual equipment for tree work is three lengths, and the price is given below.

Capacity about 4 gallons.

The sprayer being carried by the shoulder strap leaves both hands of the person operating nothing to do but direct the spray. Cannot clog.

**PRICES "AUTO-SPRAY" No. 1.**

**LEGGETT'S CHAMPION DRY-POWDER PUMPS.**

Distribute Paris Green, Holloher, Sulphur, Dry Bordeaux Mixture, etc. Dispenses with both motion and labor of using water. For farm, garden, vineyard, tobacco fields, etc. This implement has proved itself "Champion," being far ahead of any other machine in its capacity to distribute a uniform and almost instantaneous quantity of Paris Green or other powder, doing effective work without injuring the foliage when used properly. The dry method is rapidly superseding liquid sprays. Will do as much work in a day as a horse-power sprayer. Will green two or three lots of powder at once as fast as a man walks. Adjustable to any width of row. Anyone can use this. Will not get out of order again. No. 1, price $2.50. No. 2, price $2.75. Our Champion sprayer our unqualified endorsement. No. 1, price $15.00. Champion sprayer with it, price $22.50. With one STAR SPRAYER.

Specially adapted for greenhouse work, such as spraying whitewash, shading material and all kinds of liquid spray material used by florists or nurserymen.

Pump cylinder seamless brass tubing, bronze ball valves, seats and all working parts of brass. Has large air chamber, which insures a constant steady pressure, and will operate against 125 pounds pressure. Mechanical agitator.

**Furnished complete as illustrated and described with 12-gallon tank, 10 feet Special 3/4-inch discharge hose and couplings, spray pipe, complete with 3/4-inch cock, one Star nozzle.**

Many thousands of these machines are giving excellent service elsewhere. Price $22.00 complete.

**IDEAL BARREL PUMP No. 1188.**

A high-grade pump at an attractive price, within the reach of every one who has need for such a pump for either orchard or building work, 2 in. diameter cylinder. Bronze valve parts, combined with sufficient capacity to supply two leads of hose at four nozzles. Plain pump, no hose, nozzle or barrel, $13.00.

**Outfit C.**

- With agitator, one 15 ft. lead of 3/4-in. high pressure spray hose and one Adjustable Jr. nozzle (no barrel), $22.00.

**Outfit D.**

- With agitator and two 15 ft. leads of 3/4-in. high pressure spray hose and two Adjustable Jr. nozzles (no barrel), $25.50.

**Barrels for holding spray solution, 50 gal. capacity, $12.00 each.**

**THE GARFIELD.**

For Vineyards, Truck Gardening, Nurseries, Greenhouses, Tobacco, and Cotton Fields. Orchard, Poultry House, or Home. This is the most durable, practical and satisfactory Knapsack Sprayer ever made. Will spray all liquids or powders.

No. 3 machine consists of a copper tank holding five gallons, and a pump made entirely of brass, which cannot corrode or rust. There is a large air chamber placed inside the tank, which has sufficient capacity to keep up the pressure and continue to discharge the spray for a full day. After the cup or spray head is filled, the neck of the tank can be lifted out. Lower valve is screwed to bottom of cylinder, hence no trouble in cleaning after use.

**The Garfield Knapsack Sprayer.**

The Garfield Knapsack Sprayer consists of three parts: a copper, complete with Automatic Curbnozzle Athwart Agitator, $2.40. No. 4 Galvanized Steel Tank, complete, $25.00.

**IMPROVED LITTLE GIANT DUSTER.**

For Farm, Garden, Vineyard, Tobacco Field. Dust potato vines as fast as you walk, two rows at a time. Reservoir holds nearly a quart of powder. Machine weighs 6 lbs. One packed in a case complete, 3 tubes, 5 nozzles, and strap. Improved Little Giant differs but slightly from our Champion Duster, except in size, being a trifle smaller. Price, $1.20.

**IRON AGE BUCKET SPRAYER.**

This rig includes No. 192 Bucket Pump and a strong wood or truck frame securely attached to it. The bucket is easily detached for cleaning, or when pump is to be used elsewhere. The whole outfit can be carried on the handle or bracket at the top. Has an automatic agitator and two-foot steel pipe extension for bushes, small trees, etc. Price, $10.50.

**UNIVERSAL POWER SPRAY GUN.**

Utilizes the Entire Capacity of any Power Spray Pump and does away with all Bamboo Extensions, Nozzles and Fittings. By a one-third turn of the handle the spray can be adjusted from a long distance to spraying the top of the tree to the extremely broad spray sufficient to cover the entire tree or shut off entirely. With four separate spray disc designed to deliver the entire capacity of the pump, either 4, 6, 8 or 10 gallons per minute.

One third turn of the handle adjusts the spray from a wide open nozzle to a complete shut-off of the mixture. Price, $11.00.

**IDEAL BARREL SPRAY PUMP, Fig. 0100.**

Can be used for feeding one or two heads of hose; all working parts are solid bronze, with lasting qualities. The barrel can be adjusted for a 3, 4 or 5 in. cylinder, only $22.50. Outfit C—With one 15 ft. section 3/4-in. high pressure spray hose and one Adjustable Jr. nozzle (no barrel), $30.00.

**Outfit D.—With two 15 ft. sections 3/4-in. high pressure spray hose and two Adjustable Jr. nozzles, $35.00.**

**Barrels for holding spray solution, 50 gal. capacity, $12.00 each.**

**THE CARPET.**

For Vineyards, Truck Gardening, and Home. The Garfield Knapsack Sprayer consists of three parts: a copper, complete with Automatic Curbnozzle Athwart Agitator, $2.40. No. 4 Galvanized Steel Tank, complete, $25.00.
THE "IRON AGE" FARM AND GARDEN IMPLEMENTS

The No. 6 "Iron Age" Combined Double and Single Wheel Hoe, Hill and Drill Seeder

This tool is a most practical and complete garden tool—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. In each form, whether a Hill or a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seeds in drills or hills the seed, and the small amount of power required to operate it. The frame being made of pipe coupled with malleable castings, gives great strength, together with lightness. This tool with side hoes only ("Iron Age," No. 3), price $10.00.

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder

In combining these tools not a single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly. It places the seed in hills or drills. Price $20.00. As a Hill and Drill Seeder order "Iron Age," No. 18. Price $17.00.

No. 124 Drill for planting corn and beans, including lima beans, dropping same 4, 6, 8, 10 or 12 inches apart. Complete $20.00.

No. 20 "Iron Age" Single Wheel Hoe

The frame of this tool, as all the "Iron Age" combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a land side plow are furnished with this tool. Price, complete, $10.50. As with the No. 1, a seeder attachment may be added at any time. No. 21 (Hoes only), price $8.00.

Gem Single Wheel Hoe

Complete $10.00. Gem Double Wheel Hoe, complete $11.50. Gem Single Wheel with Teeth Only, price $5.73.

Useful Hand Plow

$2.50

Acme Asparagus Knife, 50c.

By mail, post paid 55c.

Waterproof Paper Flower Pots

1000 Paper Pots for Florists and market gardeners

"Gem" Land-side Plow

Price, $2.10.

"Advance" Fertilizer Drill

A shut-off, to prevent the escape of fertilizer when wheeling around end of row, is a late improvement. Holds eight and a half quarts. A first-class machine for the drilling of peas and corn as well as fertilizer. Price, each $15.00.

Transplanting Trowel Solid steel

Largely used by truckers in transplanting sweet potatoes, cabbage, etc. Price, 75c.

Here we offer Waterproof Flower Pots made from waterproof fabrics. They are very light, durable, unbreakable, cheap, and of terra-cotta color, and are more economical than clay pots and just as practical for most purposes, and for some purposes are better than clay pots. Just the pots for growing small plants and seedlings. Florists, nurserymen, strawberry growers, market gardeners and plant shippers have been using our waterproof pots for many years. They cannot break and are very durable.

Price, complete, $14.00.

In the Wheel Hoe form of the No. 6 opposite. One great advantage which this Double Wheel Hoe possesses is that it can be made into a practical Single Wheel Hoe in a moment's time. As a Double Wheel Hoe it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled with malleable castings, gives great strength, together with lightness. This tool with side hoes only ("Iron Age," No. 3), price $10.00.

Fig. 70, showing the Double Wheel Hoe set up as a single Wheel Hoe

No. 301-R "Iron Age" Double and Single Wheel Hoe. Price, complete, $14.00.

THE COMPLETE "IRON AGE" BOOK SHOWING THESE VALUABLE UP-TO-DATE LABOR SAVERS SENT FREE ON REQUEST
**Planet Jr.** Farm and Garden Tools

**Planet Jr. No. 3 Hill and Drill Seeder**
Price, $21.00

This seeder is the most perfect development of the hand seed drill. It sow evenly in drills, and also drops in hills at 4, 6, 8, 12 or 24 inches apart. No time is lost, no seed is wasted. It quickly sets to sow the different kinds of seed.

The accurate hill-dropping drill, which gives a regular stand of plants with the least seed, saves its cost over and over again in seed alone. No. 5 drill holds 5 quarts, 16½ inch steel wheel. The best drill for large market gardeners. Price, $21.00.

**Planet Jr. No. 12 Double Wheel Hoe, Cultivator and Plow.**
Price, $15.00

Two acres a day can easily be worked with this implement, and when it is done it will be a better job than three men could have done in the same time with hand hoe. The No. 12 runs either astride of, or between the rows, kills all the weeds and leaves the earth in line shape. Then, too, it’s so easy to work. Twelve-year-old girls work gardens with them with ease and success. No. 12, same as No. 12, but with hoes only, $10.50.

**Planet Jr. No. 31 Combined Seeder and Wheel Hoe.**
Price, Complete, $15.00

A thoroughly reliable and practical tool for the family garden. Sows all garden seed, from the smallest up to peas and beans, and is a first class light running wheel hoe that will delight the man, woman or growing boy who looks after the home garden. Will save time, labor and seeds.

No. 31, sold as a Seeder only (No. 31D), $12.00, or as a Wheel Hoe without the seeder (No. 33), $7.50.

**Planet Jr. Star Pulverizer, Leveler and Weeder**

This new tool is especially adapted for preparing the seed bed prior to sowing, and will be found of great value in spreading and fineing the soil surface, also used as a weeder between the rows or as a crust breaker. It is a great tool for the small garden, while the vegetable grower will find many uses for it, especially under the wide spreading of over head irrigation. Works equally well both forwards and backwards. $7.40.

**Planet Jr. No. 104 Horse Hoe and Cultivator.**
Price, $17.50

A new Planet Jr. Horse Hoe. Light but very strong. Lever wheel and lever expanders. Allow priced tool that will please every farmer, truck- er and gardener. Price without wheel, $16.00. This tool is made up to the Planet Jr. standard and is fully guaranteed.
Thoroughbred Poultry and Eggs for Hatching

In presenting this, our Poultry Department, we first desire to thank our many friends and customers for their most liberal patronage. Their orders have been thankfully received, and, we trust, filled to their entire satisfaction. The many testimonial letters received would at least warrant our claim to be the case. If, however, there are any who feel they have not received proper treatment at our hands, we want to know it, as it is our earnest desire to deal fairly with all, and to give full value for all money received. It is on these lines that we have built up the enormous business which we feel pardonable pride in. We hope to continue to receive a share of your patronage and shall try to please you, and we will fill all orders promptly and as accurately as possible.

The prices quoted, which are the very lowest, are for first-class breeding fowls, from the very best strains and properly mated. We ship to any State or Territory safely by express only.

We guarantee all eggs fresh and true to name, and use the utmost care in packing. We guarantee our breeding stock to be strong, hardy and vigorous birds and from heavy laying strains. We have frequently sent eggs from 1,000 to 3,000 miles, and had twelve out of fifteen hatch successfully, and guarantee safe arrival, but in case of breakage, customers should get the amount of damage written in ink by the agent, when you receive the goods. No eggs shipped between May 15th and December 1st. We can ship hatching eggs by Parcel Post cost, 1st, 2d and 3d zones, 50c. 7th and 8th zone, 45c. Include 5c extra per setting if to be insured.

---

**Silver-Spangled Hamburgs**

The Silver-Spangled Hamburgs are one of the most beautiful varieties that can be found on the poultry list. No one can pass a flock of them without a glance of admiration; for beauty they are unsurpassed, and too much could not be said of this wonderful and beautiful breed. As egg producers, they stand in the front rank, laying from 100 to 115 eggs per year. Chicks grow very fast and mature very early, pullets often begin laying when four months old. They are very small feeders. Their plumage is a silver white, the ends of each feather being tipped with black, and the flesh is juicy and tender. Male weight from 4½ to 5¾ lbs.; females from 3½ to 3¾ lbs. Prices: Extra selected cockeral, $5.00; extra selected female, $3.50; extra selected trio, one male and two females, $10.00; eggs, per dozen, $6.50 per dozen, $4.50 per 100, $14.00.

**Silver Penciled Plymouth Rocks**

qualities usually found in the other varieties of Rocks. Their plumage is much like that of Silver Laced Wyandottes, only that they are distinctly penciled instead of laced, and make a very fine appearance on any yard or lawn. One will never regret ordering a few sets of this magnificent breed. They are perfect. Prices: Extra selected cockeral, $6.00 each; extra selected female, $3.50 each; extra selected trio, one cockeral and two females, $12.50; eggs, per dozen, $6.00 per dozen, $4.50 per 100, $14.00.

**Barred Plymouth Rocks**

A description of this grand and well-known American breed is hardly necessary. They have good-sized, clean, bright yellow eggs; are adapted to any locality, whether the climate be hot or cold, are the best of layers, hardy and vigorous. The hens make good mothers, and the chicks grow and fatten quickly for market; in short, one of the most profitable varieties in existence, the acknowledged farmer's fowl. Our stock of Plymouth Rocks is the very best, and can be found anywhere. Standard for all breeds of Plymouth Rocks. Weights are, males, 9½ lbs.; females, 7½ lbs. Prices: Extra selected male, $5.00; extra selected female, $3.50; extra selected trio, one cockeral and two females, $10.00; eggs, per dozen, $6.00 per dozen, $4.50 per 100, $14.00.

**White Plymouth Rocks**

They resemble the Barred Rocks in every respect excepting in the color. Their flesh is in fine texture and very richly flavored. They are excellent egg producers, and as winter layers are unsurpassed; their eggs are large and of good quality. The chicks are hardy and vigorous. Prices same as Barred Plymouth Rocks.

**Buff Plymouth Rocks**

The Buff Plymouth Rocks are thought by many to be much handsomer than their barred or white cousins. They possess the same characteristics with the exception of color. Prices: Extra selected male, $6.50; extra selected female, $3.50; extra selected trio, one cockeral and two females, $12.50; eggs, per dozen, $6.00 per dozen, $4.50 per 100, $14.00.

**Partridge Plymouth Rocks**

These Partridge Plymouth Rocks are a new breed that is sure to gain great popularity in a very short time. They are ideal winners, and that will be in great demand should order eggs of this variety. The plumage resembles that of the Partridge Cochinchin in every respect. This Partridge Cochinchin has been strictly selected over a number of years, and is not inferior to the best. The Partridge Cochinchin is reliable. Our stock is the best in the country, and will not disappoint you as we are sure to produce Prize Winners. Standard weights for Partridge Wyandottes, males, 9½ lbs. Prices: Extra selected male, $5.00; extra selected female, $3.25; extra selected trio, $10.00; eggs, per dozen, $6.50 per dozen, $4.50 per 100, $14.00.

**Golden Laced Wyandottes**

The plumage of Golden Laced Wyandottes is the same as that of the Silver Laced except in color, the centre of the neck, they are exceptionally good layers, one of the finest market chickens, and they are living pictures of the best. The hens make excellent mothers, good layers of eggs, and their young pullets are equal to any variety, and excel many. This is one of the oldest varieties and a pure American breed. They are very hardy, chicks grow rapidly and mature early. Pullets often begin laying at from six to fifteen months old. Prices: Extra selected male, $5.00; extra selected female, $3.50; extra selected trio, $13.50.

---

**Columbia Wyandottes**

The Columbia Wyandotte is a beautiful, ornamental and utility fowl combined. They excel all others in the market, and the old blood, having yellow skin, they dress well and command high prices in market. Our stock began laying when fifteen months old, and the best of the best, having bred them many years, and we are confident our stock will please you.

Prices: Extra selected male, $5.00; extra selected female, $3.50; extra selected trio, $12.50. Eggs from prize winning stock, $3.50 per dozen, $2.50 per 100, $14.00.

**Prices:**
- Extra selected male $7.50
- Female $4.50
- Trio $14.50
- Eggs per 15 $5.00, per 30 $4.50.

Blue Andalusians are a fast-growing breed. They are good layers and are very hardy.

**Prices:**
- Extra selected male $6.50
- Female $3.50
- Extra selected trio $12.00
- Eggs per 15 $5.00, per 30 $4.50.

Mottled Anconas are a popular breed. They are good layers and are very hardy.

**Prices:**
- Extra selected male $5.00
- Female $3.50
- Trio $10.00
- Eggs per 15 $5.00, per 30 $4.50, per 100 $12.00.
R. & S. C. Rhode Island Reds  The Rhode Island Reds are gaining popularity every year. The plumage of the cock is a brilliant rich red, except where black appears. They are good layers, make an excellent table fowl, and are good broilers. They have a fine flavor. Our strain is the best obtainable.

Prices:  Extra selected male, $5.00; extra selected female, $2.50; trio, $11.00; eggs, per 15, $2.50; per 330, $4.50; per 50, $6.50.

Houdans  The Houdan is of French origin, an excellent layer of beautiful, large white eggs. They are one of the best market fowls, having a nice white flesh, juicy and tender. They belong to the non-sitters. Standard weights, male, 7 lbs.; female, 5 lbs.

Prices:  Extra selected male, $6.00; female, $4.00; trio, $15.00; eggs, per 15, $3.00; per 30, $5.50.

Buff Orpingtons  This is a beautiful breed of fowls. Their combs, wattles, and ear lobes are bright red, and their legs and toes are almost white. Their plumage is one even shade of buff throughout; the head, neck, hackle, back and saddle are richly glossed with a metallic lustre. They make an excellent table fowl.

Prices:  Eggs, per 15, $1.00; per 30, $3.00; per 50, $5.00; per 100, $15.00; extra selected male, $6.00; female, $3.50; trio, $12.00.

Single Comb White Leghorns  Lady Leghorns, the breed large, fast winners. Our stock is fine bred with that winning quality and everlasting laying habit. They are identical with the R. C. Brown Leghorns except the comb; weights and prices same as the Rose Comb.

Single Comb Black Minorcas  Black Minorcas combine two points that render them desirable to the fancier—beautiful and egg productive. They have large, neatly covered bodies with full breast and weigh fully one-third more than any other of the Mediterranean class. Their red comb, nose, face, and wattles, with pure white cars, contrast handsomely with the greenish-black plumage, which has a rich metallic luster. As egg producers, they are remarkable for their eggs of clear, deep, rich white, and very large. 

Prices:  Extra selected male, $5.00; extra selected female, $3.25; extra selected trio, $10.00; eggs, per 15, $2.50; per 30, $4.50; per 50, $8.50.

Single Comb White Minorcas  The White Minorcas are handsome and egg productive. They have a beautiful white color, which gives them a very attractive appearance. They are non-sitters, very easily bred, very hardy and easy to care for. The cock has a single comb and very early. Ready for brooders ten or twelve weeks after hatching. The cock is six weeks old the cockerel commence crowing. The pullets are in full feathers and commence laying in three months. Our yards are composed of the most noted leghorn, and are selected for this all over the country as prize winning stock.

Prices:  Extra selected male, $6.00; female, $3.50; eggs, per 15, $3.00; per 30, $5.50; per 50, $9.75; per 100, $12.50.

Rose Comb Brown Leghorns  The Rose Comb Brown Leghorns are very popular, being better adapted to our colder climate than the Single Comb varieties. As egg producers, they stand very high, and in size rank with other Leghorns. They are small eaters and good foragers. Our strain is the best obtainable.

Prices:  Selected male, $5.50; female, $3.50; trio, $8.50; eggs, per 15, $3.00; per 30, $4.50; per 50, $8.50; per 100, $12.00.

Partridge Cochins  The carriage is quiet and dignified. In the winter, however, they are good layers. They are very large and are a profitable cross for increasing the size, hardiness, and early maturing of-barnyard fowls, for which purpose they are in great demand. They may be confined by a low fence, three feet high. Their feathers are not easily shed, and they make fine hatching pullets. The pullets of medium size, weigh 7 to 10 lbs. 

Prices:  Extra selected male, $6.00; female, $4.50; extra selected trio, $15.50; eggs, per 15, $3.00; per 30, $4.50; per 100, $17.00.

Will Recommend Us  THOMAS LAWS, PITTSBURGH, PA., writes us: The fifty Golden Campine eggs you shipped me hatched out 45 fine healthy chicks and I raised 46 of them. Received the turkeys in fine shape, and am very much pleased with them. I will soon send my order for eggs a better winter layers than the single comb variety. They are hardy chicks, easily raised, pullets begin laying quite young if well cared for. Fine foragers, eggs hatch well, they bear confinement well, and are very hardy.

Prices:  Extra selected male, $5.50; female, $3.50; trio, $8.50; eggs, per 15, $3.00; per 30, $4.50; per 50, $8.50; per 100, $12.00.

Partridge Cochins  The carriage is quiet and dignified. In the winter, however, they are good layers. They may be confined by a low fence, three feet high. Their feathers are not easily shed, and they make fine hatching pullets. The pullets of medium size, weigh 7 to 10 lbs. Females, 5 to 12 lbs. 

Prices:  Extra selected male, $6.00; female, $4.50; extra selected trio, $15.50; eggs, per 15, $3.00; per 30, $4.50; per 100, $17.00.
White Orpingtons

(Bred from the famous Kollerstraat Strain.)

The White Orpington has come to stay: it is claimed by many of the best authorities as being the least all-purpose fowl in existence to-day. As layers they rank with many of the Lechnorns and Hamburgs. They begin laying at an early age; pullets begin laying under five months; boys laying under five months; they are large size, symmetrical shape, excellent mothers and keep the egg basket filled when eggs bring the highest prices. They make fine broilers at an earlier age and at a less cost than any other breed of fowls; as to eating qualities they cannot be excelled by any other breed, their meat being juicy and of fine flavor. We have many trap tested fancy birds which are bred to lay; only the very best layers are used to breed from; vigorous and healthful stock is offered at any price you want to pay.

Prices: Selected males, cock or rooster $6.00; female $3.25, trio $12.00; Extra selected males, trio $12.50; extra selected female $10.00, trio $30.00, eggs each 70c, per 10 $7.00.

Single Comb Black Orpingtons

Black Orpingtons are the last acquisition in the Orpington family, and as there is an Orpington craze sweeping the country, the Black and the last should not be overlooked. As a black fowl they are the most stately of all varieties. In all other respects they are the same as the White Orpington. Standard bred to perfection and we have several large flocks.

Prices: Extra selected male $6.00, female $3.50, eggs per 15 $5.00, per 30 $10.00.

White Faced Black Spanish

They need no description, as all farmers recognize them at a glance. They are large birds, and good layers, and can be given their liberty at all times on the lawn or garden, for they never scratch.

Prices: Extra selected male $6.50, female $3.75, per 15 $13.00; extra selected female $3.25, extra selected trio $10.00.

Pearl Guineas

They are very hardy, easy to raise, great layers, laying more than 200 eggs in a season, single season, a single season, a single season. They are very attractive and can be given their liberty at all times on the lawn or garden, for they never scratch.

Prices: Extra selected stock, male $3.50, female $2.75, trio $7.50, eggs per 15 $2.50, per 30 $4.75.

White African Guineas

White African Guineas are much more valuable for eating or market purposes than any other varieties. They are large birds; their flesh is more delicate and better flavored than any other kind of guineas. They are universal layers and will produce eggs until cold weather. Their eggs are always on the lookout and save many a small chick from cold weather. They are very strong and healthy;

Prices: Extra selected male $3.50, female $2.75, trio $7.50, eggs per 15 $2.50, per 30 $4.75.

Standard Mammoth Bronze Turkeys

Our Standard Mammoth Bronze is the hardiest of all turkeys, and the most extensively raised of any breed. Gobblers frequently weigh upwards of 40 lbs. They are good layers, many claiming them for over one hundred eggs in a season. Pinnage of male back and breast is a brilliant bronze hue, which shines in the sunlight like burnished gold. The wing coverta are a beautiful bronze, the feathers terminating in a wedge of narrow, narrow bands of light brown, and ending in broad black band, with a streak of white. The young of all turkeys can be handled and reared by Plymouth Rock hens or any other hardy fowls.

Prices: Extra selected male $12.50, extra selected female $10.00, extra selected trio $30.00, eggs each 70c, per 10 $4.00.

White Holland Turkeys

The White Holland Turkeys are a domesticated type, and are raised in many countries, South America, Australia, and this country, and will stay near at home, not roaming so far away as the Mammoth Bronze Turkeys. They are splendid for market and table purposes. Our stock is of extra large size. Their plumage is snow white throughout. The turkeys are the most popular and profitable domesticated fowl.

Prices: Extra selected male $12.50, extra selected female $10.00, extra selected trio $30.00, eggs each 70c, per 10 $7.00.

Bourbon Red Turkeys

This valuable new and interesting type is a comparatively new variety of turkeys in this country, but are meeting with great approval with all those who have tried them. They are large, standard weight, coming to maturity and laying at 18 months. They are very hardy and less subject to diseases than other types. They are very profile in the eye, as they are rich red color, shading to a bluish white.

Prices: Extra selected male $12.50, extra selected female $10.00, trio $30.00, eggs each 70c, per 10 $7.00.
Sicilian Buttercups

Buttercups are absolutely non-sitters, their whole thought and force is concentrated seemingly to run to the production of eggs. Spring, Summer, Autumn and Winter, nothing but eggs. In fact they are one of the few breeds that have made a record of nearly 300 eggs within a calendar year. Their bodies are very plump and heavy for their size, which is about on a par with Leghorns, and come to naturally early, our June hatched chicks beginning to lay in September, and continuing without interruption through the coldest January and February weather. Prices: per 15, $3.50; extra selected males, $6.00; female, $4.00; trio, $12.00.

Hong-Kong or Chinese Geese

They are unexcelled for pure white plumage, the other even shade of gray, like the Toulloune. They are a smaller breed than the Toulloune, but excel in egg production. They lay two or three eggs at a time, many eggs as other breeds. The peculiar blue shade of the bill makes them at once odd and ornamental. They are somewhat of an ornamental in shape and have many known varieties. Many fanciers prefer the China Geese. They are easy to raise. White breed both white and gray. Prices: Extra selected males or female, $7.50 each; trio, $21.50.

Toulloune Geese

The Toulloune Geese, both male and female, are very beautiful in proportion. Their bills and feet are dark orange color; head, neck and back a dark gray; breast light gray; their necks and tails are pure white. Both males and females are uniform in color, either alike to a feather. Goose raising is very profitable, as they need no grain in the summer when they can have plenty of water and grass to feed on, and are small feeders in winter. Now while the expense is so light to keep them, and you can, on the other hand, pick their feathers four times in one season, making about two pounds of feathers from one goose, which is worth $1.50 to $2.50, besides the young you can raise, makes them very profitable. Prices: Extra selected males, $7.50; extra selected trio, $21.00; eggs, 50c each; per 10, $5.50.

White Emden Geese

The Emden are an excellent breed of geese, and do not differ materially from the Toulloune except in color, which is pure white. Standard weights and prices same as Toulloune.

Large Gray African Geese

Those originating from Africa, they resemble the Chinese and are a foragers, good layers, sitters and mothers. When full grown weigh about 20 pounds each, and are producive layers.常 lay 50 to 100 eggs in a season.

Mammoth Imperial Pekin Ducks

They have the many good qualities, their color being pure white. Their size is not uniform; eggs of large size, shell nearly always pure white. They are very hardy, develop rapidly and are very profitable. A stock is the typical Indian Runner type and are now classed as the foremost Duck on account of their enormous laying capacity. We can furnish eggs from two Ducks breed breed. They are excellent layers, fine table fowl and are more like a wild goose or duck in flavor than any other Duck. They are very hardy and thrive exceedingly well, especially in a frost. Wild ducks are a spotless white. The males are much larger than Pekins. Their straint is the result of long years of very careful breeding with a view of obtaining large size, quick growth and large plump brown and orange eggs. Standard weights, drakes, 5 lbs.; ducks 8 lbs. Prices: Extra selected males, $7.00; extra selected females, $5.50; extra selected trio, $12.50; eggs, per 13, $3.00; per 25, $4.75; per 50, $8.50.

White Indian Runner Ducks

They have the same good qualities as the white and differ only in color of plumage. Prices for eggs and stock the same.

Golden Sebright Bantams

The Golden Sebrights are the popular Bantams on earth with their gay feathers—golden lined with jet black, with for themselves the admiration of all poultrymen. As egg producers, they are unsurpassed, laying more eggs to the amount of grain consumed in any other breed. They are good layers and sitters and mothers. The chicks are hardy and easily raised. Prices: Male, $4.00; female, $3.00; trio, $9.00; eggs per 15, $2.50.

White Cochin Bantams

The White Cochins are a very beautiful breed of small fowl. In color they are a golden buff, same as the Buff Cochins, except the cock is usually dark, almost black. They are a latter breed of ducks, being imported from India.

Buff Cochin Bantams

They have the same good qualities as the white and differ only in color of plumage. Prices for eggs and stock the same.

Golden Sebright Bantams

The Golden Sebrights are the most popular Bantams on earth with their gay feathers—golden lined with jet black, with for themselves the admiration of all poultrymen. As egg producers, they are unsurpassed, laying more eggs to the amount of grain consumed in any other breed. They are good layers and sitters and mothers. The chicks are hardy and easily raised. Prices: Male, $4.00; female, $3.00; trio, $9.00; eggs per 15, $2.50.

Fawn Indian Runner Ducks

They have the same good qualities as the white and differ only in color of plumage. Prices for eggs and stock the same.

American Turnip Spinach

This useful vegetable is of easy cultivation and should be in every garden. The leaves have a distinct and delicious flavor and are placed in salads or boiled and prepared like spinach. The beautiful yellow flowers can be used to garnish salads. It is also a valuable honey bee plant. Cultured same as ordinary spinach. The leaves, which are produced in great quantities, can be gathered all summer up until hard frost. Can be kept in a frame all winter. Your garden is not complete without it. 1 Oz. will sow 20 feet of drill. Pkt. 10c., oz. 25c., lb. 75c., lb. $3.00.

American Turnip Spinach. This turnip makes no bulbs but produces an enormous quantity of tender tops of a distinct and different flavor which is used as spinach greens or salad. It gives a prolific growth of tops all summer when ordinary spinach is gone to seed. The same plant will afford repeated cuttings until hard frost. One ounce will sow 150 feet of drill. Pkt. 10c., oz. 20c., lb. 60c., lb. $2.00.

Holt's Mammoth Sage

This Sage is of strong growth, attains a height of 3 foot the first season and spread so that a single plant covers a space 3 feet in diameter. They are perfectly hardy and make a still larger growth the second season. Our illustration shows a leaf of natural size; they are borne well above the ground, are strong in flavor, of unusual substance and of superior quality. Does not seed. Price, each, 15c. for 25c.; 7 for 50c., 12 plants for $1.00 by mail, postpaid.
MOORE’S MARYLAND PEACH BLOW POTATO

This grand new Potato is undoubtedly one of the wonders of the agricultural world. It is quite a early variety ripening about the same time as our Early Monarch. It is one of the greatest general purpose potatoes in the world today. It is good for early, it is good for midsummer, it is good for the late summer, it is good for the fall and it is a magnificent winter keeper. The flesh is pure white, of extra fine quality, cooking dry and flouey: the skin is a light pink, the eyes usually a darker red. It is one of the hardiest potatoes known and remarkably well adapted to light and sandy land. The vines seem to be immune from all disease, usually produce from five to eight large potatoes to the hill. The eyes are few. There is no potato that is as well adapted for late planting as our Maryland Peach Blow. For one that is adapted to all soil, and every time a general purpose family potato. As a market sort it ranks among the most profitable. Under good cultivation a yield of from 200 to 400 bushels per acre 600 bushels is not uncommon; and we challenge the world to produce a better or sooner cropper or a better potato for late planting or a better winter keeper. We advise every potato grower to plant it, no matter whether for home use or market. We especially recommend it for a late fall crop. Its great productivity, handsome color and resistance to blight makes it one of our most popular sorts. It is sure to please. Price, 1 pk. 65c, pk. $1.25, bu. $2.25, bu. $4.00, bu. $8.00.

Moore’s Early Buck Mountain Garden Corn

MOORE’S BUCK MOUNTAIN GARDEN CORN should be planted by every one growing for home use, home market or shipping. A sure variety for satisfaction and profit for all who plant it. It is ready a week earlier than Adams’ Extra Early and nearly twice the size: rows straight and parallel. It presents a very attractive appearance and it is of excellent table quality. It is very hardy; should be planted a month earlier than Evergreen Sugar. It adapts itself to any kind of soil, either sand or heavy clay. Three ears to a stalk is not unusual and many nearly as large as Moore’s Snow White Evergreen. Plant it early. It has become so popular that in no season have we been able to fill all the orders from the many thousands of our customers. Don’t be afraid to plant it freely. Plant it early and you will not only have early corn but early money as well. Its quality and sweetness leave nothing to be desired in so early and heavy yielding corn. Our word for it. Pkt. 10c, pt. 25c, qt. 45c, 4 qts. $1.50, pk. $2.75, bu. $10.00.
